Egoism Study Social Premises Religion:

Egoism a Study in the Social Premises of Religion Louis Wallis,2015-06-25 Excerpt from *Egoism a Study in the Social Premises of Religion* This essay falls naturally into three parts taking its main title from the first The thesis of the first division is not in any sense original although the treatment possibly has points of novelty The idea that all human activity is either directly or indirectly egoistic or selfish is not new We lay this down as a universal fact of history in the proposition Egoism is the only force propelling the social machine The second and largest part of the essay illustrates this proposition from a quarter which we maintain offers the most dramatic evidence in its favor biblical history We hold that the Bible interpreted from the standpoint of so called higher criticism brings us more directly and vividly into relation with the fundamental facts of personality i e the struggle of the ego for life than anything else The egoistic proposition is within the domain of sociology and if we would grasp the significance of the Bible we must approach it first of all as a social phenomenon The logical ultimate of higher criticism is that the total body of religious conception in the Bible arose out of and in dependence upon the so called secular experience of Israel The critical movement has been approaching this position for some time although deficient sociological insight has impeded its progress About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
