

FOUR AREAS OF CO-EVOLVING KNOWLEDGE & SKILLSETS

Co-created visions of long-term futures that are sustainable, equitable & desirable inform projects in the present, & **act as 'steps' along a transition pathway** toward the future.

Visions for Transition

Visions are informed by a deep understanding of systems. These visions in turn trigger searches for new knowledge and understanding.

Theories from different fields & disciplines inform a deep understanding of the **dynamics of change** within complex, **open systems** (and wicked problems).

Theories of Change

A deeper understanding of systems change reshapes mindsets and postures, which in turn, ignites searches for new, more relevant knowledge & approaches.

Posture & Mindset

Living in & through **transitional times** requires a change in mindsets & postures: mindfulness, humility, 'service,' self-reflection, **radical collaboration**, and **openness and respect for 'other'** (including the 'non-human')

New Ways of Designing

Designing systems interventions that amplify existing efforts and that **solve for multiple issues**, simultaneously, over many years or even decades.

New ways of designing will help realize/evolve the vision & will, in turn, give rise to new ways of designing

**TRANSITION
DESIGN
FRAMEWORK**

Changes in mindset and postures give rise to new ways of designing, which, in turn, lead to the evolution of new mindsets & postures.
