Nakano, 2004-09-30 Based on extensive original research this book explores the reality of volunteering in an urban residential Japanese neighbourhood      *Civil Society and International Students in Japan* Polina Ivanova, 2023-07-14 This book explores

encounters and interactions between international students and local civil society organizations CSOs in Japan Based on the results of a cross case analysis this study reveals the possibilities for international students in Japan of creating social capital in the short term in culturally and socially diverse groups While a conventional approach sees universities as the main support providers this research shows the role of local CSOs as alternative actors offering international student support

Unlike the long standing paradigm viewing Japanese civil society as top down and closely following the government this book uncovers many decentralized and bottom up organizational types Furthermore it highlights an active part taken by foreign staff and volunteers in Japanese CSOs which challenges the guest host dichotomy of the previous literature Presenting a reconsidered insight into the role of international students and their interaction with CSOs in community building this book will appeal to students and scholars of Asian studies and migration studies as well as organizers of CSOs and faculty of international higher education institutions      *Nature, Ritual, and Society in Japan's Ryukyu Islands* Arne

Røkkum, 2006-04-18 Despite their small area the southern islands of Japan can be seen as stepping stones towards a more nuanced view of cultural osmosis between Japan and the outside world This book presents an ethnographic portrayal of the people of the Southern Ryukyu Islands and their world In particular it explores the mind of the islanders their relationship with the natural world their social relationships and the rituals which represent and give expression to these relationships Based on extensive original research including participant observation the book allows the authentic voices of the Ryukyu Island worlds to speak for themselves as well as setting the work in the wider context of anthropology Japanese Studies and Pacific Island studies      **Japanstudien. Band 18/2006** René Haak, 2006 Die Arbeitswelten in Japan bilden ein weites und

zugleich differenziertes Feld das nicht nur aus einer Perspektive und Disziplin erschlossen werden sollte Heute gibt es wohl kaum einen Bereich der japanischen Gesellschaft bei dem so viele abenteuerliche verklärte und häufig verzogene Ansichten falsche Dokumentationen und populärwissenschaftliche Schlussfolgerungen im Umlauf sind wie bei dem Phänomen Arbeit in Japan Ausgangspunkt für den vorliegenden Band 18 der Reihe Japanstudien des Deutschen Instituts für Japanstudien war daher ein weites Begriffsverständnis von Arbeit das sowohl Erwerbsarbeit als auch die Vielfalt unentgeltlicher Arbeitsformen einschließt Kreative und künstlerische Ausdrucksformen von Arbeit zählten bewusst zum Themenkomplex Japanische Arbeitswelten Das Anliegen dieses Bandes war es die Entwicklung und die Veränderung von Arbeitswelten in Japan aus unterschiedlichen Perspektiven und Disziplinen heraus zu untersuchen      **Making Japanese Heritage** Christoph

Brumann, Rupert A. Cox, 2009-12-16 This book examines the making of heritage in contemporary Japan investigating the ways in which particular objects practices and institutions come to be seen as forms of heritage which are ascribed public recognition and political significance *Japan's Changing Generations* Gordon Mathews, Bruce White, 2012-10-02 This book argues that the generation gap in Japan is something more than young people resisting the adult social order before entering and conforming to that order Rather it signifies something more fundamental the emergence of a new Japan which may be quite different from the Japan of postwar decades It argues that while young people in Japan in their teens twenties and early thirties are not engaged in overt social or political resistance they are turning against the existing Japanese social order whose legitimacy has been undermined by the past decade of economic downturn The book shows how young people in Japan are thinking about their bodies and identities their social relationships and their employment and parenting in new and generationally contextual ways that may help to create a future Japan quite different from Japan of the recent past **The Culture of Copying in Japan** Rupert Cox, 2007-09-12 This book challenges the perception of Japan as a copying culture through a series of detailed ethnographic and historical case studies It addresses a question about why the West has had such a fascination for the adeptness with which the Japanese apparently assimilate all things foreign and at the same time such a fear of their skill at artificially remaking and automating the world around them Countering the idea of a Japan that deviously or ingenuously copies others it elucidates the history of creative exchanges with the outside world and the particular myths philosophies and concepts which are emblematic of the origins and originality of copying in Japan The volume demonstrates the diversity and creativity of copying in the Japanese context through the translation of a series of otherwise loosely related ideas and concepts into objects images texts and practices of reproduction which include shamanic theatre puppetry tea utensils Kyoto town houses architectural models genres of painting calligraphy and poetry sample food displays and the fashion and car industries *Psychotherapy and Religion in Japan* Chikako Ozawa-de Silva, 2006-09-27 Naikan is a Japanese psychotherapeutic method which combines meditation like body engagement with the recovery of memory and the reconstruction of one's autobiography in order to bring about healing and a changed notion of the self Based on original anthropological fieldwork this fascinating book provides a detailed ethnography of Naikan in practice In addition it discusses key issues such as the role of memory autobiography and narrative in health care and the interesting borderland between religion and therapy where Naikan occupies an ambiguous position Multidisciplinary in its approach it will attract a wide readership including students of social and cultural anthropology medical sociology religious studies Japanese studies and psychotherapy Death and Dying in Contemporary Japan Hikaru Suzuki, 2013 This book based on extensive original research explores the various ways in which Japanese people think about death and how they approach the process of dying and death It shows how new forms of funeral ceremonies have been developed by the funeral industry how traditional grave burial is being replaced in some cases by the scattering of ashes and forest mortuary ritual and how Japanese thinking on

relationships the value of life and the afterlife are changing Throughout it assesses how these changes reflect changing social structures and social values **Language, Education and Citizenship in Japan** Genaro Castro-Vázquez, 2013 Based on extensive original research this book explores the early educational experiences of foreign children in Japan It considers foreign children's experiences of Japanese schools examines the special tutoring such children often have to improve their language proficiency and explores the role of mothers in encouraging their children's education It contrasts the experiences of foreign children with those of Japanese children and sets out the extensive difficulties foreign children encounter in becoming fully accepted by and integrated into Japanese society The book concludes by discussing the nature of citizenship in Japan and the importance of education including early education in shaping Japanese citizenship **Japanese Tourism and Travel Culture** Sylvie Guichard-Anguis, Okpyo Moon, 2008-11-27 This book examines Japanese tourism and travel both today and in the past showing how over hundreds of years a distinct culture of travel developed and exploring how this has permeated the perceptions and traditions of Japanese society It considers the diverse dimensions of modern tourism including appropriation and consumption of history nostalgia identity domesticated foreignness and the search for authenticity and invention of tradition Japanese people are one of the most widely travelling peoples in the world both historically and in contemporary times What may be understood as incipient mass tourism started around the 17th century in various forms including religious pilgrimages long before it became a prevalent cultural phenomenon in the West Within Asia Japan has long remained the main tourist sending society since the beginning of the 20th century when it started colonising Asian countries In 2005 some 17.8 million Japanese travelled overseas across Europe Asia the South Pacific and America In recent times however tourist demands are fast growing in other Asian countries such as Korea and China Japan is not only consuming other Asian societies and cultures it is also being consumed by them in tourist contexts This book considers the patterns of travelling of the Japanese examining travel inside and outside the Japanese archipelago and how tourist demands inside influence and shape patterns of travel outside the country Overall this book draws important insights for understanding the phenomenon of tourism on the one hand and the nature of Japanese society and culture on the other

**Making National Heroes** Jacqueline Zhenru Lin, 2024-01-02 Making National Heroes is an ethnography of the making of national heroes in the commemoration of the Second World War in contemporary China Foregrounding the lived experience of men and women who participate in commemorative activities it theorises how masculinity and nationalism entangle in recollecting war memories Taking the feminist line of inquiry this anthropological study develops an approach to capture the centrality of making exemplars in the realisation of hegemonic masculinities It adds a gender perspective to studies on exemplarist moral theory and theorises exemplary men's cross cultural significance in defining masculinities Researchers in the fields of critical masculinity studies anthropology feminist methodology China studies and memory studies will be interested in this book I highly recommend this book about the grassroots redress movement that seeks to make

national heroes of the largely forgotten KMT soldiers from pre 1949 times By way of exploring this intriguing topic Jacqueline Zhenru Lin gives a fascinating account of how nationalism and gender interact to produce exemplary masculinities in present day China Kam Louie University of Hong Kong Firmly grounded in anthropology but with historical and digital analyses woven throughout the author eloquently opens new avenues for reflection in Chinese masculinities research This important contribution draws new attention to links between masculinity nation and memory in a media saturated world Jamie Coates University of Sheffield
