Barriers Hindering Effective Internal Communication Milena A. Orlinska, 2020-01-21

Employees are a label for a company and can be either advocates fighting for the best name of the company or prosecutors plunging it in calamity The responsibility of guiding employees in the proper direction rests on the shoulders of internal communication IC It can be a powerful tool but only if used in accordance with competent instructions Be aware that following the instructions lead to vivid success but ignoring them threatens to painful failure

Barriers Hindering Effective Internal Communication Internal communication IC is often overlooked and perceived as a corny minor issue in the world of business Despite appearances internal communication has enormous influence on company's performance productivity or external reputation It can have either healing or toxic effects depending on how seriously management treats it Effective IC brings a lot of benefits for the company such as high customer satisfaction high motivation favourable outcomes and many

others In the other hand poor communication acts on company s detriment and the consequences may appear to be disastrous Therefore the paper emphasises how important the effective internal communication is There exist certain factors which hinder effective internal communication and lead the company to the edge of a precipice The barriers are often vague and difficult to notice and hence management intentionally or unconsciously ignores them The paper pursues to identify those barriers in order to eliminate or avoid them in the future These are exemplified basing on broad problems of specific companies which struggled with internal communication issues The outcome of the research induces companies to apply best practice instructions concluded in the research process in order to maintain effective IC as efforts certainly bear a fruit Being conscious of many levels of internal communication I have restricted my research to vertical two way communication precisely on management employee relations Due to an enormity of theories and considerations upon the theme of barriers to effective internal communication some barriers have been deliberately omitted as I have approached the most important disturbing and often referred ones from my point of view
