Selected Chapters from Débuts H. Jay Siskin, Ann Williams-Gascon, Thomas T. Field, 2009 Hegel and Schelling in Early Nineteenth-Century France Kirill Chepurin, Adi Efal-Lautenschläger, Daniel Whistler, Ayşe Yuva, 2023-11-29 Hegel and Schelling in Early Nineteenth Century France is a two volume work that documents the French reception of G W F Hegel and F W J Schelling from 1801 to 1848 It shows that the story of the French Hegel didn't begin with Wahl and Kojve by giving readers a solid understanding of the various ways in which German Idealism impacted nineteenth century French philosophy as well as providing the first ever English language translations of excerpts from the most important philosophical texts of the era Inside volume two readers will find a series of scholarly studies to help them get to grips with this neglected field in the history of ideas The contributors are world leading and emerging experts from Europe UK and North America They highlight the stakes and trace the pathways of this reception for French and German thought during the period including the ways in which French philosophers of the period took up the debates and concepts of German Idealism transformed them or rejected them In this way the volume aims to redress the serious neglect of early nineteenth century French thought in English language scholarship and in so doing goes beyond a nation based narrative of the history of philosophy Figures covered in the volumes include major philosophers such as Cousin Leroux Proudhon Quinet Ravaisson Renouvier and V ra as well more neglected figures like Barchou de Penho n B nard L bre Lerminier Pictet and Willm *Forthcoming Books* Rose

Arny,2003 *Subject Guide to Books in Print* ,1971 French Orientalist Literature in Algeria, 1845-1882 Sage

Goellner,2018-03-06 This book applies the growing theoretical field of hauntology to a body of literature which has previously been examined through the lenses of Orientalism and exoticism Through a chronological study and close readings of the writings of Thophile Gautier Eugene Fromentin Gustave Flaubert and Pierre Loti the project identifies haunting echoes within the texts which demonstrate an ambivalence of attitudes towards colonialism and which undermine any claim towards a monolithic imperialist French ideology Whereas hauntological theory has been used to illuminate literature from the Francophone post colonial period it has not yet been applied to texts produced during the French colonial period The originality of this project thus lies in the application of Derridean hauntological theory to works from an earlier period each of which in one way or another addresses the theme of colonial violence By revisiting four classic works of colonial Orientalism with haunting as a principal theme this analysis provides a critical witnessing of France's violent colonization of Algeria that demonstrates France's latent anxieties about the colonial project at the time
