Learners Without Borders Yong Zhao, 2021-06-30 The future of education centers empowered students in a global learning ecosystem Despite decades of reform the traditional borders of education graduation curriculum classrooms schools have failed to deliver on the goals of excellence and equity Despite massive societal changes education remains controlled by an old mindset It is time to change that limiting mindset and more importantly the ineffective practices in education To truly serve all learners future classrooms must remove the boundaries of learning and become student centered culturally responsive and personalized supportive and equitable environments where each student can direct their own learning and seek multiple pathways to skills and knowledge in a global learning ecosystem This compelling call for transformative change offers all involved in education Evidence based arguments that reveal the need to break the traditional borders that limit learning Strategies to personalize learning and remove the confinement of traditional pathways Examples from around the world to create equitable and student centric learning environments Resources for creating a school learning environment that expands opportunities for personalized learning into the global learning ecosystem It is time to now imagine a different kind of learning without

borders and to begin the shifts in practice that will result in personalized learning for all students

The Self-Transforming School Brian J. Caldwell, Jim M. Spinks, 2013-07-18 The Self Transforming School combines an insightful meta analysis of factors contributing to the success of schools and an examination of powerful mega trends that are shaping developments in education to offer the first mega analysis in education policy and practice The book spans fifty years beginning with Caldwell and Spinks ground breaking work The Self Managing School which advocated innovative approaches that are now accepted as preferred practice before offering a prognosis and plan for the future The book argues that all schools in all settings can secure success for all students in an era where society and the economy are changing constantly and dramatically Although schools find some support in local and global networks externally designed re structuring re staffing or command and control direction isn't sufficient to achieve transformation Instead of replicating particular approaches to achieve modest improvement leadership of the highest quality needs to be deeply embedded in schools and their systems Caldwell and Spinks propose three important points that need to be taken into consideration schools are often at different stages of self transformation self transformation requires a high level of professionalism and must include teacher education and on going professional development funding is critically important and efforts to build a capacity for self transformation are constrained by what is available The book gives particular attention to developments in Australia Brazil Canada England Finland Hong Kong India New Zealand Shanghai Singapore and the United States It will be of key interest to school leaders policy makers and academics and postgraduate students engaged in research on equity student performance in highly disadvantaged settings and education policy

Transforming Education through the Arts Brian Caldwell, Tanya Vaughan, 2011-11-17 This timely book takes up the challenge of maintaining programs in the arts in the face of unrelenting pressure from two directions the increasing focus on literacy and numeracy in schools teamed with the cut backs in public funding that often affect the arts most severely Drawing on the wealth of evidence already available on the impact of the

Handbook of Prosocial Education Philip M. Brown, Michael W. Corrigan, Ann Higgins-D'Alessandro, 2012-10-12 Handbook of Prosocial Education is the definitive theoretical practical and policy guide to the prosocial side of education the necessary second side of the educational coin Academic teaching and learning are the first side of education however academic success depends upon the structures and support of prosocial educational efforts from promoting positive school climate to fostering student and teacher development to civic literacy and responsible and critical citizenship participation The Handbook of Prosocial Education chapters written by highly respected researchers and

outstanding educators represent the wide range of research based prosocial interventions from pre school through high school The chapters explore and explain how prosocial education helps teachers create effective classroom learning environments to support the development of the whole student principals encourage positive school climate and superintendents work to improve the health and well being of their systems As readers will learn when done well prosocial education develops the capacities and competencies of students teachers and school administrators that lead to a more autonomous positive self concept greater sense of purpose more socially responsible behaviors and increased connections between families schools and communities This book pulls together in one place for the first time the various threads that create the prosocial education tapestry making a compelling case for the necessity of changing national educational policy that continues to be ever more oriented to only the academic side of the educational coin thus jeopardizing the foundational and historic purpose of educating our children for their full human development and participation in our democracy
