Developmental Psychology Second Edition provides a theory driven approach to understanding human development from two perspectives the psychoanalytic and the cognitive These two perspectives which form the first sections of the book complement one another The third section of the book brings together thoughts on the South African context and the impact it has on development

Being Human in an Artificial World Geoffrey W. Cheong, 2024-06-01 The vision of Raimon Panikkar is to examine an understanding of the fullness of the human experience understood ultimately in the iconic image of Jesus the Christ This book aims to explore an understanding of his work in context context of the history of humanity the emerging integral era of perception the context of the contemporary secular society which he speaks of as an artificial life and the context of creation and the creator As creature he sees the secret of life in the inter relational nature of the three creature creation and creator The unique nature of this mysterious three way unity leads him to coin a term to speak of its nature as Cosmotheandric His extensive academic background of philosophy theology and science and the broad life of spirituality lived in the context of the interreligious world of both East and West equips well his mind to probe life's nature Of his many students Ewert Cousins asks the pertinent question of how to live Panikkar's vision It is the author's contribution to respond to Cousins question while drawing upon Panikkar's cosmotheandric concept by drawing upon contemporary knowledge through the model of the scriptural wisdom to love God and one's neighbour as one's self This he refers to as Relational Spirituality The integral era of history is appearing on the horizon of the global psyche to birth a new era of human mindfulness like never before Carl Jaspers has highlighted two major times of transition shaping humankind through the passing millennia that have moved

humanity from a simple human life to the highly complex time of today Jaspers spoke of the transition in human consciousness through the millennium prior to the life of Jesus Christ as the First Axial Period of History Martin Heidegger Teilherd de Chardin Jean Gebser Ken Wilber Ewert Cousins Raimon Panikkar are some of the thought leaders of our time who have made major contributions to this understanding of the emerging Integral awareness For many the disturbing changes encountered on the surface of society ring loudly of crisis Secularisation is the dominant life style primarily shaped by the cyber revolution and its Artificial Intelligence Most concerning is the range of questions humans face about their personal value and loss of substantial meaning Dr Cheong draws upon the great minds listed above in particular the work of Raimon Panikkar to map a pathway for growing more fully into an Integral way of life which he refers to as Relational Spirituality

Archetype Revisited Anthony Stevens,2015-06-05 Archetype A Natural History of the Self first published in 1982 was a ground breaking book the first to explore the connections between Jung's archetypes and evolutionary disciplines such as ethology and sociobiology and an excellent introduction to the archetypes in theory and practical application as well C G Jung's archetypes of the collective unconscious have traditionally remained the property of analytical psychology and have commonly been dismissed as mystical by scientists But Jung himself described them as biological entities which if they exist at all must be amenable to empirical study In the work of Bowlby and Lorenz and in studies of the bilateral brain Anthony Stevens has discovered the key to opening up this long ignored scientific approach to the archetypes originally envisaged by Jung At last in a creative leap made possible by the cross fertilisation of several specialist disciplines psychiatry can be integrated with psychology with ethology and biology The result is an immensely enriched science of human behaviour In Archetype Revisited Stevens considers the enormous cultural social and intellectual changes that have taken place since the publication of the original edition and includes An updated chapter on The Archetypal Masculine and Feminine reflecting recent research findings and developments in feminist thinking Commentary on the intrusion of neo Darwinian thinking into psychology and psychiatry Analysis of what has happened to the archetype in terms of our understanding of it and our responses to it This Classic Edition of the book includes a new introduction by the author
