Edward IV The English Monarchs Series:

Richard III Charles Ross,1999-01-01 Charles Ross assesses the king within the context of his violent age and explores the critical questions of the reign why and how Richard Plantagenet usurped the throne the belief that he ordered the murder of The Princes in the Tower the events leading to the battle of Bosworth in 1485 and the death of the Yorkist dynasty with Richard himself In a new foreword Professor R A

Edward IV Charles Ross,1998-01-21 In his own time Edward IV was seen as an able and successful king who rescued England from the miseries of civil war and provided the country with firm judicious and popular government The prejudices of later historians diminished this high reputation until recent research confirmed Edward as a ruler of substantial achievement whose methods and policies formed the foundation of early Tudor government This classic study by Charles Ross places the reign firmly in the context of late medieval power politics analyzing the methods by which a usurper sought to retain his throne and reassert the power of a monarchy seriously weakened by the feeble rule of Henry VI Edward s relations with the politically active classes the merchants gentry and nobility form a major theme and against this background Ross provides an evaluation of the many innovations in government on which the king s achievement rests

Henry IV Chris Given-Wilson,2016-01-01 Henry IV 1399 1413 the son of John of Gaunt duke of Lancaster seized the English throne at the age of thirty two from his cousin Richard II and held it until his death aged forty five when he was succeeded by his son Henry V This comprehensive and nuanced biography restores to his rightful place a king often overlooked in favor of his illustrious progeny Henry faced the usual problems of usurpers foreign wars rebellions and plots as well as the ambitions and demands of the Lancastrian retainers who had helped him win the throne By 1406 his rule was broadly established and although he became ill shortly after this and never fully recovered he retained ultimate power until his death Using a wide variety of previously untapped archival materials Chris Given Wilson reveals a cultured extravagant and skeptical monarch who crushed opposition ruthlessly but never quite succeeded in satisfying the expectations of his own supporters

Edward IV Charles Derek Ross,1974-01-01 Reassesses the character reign and accomplishments of Edward IV paying special attention to the relationship between the king and the nobility and Edward s struggles to retain the throne

A Hidden History of the Tower of London John Paul Davis,2020-03-30 With these incredible and often heartbreaking stories John Paul Davis clearly demonstrates how the fortress acquired its sinister reputation History the Interesting Bits Famed as the ultimate penalty for traitors heretics and royalty alike being sent to the Tower is known to have been experienced by no less than 8 000 unfortunate souls Many of those who were imprisoned in the Tower never returned to civilization and those who did often did so without their head It is hardly surprising that the Tower has earned itself a reputation among the most infamous buildings on the planet Beginning with the early tales surrounding its creation this book investigates the private life of an English icon Concentrating on the Tower s developing role throughout the centuries not in terms of its physical expansion into a site of unique architectural majesty or many purposes but through the

eyes of those who experienced its darker side it pieces together the often seldom told human story and how the fates of many of those who stayed within its walls contributed to its lasting effect on England's and later the UK's destiny From ruthless traitors to unjustly killed Jesuits vanished treasures to disappeared princes and jaded wives to star crossed lovers this book provides a raw and at times unsettling insight into its unsolved mysteries and the lot of its unfortunate victims thus explaining how this once typical castle came to be the place we will always remember as THE TOWER The building is as imposing now as it ever was and the author's complete and thorough knowledge is imparted in grand style Books Monthly

Edward I Michael Prestwich, 2008-10-01 Edward I one of the outstanding monarchs of the English Middle Ages pioneered legal and parliamentary change in England conquered Wales and came close to conquering Scotland A major player in European diplomacy and war he acted as peacemaker during the 1280s but became involved in a bitter war with Philip IV a decade later This book is the definitive account of a remarkable king and his long and significant reign Widely praised when it was first published in 1988 it is now reissued with a new introduction and updated bibliographic guide Praise for the earlier edition A masterly achievement A work of enduring value and one certain to remain the standard life for many years Times Literary Supplement A fine book learned judicious carefully thought out and skillfully presented It is as near comprehensive as any single volume could be History Today To have died more revered than any other English monarch was an outstanding achievement and it is worthily commemorated by this outstanding addition to the corpus of royal biographies Times Education Supplement

Edward VI Jennifer Loach, 2014-11-01 Edward VI was the son of Henry VIII and his second wife Jane Seymour He ruled for only six years 1547-1553 and died at the age of sixteen But these were years of fundamental importance in the history of the English state and in particular of the English church This new biography reveals for the first time that despite his youth Edward had a significant personal impact Jennifer Loach draws a fresh portrait of the boy king as a highly precocious well educated intellectually confident and remarkably decisive youth with clear views on the future of the English church Loach also offers a new understanding of Edward's health arguing that the cause of his death was a severe infection of the lungs rather than tuberculosis the commonly accepted diagnosis The author views Edward not as a sickly child but as a healthy and vigorous boy devoted to hunting and tournaments like any young aristocrat of the day This book tells the story of the monarch and of his time It supplies the dramatic context in which the short reign of Edward VI was played out the momentous religious changes factional fights and popular risings And it offers vivid details on Edward's increasing absorption in politics his consciousness of his role as supreme head of the English church his determination to lay the foundation for a Protestant regime and how his failure in this ambition brought England to the brink of civil war

George IV E.A. Smith, 1999-06-10 This engrossing biography of George IV king of England from 1820 to 1830 gives a full and objective reassessment of the monarch's character reputation and achievement Previous writers have tended to accept the unfavorable verdicts of the king's contemporaries that he was a dissolute pleasure loving dilettante and a feeble and

ineffective ruler who was responsible for the decline of the power and reputation of the monarchy in the early nineteenth century Now E A Smith offers a new view of George IV one that does not minimize the king s faults but focuses on the positive qualities of his achievement in politics and in the patronage of the arts Smith explores the roots of the king s character and personality stressing the importance of his relationship with his parents and twelve surviving siblings He examines the king s important contributions to the cultural enhancement of his capital and his encouragement of the major artistic literary and scholarly figures of his time He reassesses the king s role as constitutional monarch contending that it was he rather than Victoria and Albert who created the constitutional monarchy of nineteenth century Britain and began the revival of its popularity Smith s biography not only illuminates the character of one of the most colorful of Britain s rulers but also contributes to the history of the British monarchy and its role in the nation s life *George I* Ragnhild

Hatton,2001-05-11 In 1714 George Ludwig the fifty eight year old elector of Brunswick Luneburg became as George I the first of the Hanoverian dynasty to rule Britain Until his death in 1727 George served as both elector of Hanover and British monarch An enigmatic figure whose real character has long been concealed by anti Hanoverian propaganda George emerges in this groundbreaking biography as an impressive ruler who welcomed the responsibilities the accession brought him and set out to bring culture to what he considered the unsophisticated English nation Ragnhild Hatton s biography is the only comprehensive account of George s life and reign It draws on a wide range of archival sources in several languages to illuminate the fascinating details of George s early life and dynastic crises his plans and ambitions for the British nation the impact of his rationalist ideas and his accomplishments as king The book also examines the king s private life his family relationships in both Prussia and England his private interest in music and the arts and the improvement of his British and Hanoverian properties **Edward the Confessor** Frank Barlow,2011-06-28 Frank Barlow s magisterial biography first published in 1970 and now reissued with new material rescues Edward the Confessor from contemporary myth and subsequent bogus scholarship Disentangling verifiable fact from saintly legend he vividly re creates the final years of the Anglo Danish monarchy and examines England before the Norman Conquest with deep insight and great historical understanding Deploying all the resources of formidable scholarship Barlow has recovered the real Edward Spectator

The Wars Of The Roses MR BRUCE WEBSTER; BRUCE WEBSTER.,Michael Hicks,1998 A problem focused and clearly organized survey of the dynastic strife and crisis of medieval government in 15th century England Edward the Confessor Tom Licence,2020-09-29 An authoritative life of Edward the Confessor the monarch whose death sparked the invasion of 1066 One of the last kings of Anglo Saxon England Edward the Confessor regained the throne for the House of Wessex and is the only English monarch to have been canonized Often cast as a reluctant ruler easily manipulated by his in laws he has been blamed for causing the invasion of 1066 the last successful conquest of England by a foreign power Tom Licence navigates the contemporary webs of political deceit to present a strikingly different Edward He was a compassionate man

and conscientious ruler whose reign marked an interval of peace and prosperity between periods of strife More than any monarch before he exploited the mystique of royalty to capture the hearts of his subjects This compelling biography provides a much needed reassessment of Edward's reign calling into doubt the legitimacy of his successors and rewriting the ending of Anglo Saxon England **Henry I** C. Warren Hollister, 2008-10-01 Henry I son of William the Conqueror ruled from 1100 to 1135 a time of fundamental change in the Anglo Norman world This long awaited biography written by one of the most distinguished medievalists of his generation offers a major reassessment of Henry's character and reign Challenging the dark and dated portrait of the king as brutal greedy and repressive it argues instead that Henry's rule was based on reason and order C Warren Hollister points out that Henry laid the foundations for judicial and financial institutions usually attributed to his grandson Henry II Royal government was centralized and systematized leading to firm stable and peaceful rule for his subjects in both England and Normandy By mid reign Henry I was the most powerful king in Western Europe and with astute diplomacy an intelligence network and strategic marriages of his children legitimate and illegitimate he was able to undermine the various coalitions mounted against him Henry strove throughout his reign to solidify the Anglo Norman dynasty and his marriage linked the Normans to the Old English line Hollister vividly describes Henry's life and reign places them against the political background of the time and provides analytical studies of the king and his magnates the royal administration and relations between king and church The resulting volume is one that will be welcomed by students and general readers alike **Edward III** W. M. Ormrod, 2012-01-24 Edward III 1312 1377 was the most successful European ruler of his age Reigning for over fifty years he achieved spectacular military triumphs and overcame grave threats to his authority from parliamentary revolt to the Black Death Revered by his subjects as a chivalric dynamo he initiated the Hundred Years War and gloriously led his men into battle against the Scots and the French In this illuminating biography W Mark Ormrod takes a deeper look at Edward to reveal the man beneath the military muscle What emerges is Edward's clear sense of his duty to rebuild the prestige of the Crown and through military gains and shifting diplomacy to secure a legacy for posterity New details of the splendor of Edward's court lavish national celebrations and innovative use of imagery establish the king's instinctive understanding of the bond between ruler and people With fresh emphasis on how Edward's rule was affected by his family relationships including his roles as traumatized son loving husband and dutiful father Ormrod gives a valuable new dimension to our understanding of this remarkable warrior king **The Gest of Robyn Hode: A Critical and Textual Commentary** Robert B. Waltz, The Gest is the earliest major writing about Robin Hood although it tells a tale very different from that found in most modern retellings This version attempts to produce a more accurate text of the long lost original it also provides a modernized parallel To this is added an extensive historical introduction line by line commentary vocabulary study and a selection of other texts which clarify the context of the Gest Dedicated to Patricia Rosenberg The Oxford Encyclopedia of Medieval Warfare and Military Technology Clifford J. Rogers, 2010 This set is an

excellent companion to J R Strayer s edited Dictionary of the Middle Ages CH Nov 87 Supplement I ed by W C Jordan CH Sep 04 42 0044 The focus on warfare allows the editors to offer larger entries on major topics e g Agincourt Crusades Feudalism and introduce many complementary topics The editors are concerned with Europe they expand coverage into Asia or Africa only because of the connection to medieval Europe Coverage also includes an abundance of entries pertaining to Central and Eastern Europe Most of the 1 000 plus entries are about a page in length but a few approach 50 pages Medium and large size entries such as Chivalry Germany and Slavic Lands discuss primary sources and very valuable historiographies A thorough index helps readers locate the Knights Templar under Orders Military Levantine Orders Cross references and bibliographies follow each of the signed entries Locating reliable and scholarly information on the Knights Templar and Vlad Tepes Dracula is tricky Some of the bibliographies include sources in foreign languages For example the references for the Black Army of Hungary are in Hungarian Noticeably missing are entries for the many wars This set is particularly suited to research libraries

Summing Up Highly recommended Lower level undergraduates through professionals practitioners general readers General Readers Lower division Undergraduates Upper division Undergraduates Graduate Students Researchers Faculty Professionals Practitioners Reviewed by W M Fontane **The Pictorial History of England** George Lillie Craik, 1839 **Castles of Wales** John Paul Davis, 2022-04-06

In 1277 Llywelyn ap Gruffudd Prince of Gwynedd met with Edward I of England in Aberconwy to finalise a treaty that would change the fate of both nations His hand forced by Edward s invasion earlier that year Llywelyn s acceptance of the terms confirmed not only short term peace but also that the rule of Wales would pass to Edward on his death To augment his rising dominance the English king embarked on a building project that saw the rise of some of the most recognisable fortresses in Europe Quite literally an Iron Ring of castles Even before the construction of Edward s infamous Iron Ring castles were by no means rare in Wales Both before and simultaneous to William the Conqueror s establishment of timber and stone fortresses in the south and borderlands a process continued by many of his descendants native structures also existed Though often more palatial than protective such constructions proved decisive to the ongoing wars and were often chosen as sites for future castles Just as had been the case in England the story of the castle crosses many centuries Many began as Roman forts whereas others date from more modern times While many are now romantic ruins others remain cherished family homes if not hotels or museums By adopting an identical approach to that seen in Castles of England the purpose of this book is to throw light on the stories behind them For as long as there have been castles in Wales there have been mysteries within their walls Murders that remain unsolved treasures unfound prisoners left to rot in the darkest pits and valiant warriors whose heroic deeds have become a cherished part of the Welsh identity From blood soaked heroes to long lost legends despotic pirates to wailing hags Castles of Wales offers a fresh investigation into many of its fascinating fortresses No country has more castles per square mile than Wales Even today there are more than 200 to be enjoyed Inspired by such a rich tapestry of tales this book

provides an essential introduction to the nation many regard as The Land of Castles **Henry III** David Carpenter, 2023-06-13 The second volume in the definitive history of Henry III's rule covering the revolutionary events between 1258 and the king's death in 1272 After coming to the throne aged just nine Henry III spent much of his reign peaceably Conciliatory and deeply religious he created a magnificent court rebuilt Westminster Abbey and invested in soft power Then in 1258 the king faced a great revolution Led by Simon de Montfort the uprising stripped him of his authority and brought decades of personal rule to a catastrophic end In the brutal civil war that followed the political community was torn apart in a way unseen again until Cromwell Renowned historian David Carpenter brings to life the dramatic events in the last phase of Henry III's momentous reign Carpenter provides a fresh account of the king's strenuous efforts to recover power and sheds new light on the characters of the rebel de Montfort Queen Eleanor and Lord Edward the future Edward I A groundbreaking biography Henry III illuminates as never before the political twists and turns of the day showing how politics and religion were intimately connected **Catalogue of the Coins, Tokens, Medals, Dies, and Seals in the Museum of the Royal Mint** Great Britain. Royal Mint, Esq. William John Hocking, 1906
