Communitarian Foreign Policy Amitai Etzionis:

Communitarian Foreign Policy Nikolas K. Gvosdev, 2015-11-30 This volume establishes Amitai Etzionis communitarian approach to international relations as a distinct school of American foreign policy thought Nikolas K Gvosdev systematically evaluates Etzionis ideas tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East and considering their strengths and weaknesses Etzionis agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required However he argues against the imposition of Western policies on the rest of the world which he sees as a recipe for conflict which the United States cannot afford He warns against the post Cold War triumphalism arguing that it undercuts efforts to find necessary common ground with both Russia and China An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats *Communitarian Foreign Policy* Nikolas K. Gvosdev, 2017-07-05 This volume establishes Amitai Etzionis communitarian approach to international relations as a distinct school of American foreign policy thought Nikolas K Gvosdev systematically evaluates Etzionis ideas tracing their origins during the Cold War and their relevance to current challenges in Asia and the Middle East and considering their strengths and weaknesses Etzionis agrees with liberal internationalists who believe that traditional notions of state sovereignty are eroding and that a new set of global norms is required However he argues against the imposition of Western policies on the rest of the world which he sees as a recipe for conflict which the United States cannot afford He warns against the post Cold War triumphalism arguing that it undercuts efforts to find necessary common ground with both Russia and China An enduring and stable global architecture cannot be maintained unless it appeals to the interests of a broad community of nations The trust that is needed for forming closer associations between nations and to have a productive dialogue on human rights can only come about through the voluntary coordination of states forced to combat an increasing array of transnational threats From Empire to Community Amitai Etzionis, 2015-01-06 Whether one favors the U S global projection of force or is horrified by it the question stands where do we go from here What ought to be the new global architecture Amitai Etzionis follows a third way drawing on both neoconservative and liberal ideas in this bold new look at international relations He argues that a clash of civilizations can be avoided and that the new world order need not look like America Eastern values including spirituality and moderate Islam have a legitimate place in the evolving global public philosophy Nation states Etzionis argues can no longer attend to rising transnational problems from SARS to trade in sex slaves to cybercrime Global civil society does help but without some kind of global authority transnational problems will overwhelm us The building blocks of this new order can be found in the war against terrorism multilateral attempts at deproliferation humanitarian

interventions and new supranational institutions e.g. the governance of the Internet Basic safety human rights and global social issues such as environmental protection are best solved cooperatively and Etzioni explores ways of creating global authorities robust enough to handle these issues as he outlines the journey from empire to community **Communitarian Foreign Policy** Nikolas K. Bowers, 2016-09-15 This book is aimed at those Christians who have begun to question the conventional understandings of Jesus and Christianity and even of what we mean by God and have become discomfited by the dissonance between their own thinking and the church's stance A critical thinker by inclination and education Jack Bowers explored Celtic Christian spirituality for a decade That taught him there are other ways to live out the Christian faith than what we have been told by Rome and Protestantism Upon retirement in 1998 no longer professionally required to reflect conventional theology his belief structure began to wander seriously re-examining all he had taught and believed Having heard whispered rumors in younger years of priests losing their faith instead he felt he was not losing his theology but growing it This volume leads you through the evolution of his beliefs to what he can speak out with confidence right now understanding that as he continues to grow

and experience this world and hopefully get a little wiser his beliefs will evolve yet farther He invites you into this challenging spiritual pilgrimage to discover what you can confidently believe in 2016 AD **The Oxford Handbook of U.S. National Security** Derek S. Avoiding War with China Amitai Etzioni, 2017-05-02 Are the United States and China on a collision course In response to remarks made by Donald Trump s secretary of state China s state run newspaper Global Times asserted Unless Washington plans to wage a large scale war in the South China Sea any other approaches to prevent Chinese access to the disputed islands will be foolish Some experts contend that conflict is inevitable when an established power does not make sufficient room for a rising power In this timely new work renowned professor of international relations Amitai Etzioni explains why this would be disastrous and points to the ways the two nations can avoid war The United States is already preparing for a war with China Etzioni reveals However major differences of opinion exist among experts on the extent of military commitment required and no plan has been formally reviewed by either Congress or the White House nor has any been subjected to a public debate Etzioni seeks here to provide a context for this long overdue discussion and to explore the most urgent questions How aggressive is China How powerful is it Does it seek merely regional influence or regional dominance or to replace the United States as the global superpower The most effective means of avoiding war several experts argue requires integrating China into the prevailing rule based liberal international order Etzioni spells out how this might be achieved and considers what can be done to improve the odds such an integration will take place Others call for containing or balancing China and Etzioni examines the risk posed by our alliances with various countries in the region particularly India and Pakistan With insight and clarity Etzioni presents our best strategy to reduce tension between the two powers mapping out how the United States can accommodate China s regional rise without undermining its core interests its allies and the international order

draws these disparate approaches together in light of their common aims and redacts them in the face of their particular limitations Understanding the discipline as a vocation as well as a series of academic and methodological practices sustainable critique aims to balance the insights of normative and empirical theory against each other Each must be brought to bear if scholarship is to meaningfully and responsibly address an increasingly dense heavily armed and persistently diverse world

Law in a New Key Amitai Etzioni, 2010-12-01 A book for thoughtful readers and not particularly lawyers or scholars of law and society who are engaged in the issues of the day and want something other than easy answers from the right and left Most issues of law and social policy can be understood better through a lens that balances rights and interests and protects all of us while protecting each of us says renowned communitarian sociologist Amitai Etzioni in his latest of 30 books In Law in a New Key Etzioni addresses hot bed issues of terrorism drone warfare airport security and scanners government surveillance norms of social disapproval and forgiveness human rights and respect for ethnic cultural differences He shares his perspective as one who has fought in a resistance and then later became a professor at Columbia University and The George Washington University The perspective and his decades of academic research persuaded him that the answer to thorny legal and policy issues is found neither in unyielding devotion to individual rights at all costs nor in reflexive empowerment of the state in times of crisis and pain The answer is in moral dialogs respect for the basic right to life and security responsible checks on power and a balancing of interests that all must be seen as legitimate in a world of pundits and partisans who favor one right What good is the right to privacy if the basic right to live is sacrificed as the right holder is blown out of the sky If new technologies make it possible to conduct terrorism and crime without the law catching up to them What happens when respect for one religious position means choosing among religious positions A collection of 15 trenchant essays drawn from the popular press and academic journals yet accessible to a spectrum of readers who care about the key issues of the day and see the complexity in them Law in a New Key takes a fresh look at so many important topics that need examination through a

community concerned lens The frame gives contours and substance to today's debates without offering the usual entrenched policy solutions of kneejerk partisans Etzioni asks such questions frankly and on a variety of topics that matter Rights carry responsibilities and freedom and human rights must put living first in a world that does not always concede that self-evident proposition It is book about law and society whose time has come For many readers the social and legal notes he plays will finally sound in their register
