Daly,2015 **Rehabilitation in health financing** World Health Organization,2024-01-16 Health financing is a core pillar of health systems and encompasses the three functions of how revenues for health are collected pooled and paid out to providers of health care services It can be leveraged to pursue key universal health coverage goals of enhancing access ensuring quality and financial protection against catastrophic or impoverishing out of pocket expenditure But knowledge on how health financing practices can be harnessed to promote the delivery of rehabilitation services is limited This document is the first WHO resource on health financing for rehabilitation It considers current practices for financing rehabilitation services frames major challenges and opportunities and offers guidance to decision makers engaged in strengthening rehabilitation within health systems

### **Active Citizenship and Disability** Andrew Power,Janet Lord,Allison

DeFranco,2013-01-14 This book provides an international comparative study of the implementation of disability rights law and policy focused on the emerging principles of self determination and personalisation It explores how these principles have been enshrined in the United Nations Convention on the Rights of Persons with Disabilities and how different jurisdictions have implemented them to enable meaningful engagement and participation by persons with disabilities in society The philosophy of active citizenship underpinning the Convention that all citizens should be able to actively participate in the community provides the core focal point of this book which grounds its analysis in exploring how this goal has been imagined and implemented across a range of countries The case studies examine how different jurisdictions have reformed disability law and policy and reconfigured how support is administered and funded to ensure maximum choice and independence is accorded to people with disabilities

### **The End of Physiotherapy** David A. Nicholls,2017-07-31 Physiotherapy is arriving

at a critical point in its history Since World War I physiotherapy has been one of the largest allied health professions and the

established provider of orthodox physical rehabilitation But ageing populations of increasingly chronically ill people a growing scepticism towards biomedicine and the changing economy of healthcare threaten physiotherapy's long held status Paradoxically physiotherapy's affinity for treating the body as machine has resulted in an almost complete inability to identify the roots of the profession's present problems or define possible ways forward Physiotherapists need to engage in critically informed theoretical discussion about the profession's past present and future to explore their practice from economic philosophical political and sociological perspectives *The End of Physiotherapy* aims to explain how physiotherapy has arrived at this critical point in its history and to point to a new future for the profession The book draws on critical analyses of the historical and social conditions that have made present day physiotherapy possible Nicholls examines some of the key discourses that have had a positive impact on the profession in the past but now threaten to derail it This book makes it possible for physiotherapists to think otherwise about their profession and their day to day practice It will be essential reading for scholars and students of physiotherapy interprofessional and community rehabilitation as well as appealing to those working in medical sociology the medical humanities medical history and health care policy *Integrated Team Working* Karen Twyford, Tessa Watson, 2008 The authors explain the development of the music therapist's role within the multidisciplinary team and discuss the prevalence of collaborative partnerships between UK music therapists and other professionals such as occupational therapists speech and language therapists psychologists physiotherapists and other arts therapists Community Care and Severe Physical Disability Patricia Owens, 1987 **Developing and Managing High Quality Services for People with Learning Disabilities** Mark Burton, Mike Kellaway, 2018-12-17 First published in 1998 This timely book describes the challenges that need to be met in bringing together health and social services into a partnership to create effective and responsive services It presents the reader with both conceptual frameworks and practical examples on how change can be managed and the momentum maintained towards the development of a quality service The authors present practical examples and reflect on what worked and what was not successful Over twenty writers staff and managers senior and junior qualified and unqualified describe focused work in particular areas which will be of interest to any service for this user group Throughout the emphasis is on how to deliver an accessible good quality service and how this can be safeguarded in the future Fifty years after the establishment of the NHS and nearly twenty five years since the establishment of British Social Services departments this book articulates a modern practical and principled vision of community based services to vulnerable people **Understanding the Australian Health Care System - E-Book** Eileen Willis, 2012-05-15 A updated overview of Australia's health care system addressing its core features concepts and issues *Understanding the Australian Health Care System* 2nd edition is an excellent university book for undergraduate and postgraduate students alike Published four years after the original this second edition has been fully revised to reflect major Australian health care reform Its fully up to date content includes current governmental and legislative changes impacting
