*The Path to Individual and Organizational Transformation* Manfred F. R. Kets de Vries,2025-09-19 Change can be hard and for many people unlearning habitual patterns is an uphill challenge It can be painful but not as painful as remaining stuck With an estimated 70% of change initiatives failing Manfred Kets de Vries a world renowned Professor of Leadership Development offers a more positive outlook Infused with his trademark inimitable style of analysis he demonstrates how change methodologies can be applied in a highly effective way At the heart of effective organizations lies human action what we do how we do it and why we do it As leaders consultants and executive coaches we need to pay close attention to the individual and group dynamics of the organizations that we work with By looking more deeply into the world of work with the aim of untangling and explaining what lies below the surface this book helps you see through the darkness that may lead us astray yet this kind of night vision efforts to turn the irrational into the rational requires in depth observation To find out what is really happening demands a more clinical orientation To be successful Kets de Vries argues leaders need to recognize the importance of what have been referred to as soft skills essentially using emotional intelligence to their advantage Contrary to their name these abilities are often the hardest skills to learn Adopting a clinical approach to leadership this book helps you to understand more about the dynamics of organizational life leading to greater self awareness self knowledge and the ability to become a more effective change agent By becoming aware not only of our conscious thoughts but also of our unconscious prejudices biases and habits it s possible to understand more why so many well laid plans and strategies derail or conversely why otherwise effective leaders sometimes act in unexpected ways      *The Center for Creative Leadership Handbook of Leadership Development* Ellen Van Velsor,Cynthia D.
