Effortless English Learn To Speak English Like A Native:

Effortless English A. J. Hoge, 2014-10-15 Famous for training corporate and government leaders A J Hoge gives you a step by step program teaching you the system that will help you achieve ultimate success with English from back cover

SMART WAY OF LEARNING ENGLISH Surender Kumar , 2020-12-08 Learn more learn fast and learn confidently If you do that then you will be a fluent speaker Don t think about the past Instead think about the present and the future because they are in your hand Learning English is hard to those people who are afraid of learning it and easy for those who think learning English is fun People who want to be successful who want to be better and have great ambitions in life they will have to put some efforts to get what they want This book is for those people who want to learn English but are afraid because they think that it is very hard But in real it is not as hard as they think They start learning English with old methods and when these methods don t work they stop Nothing is impossible if you have determination to learn if you have strong interest in it and if you have great potential Yes everything is possible I have mentioned easy methods which are useful to those who want to learn English If you read this book I assure you that these methods will help you learn English faster The methods and the ways I have mentioned in this book will transform your perception towards English If you think Learning English is funny simple and exciting You can speak like native speaker Learning grammar is not necessary to speak English It is as easy as your own language It is very interesting to learn English then this book will be your best choice It is written in easy language Everyone can understand it without any difficulty In this book Surender Sharma will tell you the best and easiest methods of learning English If you learn this book you will find it more interesting entertaining and motivational I am sure it will be very beneficial for you if you learn it *Think in English* Nilam Pathak, Anshuman Sharma, 2021-11-04 English is an international language which means that the communication with most people other than your fellow native speakers would be in English The present time requires us to interact with other people either digitally or physically for business education social or personal purposes This fact itself is enough to present the importance of English in our life Governments educational boards universities and institutions have made sure that English remains an important part of the curriculum Kids accept English as one of their major subjects since the beginning of their education For years they learn about various segments of the English language with a constant increase in complexity There are taught grammar sentence formation word power pronunciation and writing paragraphs in English It is logical to assume that all these students will easily be able to converse in English but that is the pain point Most people with a native language other than English have difficulty communicating with others in spoken English It is ironic to know that a person with the ability to write in English and well conversant in grammar rules would struggle to speak in English fluently But this truth is faced by a large percentage of people who aspire to speak fluent English Where is the problem The problem is in realizing the truth about learning languages English is the second language for most people except native English speakers in countries like England the

United States of America Australia and Canada The difficulty of learning a second language is that it is learned by keeping the native language at the foundation This means that English will be learned with reference from their native language like translations similarities in syntax grammar rules words and sentence formations It is also dependent on the education system which focuses on training grammar rules translations and written English It is assumed that spoken English will come naturally to the students sadly that never happens It is easy to find students in English medium schools and colleges struggling to present a topic in English Most will avoid interactions in English using the native language as the fundamental language of communication Another fact is known to all one of the top skills required to get any decent job is fluency in spoken English The solution is the realization that spoken and written English have equal importance but must be taught differently The methodology specified in the book is based on the philosophy that the language should be taught and learned like the native speaker just the way we learned our native language The idea will be explained and discussed in detail in the coming chapters
