Document 1

This is an excerpt from Winston Churchill's "Iron Curtain" speech, March 5, 1946.

From Securin in the Baltic to Trieste in the Adriatic, an iron curtain has descended across the continent. Behind that line lie all the capitals of the ancient states of Central and Eastern Europe. . . . All these famous cities and the populations around them lie in the Soviet sphere and all are subject in one form or another, not only to Soviet influence but to a very high and increasing measure of control from Moscow.

How is the "iron curtain" a dividing line?

Cold War Kelly Mass,2024-01-16 Between 1947 and 1991 the United States and the Soviet Union engaged in an escalating geopolitical confrontation known as the Cold War Historians differ on the exact start and end dates of this period with some pointing to the Truman Doctrine in 1947 and the dissolution of the Soviet Union in 1991 Throughout this era there was no direct large scale warfare between the two superpowers but they sponsored significant regional conflicts often referred to as proxy wars which earned the title of a cold war The rivalry began after their temporary alliance and victory over Nazi Germany in 1945 as both countries sought global dominance based on their respective ideologies and geopolitical interests While nuclear weapons and conventional military forces played a role in this struggle for supremacy other methods such as psychological warfare propaganda espionage extensive embargoes and competition in areas like sports and the Space Race were also employed The Western Bloc led by the United States and other First World nations was generally characterized by liberal democratic principles However they were often allied with authoritarian regimes many of which were former colonies of Western powers On the other hand the Eastern Bloc dominated by the Soviet Union and its Communist Party had a significant influence on the world during and after World War II Russia supported communist parties and revolutions worldwide while the United States backed right wing regimes and movements The Cold War s battleground extended to nearly every colonial state as they gained independence between 1945 and 1960

The Iron Curtain Fraser J. Harbutt,1988-10-13 It was forty two years ago that Winston Churchill made his famous speech in Fulton Missouri in which he popularized the phrase Iron Curtain This speech according to Fraser Harbutt set forth the basic Western ideology of the coming East West struggle It was also a calculated move within and a dramatic public definition of the Truman administration s concurrent turn from accommodation to confrontation with the Soviet Union It provoked a response from Stalin that goes far to explain the advent of the Cold War a few weeks later This book is at once a fascinating biography of Winston Churchill as the leading protagonist of an Anglo American political and military front against the Soviet Union and a penetrating re examination of diplomatic relations between the United States Great Britain and the U S S R in the postwar years Pointing out the Americocentric bias in most histories of this period

Harbutt shows that the Europeans played a more significant part in precipitating the Cold War than most people realize. He stresses that the same pattern of events that earlier led America belatedly into two world wars namely the initial separation and then the sudden coming together of the European and American political arenas appeared here as well. From the combination of biographical and structural approaches a new historical landscape emerges. The United States appears at times to be the rather passive object of competing Soviet and British maneuvers. The turning point came with the crisis of early 1946 which here receives its fullest analysis to date when the Truman administration in a systematic but carefully veiled and still widely misunderstood reorientation of policy in which Churchill figured prominently led the Soviet Union into the political confrontation that brought on the Cold War.

Debating the Origins of the Cold War Ralph B.

Levering, Vladimir O. Pechatnov, Verena Botzenhart-Viehe, Earl C. Edmondson, 2002-03-26. *Debating the Origins of the Cold War* examines the coming of the Cold War through Americans and Russians contrasting perspectives and actions. In two engaging essays the authors demonstrate that a huge gap existed between the democratic capitalist and global vision of the post World War II peace that most Americans believed in and the dictatorial xenophobic and regional approach that characterized Soviet policies. The authors argue that repeated failures to find mutually acceptable solutions to concrete problems led to the rapid development of the Cold War and they conclude that given the respective concerns and perspectives of the time both superpowers were largely justified in their courses of action. Supplemented by primary sources including documents detailing Soviet espionage in the United States during the 1930s and 1940s and correspondence between Premier Josef Stalin and Foreign Minister V M Molotov during postwar meetings this is the first book to give equal attention to the U S and Soviet policies and perspectives.
