Educational Value of the Children's Playgrounds Stoyan Vasil Tsanoff, 1897 Educational Value of the Children's Playgrounds Stoyan Vasil Tsanoff, 2015-07-08 Excerpt from Educational Value of the Children's Playgrounds A Novel Plan of Character Building This little book was written for the purpose of answering a pressing need for a better understanding of the value and possibilities of Children's Playgrounds During the four years of his connection with an association interested in the establishment of Playgrounds the writer has been impressed with the fact that the scope of the movement is very inadequately understood even by some of its warm advocates On the other hand the literature devoted to the Playgrounds idea consisting almost exclusively of some articles in the periodical reviews and the daily papers has treated them from a rather one sided point of view thus having failed to do them justice Should this treatise effect a larger appreciation of the importance of the Playgrounds and a clearer understanding of the best methods of conducting them it will be sufficient reward for the labor involved The writer will welcome every sincere and intelligent criticism as co operation in enlightening public sentiment on this momentous but seriously neglected phase of human interests About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Educational Value of the Children's Playgrounds; a Novel Plan of Character Building Stoyan Vasil Tsanoff, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1897 edition Excerpt Eeligton ant Character A resume of their dependence and independence of each other The following discussion is not based on any theological doctrines or inspired much by theological literature In fact we do not know whether the subject has been treated from the standpoint of the present treatise What we will endeavor to say therefore will be independent of the opinion of other writers It is based rather on pondering over personal religious experience and direct communication with the plain teachings of the Scriptures while studying the subject of character development I preferred not to have discussed this question here It really would not have been brought up were it not for the fact that in the popular mind the subject of religion is so closely connected almost synonymous with that of character considered in our foregoing pages as if they can by no means be dissociated So prevalent seems to be this belief that no matter what else may be said on the subject of character or the moral training of man it may be regarded as of no account unless based on religious teachings In view of this we will endeavor to explain our understanding of the relations between religion and character and thus make clearer what we believe to be the

more correct science of character development We of course do not claim infallibility in this discussion still less do we believe that the language expresses fully and correctly our thoughts We believe however that this treatise is sufficiently meritorious to justify its publication We would be satisfied if the specialists on this important and rather delicate question would take some hints of this discussion and carry it to its further development By religion in the discussion we mean

The Posse Gymnasium Journal ... ,1904 **Posse Gymnasium Journal** ,1905 **The Play World** Patricia Anne Simpson,2020-09-21 The Play World chronicles the history and evolution of the concept of play as a universal part of childhood Examining texts and toys coming out of Europe between 1631 and 1914 Patricia Anne Simpson argues that German material literary and pedagogical cultures were central to the construction of the modern ideas and realities of play and childhood in the transatlantic world With attention to the details of toy manufacturing and marketing Simpson considers prescriptive texts about how children should play treat their possessions and experience adventure in the scientific

exploration of distant geographies She illuminates the role of toys among them a mechanical guillotine yo yos hybridized dolls and circus figures as agents of history Using an interdisciplinary approach that draws from postcolonial childhood and migration studies she makes the case that these texts and toys transfer the world of play into a space in which model childhoods are imagined and enacted as German With chapters on the Protestant play ethic enlightened parenting Goethe as an advocate of play colonial fantasies children s almanacs ethnographic play and an empire of toys Simpson s argument follows a compelling path toward understanding the reproduction of religious gendered ethnic racial national and imperial identities emanating from German speaking Europe that collectively construct a global imaginary This foundational and deeply original study connects German speaking communities across the Atlantic as they collectively engender the epistemology of the play world It will be of particular interest to German studies scholars whose research crosses the Atlantic
