Barruulee istaatistiksi ,2008 Refugees and Higher Education Lisa Unangst,Hakan Ergin,Araz Khajarian,Tessa DeLaquil,Hans de Wit,2020-07-13 Refugees and Higher Education provides a cross disciplinary lens on one American university s approach to studying the policies practices and experiences associated with the higher education of refugee background students The focus is not only on refugee education as an issue of access and equity but also on this phenomenon as seen through the lens of internationalization What competencies are called for among university faculty and staff welcoming refugee background students to their institutional contexts How might distance learning be considered anew These challenges and opportunities for institutional growth will be closely considered by this group of authors from educational leadership social work curriculum development and higher education itself They address key world regions and sub topics ranging from online education in refugee camps to the Brazilian and Colombian responses to the emerging crisis

in Venezuela Scholars researching refugee education cross nationally often find that refugee education literature is parsed by disciplinary field This book in contrast offers a comprehensive multi disciplinary overview of refugee education issues around the world These perspectives also provide key insights for faculty and staff at higher education institutions that currently enroll asylees or refugees as well as those that may do so in the future **Youth on the Move** Asnake Kefale,Fana Gebresenbet,2021-12-01 At a time when policies are increasingly against it international migration has become the subject of great public and academic attention This book departs from the dominant approach of studying international migration at macro level and from the perspective of destination countries The contributors here seek to do more than scratch the surface of the migration process by foregrounding the voices and views of Ethiopian youth potential migrants and returnees and of their sending communities The volume focuses on the perspective and agency of these young people both potential migrants and returnees to better understand migration decision making experiences and outcomes It brings together rarely documented cases of young men and women from several communities across Ethiopia migrating to the Gulf and South Africa Explaining the agency of local actors prospective migrants brokers and sending families Youth on the Move illuminates the pervasive persistent failure of state attempts to regulate migration Moreover it examines the financing of migration and the sharing of remittances within a culturally situated moral economy While accounts centered on economics and political violence are important the contributors demonstrate compellingly that these factors alone cannot provide a full understanding of migration s complexity nor of its social realities *IJER Vol 26-N4* International Journal of Educational Reform,2017-10-16 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities **Cracking the Digital Ceiling** Carol Frieze,Jeria L.
