Eero Saarinen Furniture For Everyman:

Eero Saarinen Brian Lutz, 2012 Eero Saarinen Furniture for Everyman is the first monograph to focus exclusively on the furniture designs of the celebrated American modernist master **The Making of an Icon: The Dreamers, the Schemers, and the Hard Hats Who Built the Gateway Arch, Second Edition** Jim Merkel, 2018-06-30 With his fourth book from Reedy Press The Making of an Icon Jim Merkel captured the spirit behind the conception and construction of one of America's most distinctive and beloved national monuments More than two million visitors stand in awe at the Gateway Arch each year and the stories behind it were unearthed in breathless detail in the first edition Back with even more lore and the addition of beautiful color images Merkel brings new information on the Arch grounds and museum to this updated and revised second edition Now expanded his book includes more stories compiled from interviews with the visionaries finaglers protesters and intrepid workers who built the arch while one misstep away from a fatal fall Merkel's book will help us appreciate the relentless pursuit innovation and toil that raised the Arch to the sky **No Compromise** Ana

Araujo, 2021-06-22 Florence Knoll 1917-2019 was a leading force of modern design She worked from 1945 to 1965 at Knoll Associates first as business partner with her husband Hans Knoll later as president after his death and finally as design director Her commissions became hallmarks of the modern era including the Barcelona Chair by Mies van der Rohe the Diamond Chair by Harry Bertoia and the Platner Collection by Warren Platner She created classics like the Parallel Bar Collection still in production today Knoll invented the visual language of the modern office through her groundbreaking interiors and the creation of the acclaimed Knoll look which remains a standard for interior design today She reinvigorated the International Style through humanizing textiles lighting and accessories Although Knoll's motto was no compromise ever as a woman in a white upper middle class male dominated environment she often had to make accommodations to gain respect from her colleagues clients and collaborators No Compromise looks at Knoll's extraordinary career in close up from her student days to her professional accomplishments Mid-Century Modernism and the American Body Kristina Wilson, 2021-04-13 The first investigation of how race and gender shaped the presentation and marketing of Modernist decor in postwar America In the world of interior design mid century Modernism has left an indelible mark still seen and felt today in countless open concept floor plans and spare geometric furnishings Yet despite our continued fascination we rarely consider how this iconic design sensibility was marketed to the diverse audiences of its era Examining advice manuals advertisements in Life and Ebony furniture art and more Mid Century Modernism and the American Body offers a powerful new look at how codes of race gender and identity influenced and were influenced by Modern design and shaped its presentation to consumers Taking us to the booming suburban landscape of postwar America Kristina Wilson demonstrates that the ideals defined by popular Modernist furnishings were far from neutral or race blind Advertisers offered this aesthetic to White audiences as a solution for keeping dirt and outsiders at bay an approach that reinforced middle class White

privilege By contrast media arenas such as Ebony magazine presented African American readers with an image of Modernism as a style of comfort security and social confidence Wilson shows how etiquette and home decorating manuals served to control women by associating them with the domestic sphere and she considers how furniture by George Nelson and Charles and Ray Eames as well as smaller scale decorative accessories empowered some users even while constraining others A striking counter narrative to conventional histories of design Mid Century Modernism and the American Body unveils fresh perspectives on one of the most distinctive movements in American visual culture Design and Agency John Potvin, Marie-Ève Marchand, 2020-05-14 Design and Agency brings together leading international design scholars and practitioners to address the concept of agency in relation to objects organisations and people The authors set out to expand the scope of design history and practice avoiding the heroic narratives of a typical modernist approach They consider both how the agents of design construct and express their identities and subjectivities through practice while also investigating the distinctive contribution of design in the construction of individual identity and subjectivity Individual chapters explore notions of agency in a range of design disciplines and historical periods including the agency of women in effecting changes to the design of offices and working practices the role of Jeffrey Lindsay and Buckminster Fuller in developing the design of a geodesic dome Le Corbusier's Casa Curutchet a re consideration of the gendered historiography of the Jugendstil movement and Bruce Mau's design exhibitions Taken together the essays in Design and Agency provide a much needed response to the traditional texts which dominate design history With a broad chronological span from 1900 to the present and an equally broad understanding of the term design it expands how we view the discipline and shows how design itself can be an agent for social cultural and economic change Michigan Modern Amy Arnold, Brian Conway, 2016-10-04 Michigan Modern Design That Shaped America is an impressive collection of important essays touching on all aspects of Michigan's architecture and design heritage The Great Lakes State has always been known for its contributions to twentieth century manufacturing but it's only beginning to receive wide attention for its contributions to Modern design and architecture Brian D Conway Michigan's State Historic Preservation Officer and Amy L Arnold project manager for Michigan Modern have curated nearly thirty essays and interviews from a number of prominent architects academics architectural historians journalists and designers including historian Alan Hess designers Mira Nakashima Ruth Adler Schnee and Todd Oldham and architect Gunnar Birkerts describing Michigan's contributions to Modern design in architecture automobiles furniture and education **Rethinking Plastics in Product Design** Geoff Isaac, 2025-03-06 This book addresses the urgent need to reduce our use of virgin fossil plastics It provides a framework for designers and manufacturers to re evaluate their use of plastics and promotes the use of alternative materials with lower environmental impacts Lightweight strong and cheap plastics are often the obvious choice when designing consumer durables but their use is resulting in devastating health and environmental consequences Recycled plastics and bioplastics are often suitable replacements however mechanical and

aesthetic differences mean working with these materials is often challenging and expensive In this book Geoff Isaac outlines strategies for developing more environmentally friendly design solutions and provides practical guidance for designers who seek to use plastics more sustainably Chapters include case studies selected from sixty chairs made from renewable plastics as chairs are often developed to showcase the potential of new materials and their suitability for applications across other consumer products The book also features interviews with a range of industry representatives and international designers including Philippe Starck Barber Osgerby Konstantin Grcic Bertjan Pot and Karim Rashid to illustrate recent designs using renewable plastics This book provides an empowering blueprint for designers to make environmentally responsible decisions in today's business landscape **Vanity Fair**, 2012 Interior Design Innovators 1910-1960 Cherie Fehrman, Kenneth Fehrman, 2009-10 A scholarly review of the prominent designers and designs from 1910-1960 covering the Organic Design Movement methods and materials of construction and in depth measurements with hundreds of archival photographs
