Zacher Pandya is an Associate Professor in the Departments of Teacher Education and Liberal Studies at California State University Long Beach. This book tells an important tale that cannot be conveyed by numbers and tables. It is important information for teachers for those who depend on and employ and train teachers and for those who create the policies under which teachers are required to operate. From the Foreword by Robert Rueda, University of Southern California, author of *The 3 Dimensions of Improving Student Performance: Finding the Right Solutions to the Right Problems*. How many more dire tales of schooling for assessment must be told before we realize that teaching and testing are not the same and that scores on standardized multiple choice achievement tests are a sorry substitute for an engaging learning environment. In this book, Jessica Zacher Pandya reaches across ideological and institutional borders to offer reasonable pragmatic solutions for change. Linda Valli Jeffrey David Mullan, Professor of Teacher Education Professional Development, College of Education, University of Maryland. Zacher Pandya's invaluable book exposes the injustices and absurdities of our high stakes accountability era. Just as importantly, it limns a more academically robust and culturally relevant instructional vision for English language learners. Gerald Campano, University of Pennsylvania.
