Voices of the Army of the Potomac Vincent L. Burns, 2021-10-29 Finalist 2021 Army Historical Foundation Distinguished Writing Awards As historian David W Bright noted in *Race and Reunion The Civil War in American Memory* No other historical experience in America has given rise to such a massive collection of personal narrative literature written by ordinary people This massive collection of memoirs recollections and regimental histories make up the history of the Civil War seen through the eyes of the participants This work is an overview of what Civil War soldiers and veterans wrote about their experiences It focusses on what veterans remembered what they were prepared to record and what they wrote down in the years after the end of the war In an age of increased literacy many of these men had been educated whether at West Point Harvard or other establishments but even those who had received only a few years of education chose to record their memories The writings of

these veterans convey their views on the cataclysmic events they had witnessed but also their memories of everyday events during the war While many of them undertook detailed research of battles and campaigns before writing their accounts it is clear that a number were less concerned with whether their words aligned with the historical record than whether they recorded what they believed to be true This book explores these themes and also the connection between veterans writing their personal war history and the issue of veterans pensions Understanding what these veterans chose to record and why is important to achieving a deeper understanding of the experience of these men who were caught up in this central moment in American life *The Forgotten Charge* Scott B. Lang, 2002 Rebellion, Reconstruction, and Redemption, 1861-1893

Stephen R. Wise, Lawrence S. Rowland, 2021-12-20 The continued history of Beaufort County South Carolina during and following the Civil War In *Rebellion Reconstruction and Redemption 1861 1893* the second of three volumes on the history of Beaufort County Stephen R Wise and Lawrence S Rowland offer details about the district from 1861 to 1893 which influenced the development of the South Carolina and the nation During a span of thirty years the region was transformed by the crucible of war from a wealthy slave based white oligarchy to a county where former slaves dominated a new radically democratic political economy This volume begins where volume I concluded the November 1861 Union capture and occupation of the Sea Islands clustered around Port Royal Sound and the Confederate retreat and re entrenchment on Beaufort District s mainland where they fended off federal attacks for three and a half years and vainly attempted to maintain their pre war life In addition to chronicling numerous military actions that revolutionized warfare Wise and Rowland offer an original sophisticated study of the famous Port Royal Experiment in which United States military officers government officials civilian northerners African American soldiers and liberated slaves transformed the Union occupied corner of the Palmetto State into a laboratory for liberty and a working model of the post Civil War New South The revolution wrought by Union victory and the political and social Reconstruction of South Carolina was followed by a counterrevolution called Redemption the organized campaign of Southern whites defeated in the war to regain supremacy over African Americans While former slave owning anti black Redeemers took control of mainland Beaufort County they were thwarted on the Sea Islands where African Americans retained power and kept reaction at bay By 1893 elements of both the New and Old South coexisted uneasily side by side as the old Beaufort District was divided into Beaufort and Hampton counties The Democratic mainland reverted to an agricultural based economy while the Republican Sea Islands and the town of Beaufort underwent an economic boom based on the phosphate mining industry and the new commercial port in the lowcountry town of Port Royal

rootstocks from Texas earned him the Chevalier du Merite Agricole in the French Legion of Honor and numerous accolades This second edition introduces new insights into the phylloxera period Munson s many papers and publications and his far sighted grasp of the needs of twentieth century agriculture and transportation It details the continuing influence of both his research and his hybrid grapes on modern viticulture and new varieties of vitis that have been bred from them around the world
