eventually realized there was much more He could experience if He could become small enough to inhabit some of the animal forms that were developing according to evolution which in reality is a scientific reaction to circumstances on some of the planets He had made He chose to experience more of life on one particular planet in one particular solar system planet earth because it had many different animal forms evolving on it This piece of the Creator s mind was a large ungainly awkward field of energy to try to explore this fascinating new planet with so the decision was made to split His energy apart into small pieces and let each piece or spark of His energy explore on its own This was done and the sparks of the Creator spirits were able to enter the animal forms and learn to express through them When the Sparks entered the physical bodies it was never intended that they should loose contact with the main body of the Creator God that stayed in the higher realms The plan was to always have open lines of communication Channeling is part of the plan as it allows this communication to take place from the Creator s mind to the mind of humans to the Conglomerate Mind of the Micro Men the Kingdom of God is Within and back again to the Creator s mind Channeling is the mechanism by which the cycle of evolution is accomplished on the earth plane Therefore channeling is a natural normal stage of evolution for humanity whose time has come [The TimeTraveler Tidbits #5](#) Norma Hickox,2014-08-16 This collection of articles will feature God compared to a whipped cream salad the development of our brain the forming of our personality and the soul s R the 2nd story our emotional body focus the 3rd story our mental focus and finally the 4th story our spiritual focus 3 Personality The personality is compared with a picture being painted on canvas The new personality develops from the combination of the animal based brain and the incarnating half of the soul The soul helps give birth to and form the personality for its use but the personality is from physical evolution This is why humans are so fantastic due to their experiences of laughter a sense of humor compassion and the expression of joy 4 Soul When you go to sleep at night there is a distinct pattern that the sleep follows The first thing it does is leave the body and go through a period of R and R The two hours that the soul is out of the body would be equal perhaps to a twenty four hour period of earth plane time Each evening there is a period where the two halves of the soul meet and join up or bond Then they are with others either in class or on a fun time at a lecture hall strolling along the banks of a river walking through gardens or in libraries searching out data At the end of the night there is a separation period again *Channelling* Barbara Burns,1993-06-01 What is Channelling The Nature of Communication Understanding the Four Bodies The Heart Focus Healing Through Communication Past Life Regression A lucid step by step guide for experienced or aspiring channels Simple yet effective exercises opens the self to Source Barbara has worked with Vywamus since 1987 **Chrysalis** Luna Leigh,2019-07 As a small child I had experiences that led me to believe that there was more to this earthly existence than accomplishing mundane tasks in an ordinary way When I grew older I was very curious and I started to explore the many dreams and insights I had throughout my childhood I had many intuitive flashes and a knowing of things to come I thought everyone had intuitive instances and didn t think that they were special in any way When I was sixteen my curiosity peaked

and I started the journey into spirituality with resistance from my family and friends I knew that my experiences were very real and that to ignore them would be to surrender to mass consciousness and deny who I am Stubbornly I persisted in going my own way and explored my own personal belief system that resonated within Exploring any opportunity to improve and grow I went to classes and seminars and I learned many holistic modalities which included Reiki reflexology and massage I also attended spiritual gatherings drumming circles and traveled to sacred sites In my travels I met many like minded people who wrote books about their own spiritual paths As I read these books I discovered they had similar experiences and I began to understand the incidents that permeated my memories These authors put a name to what I thought were dreams validated them and made them real I grew to admire their courage and convictions I wanted to be that **Adaptive Channeling**
