*Historical Dictionary of Egypt* Arthur Goldschmidt, Jr., 2023-07-25 Egypt is the world's oldest continuous country with a recorded past of over 6 000 years Often invaded conquered and occupied by foreign armies Egypt has never lost its identity The Egyptians of today although they have changed their language once and their religion twice descend mainly from the Egyptians who built the Giza Pyramids and the Temple of Karnak who served Alexander the Great and his heirs who submitted to Augustus Caesar and raised much of the grain that fed the Roman Empire who started Christian monasticism and the veneration of the Virgin Mary and who advanced and sustained Muslim learning in what is now the world's oldest functioning university It was and is one of the most important countries in the world *Historical Dictionary of Egypt* Fifth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Egypt

**Authoritarian and Populist Influences in the New Media** Sai Felicia Krishna-Hensel, 2017-09-07 The media is often viewed as a primary gauge which reflects the changing political landscape as societies transition from authoritarian regimes to democracies Chronicling the process through media analysis provides deeper insights into the relationship between technology the state and social forces that are reflected in the public's communications This volume explores the challenges and political conditions that have shaped the

media in several representative studies of the media in the Middle East Asia Eastern Europe and Africa The contributors analyse the legacy of the past on the development of the media in post authoritarian regimes and explore the relationships between media communication industries public relations and politics The use of new communications technologies to manipulate the media and the public introduce a novel use of social media by populists as well as authoritarian regimes and their proxies This book presents a comparative and global investigation of the role of the media in the realignment from established policies to an emerging milieu of new channels of communication that challenge traditional media practices

**After Liberalism?** R. Friedman,K. Oskanian,R. Pacheco Pardo,Ramon Pacheco Pardo,2013-09-12 In this collection leading international scholars provide their perspectives on the continuing role of the liberal paradigm both as a theoretical approach to international relations and as an ordering principle of international politics Youth Activism in Egypt Ahmed Tohamy,2016-08-24 In this book Ahmed Tohamy analyses the often neglected trajectory that led up to the protests in Egypt that culminated in the fall of Hosni Mubarak in February 2011 Tohamy s assertion is that by examining the decade preceding this momentous event we see that the youth movement far from being inert was extremely active Tohamy uses the Social Movements Theory to argue how Egyptian youth became a new agent of change in the Middle East By positioning the youth activists as dynamically engaging with their social and political contexts within a framework of opportunities and constraints his analysis strikes at the heart of the debates concerning the nature and substance of revolution and its effects on state and society **Arab Spring-Arab Fall** Ayfer Erdogan,2021-04-21 The popular protests in early 2011 were once seen as a turning point in the history of the Arab world raising hopes for democracy freedom and justice in the Middle East A decade after the uprisings these hopes are largely dashed in each country swept by popular protests with the exception of Tunisia Tunisia became the only democracy in the entire region while Egypt saw its first freely elected president and government thrown out by the army in a bloody coup which resulted in a regime that is no less authoritarian than Mubarak s This book provides a detailed analysis of the political economic and constitutional developments in Tunisia and Egypt In the light of the existing literature on comparative democratization the author explores why Egypt s path to democratization was eroded by several transitional actors while Tunisian political elite managed to move the country towards democracy The book centers its focus on the role of the political agents in designing the transition and explores the transitional period with respect to the interactions among the political elite and their cost benefit assumptions ideological interests as well as their commitment to democratic processes **Authoritarianism** Günter Frankenberg,2020-11-27 In this thought provoking book G nter Frankenberg explores why authoritarian leaders create new constitutions or revise old ones Through a profound analysis of authoritarian constitutions as phenomena in their own right Frankenberg reveals their purposes the audiences they seek to address and investigates the ways in which they fit into the broader context of autocracies **Dissent and Revolution in a Digital Age** David Faris,2013-03-22 During the Arab uprisings of early 2011 which saw the overthrow of Zine el Abadine Ben

Ali in Tunisia and Hosni Mubarak in Egypt the role of digital media and social networking tools was widely reported With tens of thousands publicly committed to public protest through their online social networks and with calls to protest circulating through email networks Facebook groups and street organizing the activists had set in motion a staged confrontation with the Egyptian regime of the sort that had previously been unthinkable The potentially subversive nature of social networks was also recognized by the very authorities fighting against popular pressure for change and the Egyptian government's attempt to block internet and mobile phone access in January 2011 demonstrated this What is yet to be examined is the local context that allowed digital media to play this role in Egypt for example a history of online activism has laid important ground work Here David Faris argues that it was circumstances particular to Egypt more than the spark from Tunisia that allowed the revolution to take off namely blogging and digital activism stretching back into the 1990s combined with sustained and numerous protest movements and an independent press During the Mubarak era where voicing a political opinion was to say the least risky and registering as a political party was onerous and precarious undertaking it was online avenues of discussion and debate that flourished Over the course of those years digital activists bloggers and later users of other forms of social media like Twitter Facebook and Youtube scored a number of important victories over the regime over issues largely revolving around human rights Faris analyses these activists and their online activities and campaigns examining how the internet was used as a space in which to create identities and spur action *Dissent and Revolution in a Digital Age* tracks the rocky path taken by Egyptian bloggers operating in Mubarak's authoritarian regime to illustrate how the state monopoly on information was eroded making space for dissent and for those previously without a voice *Muslim Identities and Modernity* Maha Habib, 2016-03-16 What have the concepts of modernity and secularization meant for Islamic tradition culture and society How have the discourses which surround all of these issues influenced Muslim self perception and individual identity There have been many attempts to describe and analyse the encounter between Islam and modernity in the Middle East but few have been able so effectively to explore the impact this has on the idea and reality of religious identity and individual religiosity Maha F Habib examines modernity from this angle offering socio cultural philosophical and literary perspectives She assesses how this is played out in Egypt analysing cultural changes in the country through its intellectual thought and literature from the nineteenth century to the present day Her references to the works of Muhammad Abdu Muhammad Husayn Haykal Abbas Mahmud al Aqqad Naguib Mahfouz Alaa al Aswany and Salwa Bakr reveal contemporary issues and concerns which will interest those researching the cultural and social milieu of modern Egypt

*Inside the Muslim Brotherhood - The Truth About The World's Most Powerful Political Movement* Youssef Nada, 2012-08-13 This is the authorised biography of Youssef Nada a man who knows most of the untold story of more than half a century of rage and revolution Through war global terrorism and complex international crises he was there On the inside A true eyewitness to history a participant and powerbroker in events which shaped it Youssef Nada would never

promise answers but would offer possible solutions through the ideas and philosophy he has lived to all his life as an ambassador of reason a peacemaker and as the de facto foreign minister of the Muslim Brotherhood group who have a membership of more than one hundred million worldwide with many millions holding pivotal positions in America the UK and throughout continental Europe He has a hard clear lucid vision he has insight into the terror of Lockerbie in Scotland the rehearsals for the September 11 onslaught against America and the July 7 London bombers the Iran Contra affair the Beirut kidnapping of Terry Waite and of deals and horrors that have touched the lives of individuals and nations alike He has been involved in all aspects of the Arab Spring in Egypt including the upcoming elections in which the Muslim Brotherhood will take power Youssef Nada was until now the hidden mystery at the heart of the Middle East the part of the puzzle no one could place It was safer After 9 11 Nada known throughout much of the world as a humanitarian was branded a global terrorist and listed as such by America and the UN The Muslim Brotherhood al Ikhwan al Muslimeen the most controversial and influential of all Islamist organisations from East to West and back again has been at odds with many governments it is the most potent Islamist opposition party throughout the Arab world Youssef Nada believes that as he is known as the Muslim Brotherhood s international political foreign emissary all the interional intelligence agencies moved against him Now he had decided to step completely out of the shadows and tell the story of his life

**Rethinking Judicial Power in Papua New Guinea** Bal Kama, 2024-08-19 This book examines the role and nature of the judiciary in Papua New Guinea PNG the first comprehensive study since the country s independence in 1975 It challenges the traditional view of the judiciary as solely a legal entity arguing for its broader social and political functions Critiquing assumptions inherited from British and Australian colonial thinking it discusses how decolonisation has redefined judicial power enabling courts to have a more transformative role Introducing transformative constitutionalism into Australian Pacific legal thinking the book argues that PNG has a transformative constitution defined by its intent for reform extensive Charter of Rights and a liberal judiciary features not found in other Pacific constitutions Given the region s challenges such as corruption political instability and climate change the book advocates for a more proactive role for the judiciary It proposes a re evaluation of the classical tripartite doctrine of separation of powers advocating for a quadripartite model in PNG where the judiciary has a broader reformative function and the independent constitutional institutions constitute a fourth arm of government This work makes important contributions to understandings of judicial power and constitutional law as well as other fields including comparative constitutional studies legal history and decolonial scholarship

**Politics of Violence and Fear in MENA** Helena Reimer-Burgrova, 2021-09-27 Politics of Violence and Fear in MENA The Case of Egypt explores the state orchestrated violence in Egypt Syria and Turkey justified by vaguely defined terrorist threats It analyses the wars on terror as cases of lengthy securitisation processes that reinforced and legitimised autocratic practices of oppression in each country Paying particular attention to Egypt s war on terror that began 1981 the book looks into how and with what implications such

securitisation processes are upheld throughout lengthy periods of time Reworking the traditional securitisation theory this book offers a novel securitisation model the TER model that addresses the questions of securitisation durability and is applicable in non liberal empirical contexts The monograph is ideal for graduate students researchers and policy makers in the fields of political science International Relations and Middle Eastern Studies **Promoting Religious Freedom in an**

**Age of Intolerance** Rieffer-Flanagan, Barbara A.,2022-09-15 In an age of intolerance where religious persecution is widespread Barbara Ann Rieffer Flanagan explores how societies can promote freedom of religion or belief as a fundamental right of citizens *The Muslim Brotherhood* Joas Wagemakers,2022-06-24 The Muslim Brotherhood is often represented in

mainstream media as a theocratic organisation that preaches Qur an based violence and is out to grab power in the West As this book shows such representations are wrought with prejudice and oversimplification the organisation is in reality much more dynamic and diverse Its goals ideology and influence have never been static and vary greatly amongst its descendants in both Europe and the Middle East Joas Wagemakers introduces the reader to this fascinating organisation and the major ideological and historical developments that it has gone through since its emergence in 1928 *The Arab Spring* David

Lesch,Mark L. Haas,2016-08-02 A contributed volume by noted experts on the impact and aftereffects of the Arab Spring revolutions Fundamentalism in the Modern World Vol 1 Ulrika Martensson,Jennifer Bailey,Priscilla Ringrose,Asbjorn

Dyrendal,2001-11-22 How does religious fundamentalism operate in modern global society This two volume series analyses the dynamics of fundamentalism and its relationship to the modern state the public sphere and globalisation In this first volume fundamentalism is approached from the perspective of state and community building ideology and practices within the context of global society and the ways in which fundamentalism is intertwined with issues of politics state power democracy globalization political activism and political ideology Expert scholars in the field address specific contemporary and past fundamentalist movements that have emerged from within mainstream Islam Christianity Baha ism Hinduism Judaism and Buddhism This is an important study of an increasingly significant and controversial aspect of modern society and will be essential reading in the fields of Religion Politics and International Relations **Tahrir's Youth** Rusha

Latif,2022-06-28 A gripping in depth account of the 2011 Egyptian revolution through the eyes of its youthful vanguard January 25 2011 was a watershed moment for Egypt and a transformative experience for the young men and women who changed the course of their nation s history Tahrir s Youth tells the story of the organized youth behind the mass uprising that brought about the spectacular collapse of the Mubarak regime Who were these activists What did they want How did the movement they unleashed shape them as it unfolded and why did it ultimately fall short of its goals Rusha Latif follows the trajectory of the movement from the perspective of the Revolutionary Youth Coalition RYC a key front forged in Tahrir Square during the early days of the revolt Drawing on firsthand testimonies and her own direct experience she offers insight into the motives hopes strategies successes failures and disillusionments of the movement s leaders Her account details the

challenges these activists faced as they attempted to steer the movement they had set in motion and highlights the factors leading to their struggle's defeat despite its initial promise. Tahrir's Youth questions the belief that Egypt's revolution was spontaneous and leaderless. Timely and necessary, this study not only illuminates the uprising's leadership dynamics but also demonstrates the need for imagining new modes of revolutionary organizing for the twenty-first century. *The Arab Uprisings* Eberhard Kienle, Nadine Sika, 2015-06-22

The uprisings which spread across the Middle East and North Africa in late 2010 and 2011 irrevocably altered the way in which the region is now perceived. But in spite of the numerous similarities in these protests from Tunisia and Egypt to Yemen and Bahrain, their broader political effects display important differences. This book analyses these popular uprisings as well as other forms of protest and the impact they had on each state. Why were Mubarak and Bin Ali ousted relatively peacefully in Egypt and Tunisia while Qaddafi in Libya and Saleh in Yemen fought violent battles against their opponents? Why do political transformations differ in countries that were able to shed their autocratic presidents? And why have other regimes including Morocco and Saudi Arabia experienced only limited protests or managed to repress and circumvent them? Looking at the aftermath and transitional processes across the region, this book is a vital retrospective examination of the uprisings and how they can be understood in the light of state formation and governmental dynamics. *Antisemitism Before and Since the Holocaust* Anthony McElligott, Jeffrey Herf, 2017-04-03

Divided into five discrete sections, this book examines the issue of Holocaust denial and in some cases Holocaust inversion in North America, Europe, and the Middle East and its relationship to the history of antisemitism before and since the Holocaust. It thus offers both a historical and contemporary perspective. This volume includes observations by leading scholars delivering powerful even controversial essays by scholars who are reporting from the frontline. It offers a discussion on the relationship between Christianity and Islam as well as the historical and contemporary issues of antisemitism in the USA, Europe, and the Middle East. This book explores how all of these issues contribute consciously or otherwise to contemporary antisemitism. The chapters of this volume do not necessarily provide a unity of argument nor should they. Instead, they expose the plurality of positions within the academy and reflect the robust discussions that occur on the subject. *Soldiers of Democracy?* Sharan Grewal, 2023-07-04

Why do some militaries support and others thwart transitions to democracy? After the Arab Spring revolutions, why did Egypt's military stage a coup to end the transition? Conversely, why did Tunisia's military initially support the transition only to later facilitate the elected president's dismantling of democracy? In *Soldiers of Democracy: Military Legacies and the Arab Spring*, Sharan Grewal argues that a military's behavior under democracy is shaped by how it had been treated under autocracy. Autocrats who had empowered their militaries produce soldiers who will repress protests and stage coups to preserve their privileges. Meanwhile, autocrats who had marginalized their militaries produce soldiers who support democratization but who are also more susceptible to incumbent takeovers and civil wars. The dictator's choice to either empower or marginalize the military thus creates legacies that shape both the likelihood of

democratization and the forms by which it breaks down Drawing on over 140 interviews with civilian and military leaders and three surveys of military personnel this scholarly volume illustrates this theory through detailed case studies of Egypt and Tunisia Grewal also probes the generalizability of the theory through a cross national analysis of all countries between 1946 2010 Overall he brings the military front and center to the study of democratic transition and consolidation
