Community Journalism Midst Media Revolution Journalism Studies:

Community Journalism Midst Media Revolution Sue Robinson, 2016-04-14 This edited volume documents the changes taking place in local community practices globally Digital technologies and globalization have forced evolutions in how we go about producing and consuming journalism and these essays empirically and theoretically advance the scholarly conversations about those trends What does it mean to serve the information needs of a community in a digitized social world where so many of our ties weak and strong are at least partially maintained in virtual worlds With authors and data from all over the world this work celebrates a fundamental connectedness to citizens and their community and renews the emphasis on home as a mandate for any locally focused news organization The contributions to this volume explore the flows within both digital spaces and geographic places that are an important foreground to any conversation about what is community today Several terms are coined and explored in the volume including geosocial journalism and reciprocal journalism that account for the essentiality of information sharing in global public realms to inspire feelings of community belonging Other chapters include a review of Patch com one of the largest grassroots digital platforms for journalism a survey of how Norwegian community media organizations are adapting to digital worlds how Swedish citizen sites operate and the ethics of community journalists to advocate for their citizenry regarding digital matters Venturing towards both optimism and dismay the collection argues that understandings of communal borders have expanded So even if journalists cannot reach the current locals such as in Africa as one chapter relates or globally transient locals digital technologies can help relocate fractured community into a less problematic virtual space This requires commitment on the part of both journalists and citizens to preserve those connections utilize those technologies and exercise those fundamental principles of community journalism that go back more than half a century This book was originally published as a special issue of Journalism Practice

Community Journalism Midst Media Revolution Sue Robinson, 2016-04-14 This edited volume documents the changes taking place in local community practices globally Digital technologies and globalization have forced evolutions in how we go about producing and consuming journalism and these essays empirically and theoretically advance the scholarly conversations about those trends What does it mean to serve the information needs of a community in a digitized social world where so many of our ties weak and strong are at least partially maintained in virtual worlds With authors and data from all over the world this work celebrates a fundamental connectedness to citizens and their community and renews the emphasis on home as a mandate for any locally focused news organization The contributions to this volume explore the flows within both digital spaces and geographic places that are an important foreground to any conversation about what is community today Several terms are coined and explored in the volume including geosocial journalism and reciprocal journalism that account for the essentiality of information sharing in global public realms to inspire feelings of community belonging Other chapters include a review of Patch com one of the largest grassroots digital platforms for journalism a survey of how

Norwegian community media organizations are adapting to digital worlds how Swedish citizen sites operate and the ethics of community journalists to advocate for their citizenry regarding digital matters Venturing towards both optimism and dismay the collection argues that understandings of communal borders have expanded So even if journalists cannot reach the current locals such as in Africa as one chapter relates or globally transient locals digital technologies can help relocate fractured community into a less problematic virtual space This requires commitment on the part of both journalists and citizens to preserve those connections utilize those technologies and exercise those fundamental principles of community journalism that go back more than half a century This book was originally published as a special issue of Journalism Practice

The Routledge Companion to Digital Journalism Studies Bob Franklin, Scott Eldridge II, 2016-11-18 The Routledge Companion to Digital Journalism Studies offers an unprecedented collection of essays addressing the key issues and debates shaping the field of Digital Journalism Studies today Across the last decade journalism has undergone many changes which have driven scholars to reassess its most fundamental questions and in the face of digital change to ask again Who is a journalist and What is journalism This companion explores a developing scholarly agenda committed to understanding digital journalism and brings together the work of key scholars seeking to address key theoretical concerns and solve unique methodological riddles Compiled of 58 original essays from distinguished academics across the globe this Companion draws together the work of those making sense of this fundamental reconceptualization of journalism and assesses its impacts on journalism's products its practices resources and its relationship with audiences It also outlines the challenge presented by studying digital journalism and more importantly offers a first set of answers This collection is the very first of its kind to attempt to distinguish this emerging field as a unique area of academic inquiry Through identifying its core questions and presenting its fundamental debates this Companion sets the agenda for years to come in defining this new field of study as Digital Journalism Studies making it an essential point of reference for students and scholars of journalism

studies journalism education cultural studies and media and communications programmes this is the comprehensive guide to local media and journalism

Reviving Rural News Teri Finneman, Nick Mathews, Patrick Ferrucci, 2024-02-02 Based on extensive research into weekly rural publishers and rural readers Reviving Rural News demonstrates that a new financial approach to community journalism is urgently needed and viable This book provides historical context for the state of local news examines the influence of journalistic identity and boundaries that have prevented change and offers practical guidance on how to adapt the financial strategies of weekly newspapers to the habits of modern readers Findings are grounded in robust data collection including surveys focus groups and a year long oral history study of a small weekly newspaper group in the United States A new model known as Press Club is presented as a template via which memberships events and newsletters can better engage community journalism with its audiences and create a more sustainable path for the future Reviving Rural News will be of interest to advanced students and researchers of local community and rural journalism as well as practitioners looking to bring about real world change in journalism organizations

Rethinking Journalism Again Chris Peters, Marcel Broersma, 2016-09-13 It's easy to make a rhetorical case for the value of journalism Because it is a necessary precondition for democracy it speaks to the people and for the people it informs citizens and enables them to make rational decisions it functions as their watchdog on government and other powers that be But does rehashing such familiar rationales bring journalism studies forward Does it contribute to ongoing discussions surrounding journalism's viability going forth For all their seeming self-evidence this book considers what bearing these old platitudes have in the new digital era It asks whether such hopeful talk really reflects the concrete roles journalism now performs for people in their everyday lives In essence it poses questions that strike at the core of the idea of journalism itself Is there a singular journalism that has one well-defined role in society Is its public mandate as strong as we think The internationally renowned scholars comprising the collection address these recurring concerns that have long defined the profession and which journalism faces even more acutely today By discussing what journalism was is and possibly will be this book highlights key contemporary areas of debate and tackles on going anxieties about its future

Mass Media and American Politics Doris A. Local Journalism in a Digital World Kristy Hess,Lisa Waller,2017-09-16

This unique text addresses the gap between journalism studies which have tended to focus on national and international news and the fact that most journalism is practised at the local level where people live work play and feel most at home Providing a rich overview of the role and place of local media in society Hess and Waller demonstrate that in this changing digital era the local journalist must not only specialize in niche place based news but also have a clear understanding of how their locality and its people fit in the context of a globalized world Equipping readers with a nuanced and well rounded understanding of the field today this is an essential resource for students of journalism media and communication studies as well as for practising and aspiring journalists

Making Sense of Mediatized Politics Jesper Stromback, Frank

Esser,2017-02-24 Over time and across Western democracies the media has become increasingly influential and a great deal more political processes have become altered shaped or structured by the media and the perceived need of individuals organizations and social systems to communicate with or through the media The key theoretical perspective to understand this process is mediatization As a long term process which has increased the importance of the media and their spill over effects on political processes institutions organizations and actors mediatization is one of the most important processes reshaping politics and transforming democracies across the Western world While the theoretical perspective of mediatization has become increasingly popular in recent years scholarly understanding of the mediatization process and its antecedents consequences and contingencies are still hampered by unresolved questions and a lack of systematic empirical studies This volume addresses this by bringing together contributions that analyze and investigate different facets of the mediatization of politics making a significant contribution to our theoretical as well as empirical understanding of the mediatization of politics and setting the agenda for further research on the mediatization of politics This book was originally published as a special issue of Journalism Studies

Digital Technologies and the Evolving African Newsroom Hayes Mabweazara,2016-04-14

African newsrooms are experiencing the disruptive impact of new digital technologies on the way they generate and disseminate news Indeed newsrooms are being forced to adapt in various ways and there are clear dimensions of localized creativity and adaptations by journalists to the digital revolution In the same way the influences of digitization Internet and social media are changing the informational needs of readers including how they engage with news These developments

nonetheless remain on the margins of mainstream journalism research very few researchers have sought to qualitatively capture the implications of developments in digital technologies on the routine practices of African journalists especially in their natural habitat the newsroom In this light this edited volume interrogates the changing ecology of newsmaking in Africa in the context of rapid technological changes in newsrooms as well as in the wider social context of news production It brings together six contributions drawn from five countries Egypt Mozambique South Africa Nigeria and Zimbabwe to explore practices challenges and professional normative dilemmas emerging with the adoption and appropriation of new technologies While the studies point to dimensions of localised new technology appropriations as defined by the complex socio political structures in which African journalists operate they are not rigidly confined to Africa They are expressly in dialogue with theoretical observations largely emerging from Western scholarship In this sense the book goes beyond simply mainstreaming African perspectives it engages directly with dominant theoretical observations and offers a point of departure for developing what could loosely be branded as an African digital journalism epistemology This book was originally published as a special issue of Digital Journalism **News of Baltimore** Linda Steiner, Silvio

Waisbord, 2017-05-25 This book examines how the media approached long standing and long simmering issues of race class violence and social responsibility in Baltimore during the demonstrations violence and public debate in the spring of 2015 Contributors take Baltimore to be an important place symbol and marker though the issues are certainly not unique to Baltimore they have crucial implications for contemporary journalism in the U S These events prompt several questions How well did journalism do in Baltimore nearby and nationally in explaining the endemic issues besetting Baltimore What might have been done differently What is the responsibility of journalists to anticipate and cover these problems How should they cover social problems in urban areas What do the answers to such questions suggest about how journalists should in future cover such problems Voice of the Locality Lenka Waschková, 2017-01-01 Publikace se zam uje na t ma lok ln ch m di kter

a wide range of issues including justice sustainable development musical culture journalism and peace It explains the philosophy of Ubuntu to both African and non African scholars Comprehensively written this book will appeal to a broad audience of academic and non academic readers **Guide to Canadian News Media** Peter Desbarats,1989 Latin America, Media, and Revolution J. Darling,2008-04-28 This book compares rebel media use in three Mesoamerican rebellions the Nicaraguan Revolution the Salvadoran civil war and the Zapatista uprising in Chiapas Mexico Directly comparing media use in all three rebellions provides a richer understanding of the role of media in social change particularly violent change

Mediated Communication Philip M. Napoli,2018-09-24 Media scholarship has responded to a rapidly evolving media environment that has challenged existing theories and methods while also giving rise to new theoretical and methodological approaches This volume explores the state of contemporary media research Focusing on Intellectual Foundations Theoretical Perspectives Methodological Approaches Context and Contemporary Issues this volume is a valuable resource for media scholars and students *The Revolution That Wasn't* Jen Schradie,2019-05-13 This surprising study of online political mobilization shows that money and organizational sophistication influence politics online as much as off and casts doubt on the democratizing power of digital activism The internet has been hailed as a leveling force that is reshaping activism From the Arab Spring and Occupy Wall Street to Black Lives Matter and MeToo digital activism seemed cheap fast and open to all Now this celebratory narrative finds itself competing with an increasingly sinister story as platforms like Facebook and Twitter once the darlings of digital democracy are on the defensive for their role in promoting fake news While hashtag activism captures headlines conservative digital activism is proving more effective on the ground In this sharp eyed and counterintuitive study Jen Schradie shows how the web has become another weapon in the arsenal of the powerful She zeroes in on workers rights advocacy in North Carolina and finds a case study with broad implications North Carolina's hard right turn in the early 2010s should have alerted political analysts to the web's antidemocratic potential amid booming online organizing one of the country's most closely contested states elected the most conservative government in North Carolina's history *The Revolution That Wasn't* identifies the reasons behind this previously undiagnosed digital activism gap Large hierarchical political organizations with professional staff can amplify their digital impact while horizontally organized volunteer groups tend to be less effective at translating online goodwill into meaningful action Not only does technology fail to level the playing field it tilts it further so that only the most sophisticated and well funded players can compete In the Midst of Perpetual Fetes David Waldstreicher,2012-12-01 In this innovative study David Waldstreicher investigates the importance of political festivals in the early American republic Drawing on newspapers broadsides diaries and letters he shows how patriotic celebrations and their reproduction in a rapidly expanding print culture helped connect local politics to national identity Waldstreicher reveals how Americans worked out their political differences in creating a festive calendar Using the Fourth of July as a model members of different political parties and social movements invented new holidays

celebrating such events as the ratification of the Constitution Washington's birthday Jefferson's inauguration and the end of the slave trade They used these politicized rituals he argues to build constituencies and to make political arguments on a national scale While these celebrations enabled nonvoters to participate intimately in the political process and helped dissenters forge effective means of protest they had their limits as vehicles of democratization or modes of citizenship Waldstreicher says Exploring the interplay of region race class and gender in the development of a national identity he demonstrates that an acknowledgment of the diversity and conflict inherent in the process is crucial to any understanding of American politics and culture
