Contributions are drawn from across the world and from a wide variety of philosophical approaches and traditions. Ecclesial Recognition with Hegelian Philosophy, Social Psychology & Continental Political Theory Timothy T.N. Lim, 2017-07-03 Ecclesial Recognition proffers a framework for churches to accept the legitimacy and authenticity of each other as the Church in the dialogical process towards fuller communion. Typically, recognition and its reception investigate theologically the sufficiency of creeds as ecumenical statements of unity, the agreeability of essential sacramentality of the church and the recognition of its ministries as the churches witness of the gospel. This monograph conceives ecclesial recognition as an intersubjective dynamics of inclusion and exclusion amid identity formation and consensus development with insights from Hegelian philosophy, group social psychology and the Frankfurt School. Axel Honneth's political theory. The viability of this interdisciplinary approach is demonstrated from the French Dominican Yves Congar's oeuvre with implications for intra-Communion and inter-Church relations. Dr Lim examines philosophical recognition theory, group social psychology and political recognition theory to analyse the non-theological impasses confronting the whole ecumenical movement. Rev Dr Trevor Hoggard, Director, English speaking Ministries, Methodist Church of New Zealand. Lim masterfully argues for the viability of an interdisciplinary approach to ecumenical recognition within communities among churches and in their common pastoral mission. Fr and Professor Radu Bordeianu, Duquesne University and Orthodox theologian, Representative of the Greek Orthodox Metropolis of Pittsburgh and Assistant Priest of Holy Trinity Greek Orthodox Church in Pittsburgh. This book makes an important contribution to ecumenical ecclesiology. Rev Dr and Professor Sandra Beardsall, St Andrew's College, Canada and United Church of Canada, Ordained Minister. I find Dr Lim's work a solid and necessary contribution to ecumenical work around the world. Rev Dr and Professor Dominick D. Hanckle, Regent University and priest of the Communion of Evangelical Episcopal Churches. With penetrating analysis and creative suggestions, this monograph takes the talk about ecumenical recognition to a new level. Professor Veli-Matti Karkkainen, University of Helsinki.

Theology of Wagner's Ring Cycle I Richard H. Bell, 2021-01-01 Wagner's *Ring* is one of the greatest of all artworks of Western civilization but what is it all about The power and mystery of Wagner's creation was such that even he felt he stood before his work as though before some puzzle A clue to the *Ring*'s greatness lies in its multiple avenues of self disclosure and the corresponding plethora of interpretations that over the years has granted ample scope for directors and will no doubt do so well into the distant future One possible interpretation which Richard Bell argues should be taken seriously is the *Ring* as Christian theology In this first of two volumes Bell considers among other things how the composer's Christian interests may be detected in the forging of his *Ring* in his appropriation of sources whether they be myths and sagas writers poets or philosophers and in works composed around the same time especially his *Jesus of Nazareth*

[From Marx to Hegel and Back](#) Victoria Fareld, Hannes Kuch, 2020-01-09 The relation between Hegel and Marx is among the most interpreted in the history of philosophy Given the contemporary renaissance of Marx and Marxist theories how should we re read the Hegel Marx connection today What place does Hegel have in contemporary critical thinking Most schools of Marxism regard Marx's inversion of Hegel's dialectics as a progressive

development leaving behind Hegel's idealism by transforming it into a materialist critique of political economy. Other Marxist approaches argue that the mature Marx completely broke with Hegel. By contrast, this book offers a wide-ranging and innovative understanding of Hegel as an empirically informed theorist of the social, political, and economic world. It proposes a movement from Marx to Hegel and back by exploring the intersections where the two thinkers can be read as mutually complementing or even reinforcing one another. With a particular focus on essential concepts like recognition, love, revolution, freedom, and the idea of critique, this new intervention into Hegelian and Marxian philosophy unifies the ethical content of Hegel's philosophy with the power of Marx's social and economic critique of the contemporary world.

The Palgrave Handbook of German Idealism and Existentialism Jon Stewart, 2020-08-25. This Handbook explores the complex relations between two great schools of continental philosophy: German idealism and existentialism. While the existentialists are commonly thought to have rejected idealism as overly abstract and neglectful of the concrete experience of the individual, the chapters in this collection reveal that the German idealists, in fact, anticipated many key existentialist ideas. A radically new vision of the history of continental philosophy is thereby established: one that understands existentialism as a continuous development from German idealism. Key Features: Operates at both the macro level and micro level, treating both the two schools of thought and the individual thinkers associated with them. Explores the relations from shifting perspectives by examining how the German idealists anticipated existentialist themes and how the existentialists concretely drew on the work of the idealists. Meticulously uncovers and documents many little-known points of contact between the German idealists and the existentialists. Includes often-neglected figures such as Jacobi and Trendelenburg. This Handbook is an essential resource for researchers and advanced students interested in thinking critically about the broad development of continental philosophy. Moreover, the individual chapters on specific philosophers contain a wealth of information that will compel experts in the field to reconsider their views on these figures.
