Populist Authoritarianism Wenfang Tang, 2016 Populist Authoritarianism focuses on the Chinese Communist Party which governs the world's largest population in a single party authoritarian state Wenfang Tang attempts to explain the seemingly contradictory trends of the increasing number of protests on the one hand and the results of public opinion surveys that consistently show strong government support on the other hand The book points to the continuity from the CCP's revolutionary experiences to its current governing style even though China has changed in many ways on the surface in the post Mao era The book proposes a theoretical framework of Populist Authoritarianism with six key elements including the Mass Line ideology accumulation of social capital public political activism and contentious politics a government that is responsive to hype weak political and civil institutions and a high level of regime trust These traits of Populist Authoritarianism are supported by empirical evidence drawn from multiple public opinion surveys conducted from 1987 to 2014 Although the CCP currently enjoys strong public support such a system is inherently vulnerable due to its institutional deficiency Public opinion can swing violently due to policy failure and the up and down of a leader or an elite faction The drastic change of public opinion cannot be filtered through political institutions such as elections and the rule of law creating system wide political earthquakes

Aka, 2021-11-22 For long the narrative in constitutional law public policy and statecraft is that Bosnia must join the EU as a matter of economic development and nation building This book introduces another dimension to the narrative oversight without which the story remains one dimensional rather than balanced That missing element in the literature this study integrates is a reformed Bosnian state along the lines proposed in this book that operates outside the EU The setting of the work within the fields of knowledge of comparative constitutional law and public choice theory provides added value to the reader including students scholars policy makers and lay persons **Gender in the Political Science Classroom** Ekaterina M. Levintova, Alison Kathryn Staudinger, 2018-07-12 A collection of studies examining the role of gender in teaching and learning in the traditionally male dominated field of political science Gender in the Political Science Classroom looks at the roles gender plays in teaching and learning in the traditionally male dominated field of political science The contributors to this collection bring a new perspective to investigations of gender issues in the political behavior literature and feminist pedagogy by uniting them with the Scholarship of Teaching and Learning SoTL The volume offers a balance between the theoretical and the practical and includes discussions of issues such as curriculum class participation service learning doctoral dissertations and professional placements The contributors reveal the discipline of political science as a source of continuing gender based inequities but also as a potential site for transformative pedagogy and partnerships that are mindful of gender While the contributors focus on the discipline of political science their findings about gender in higher education are relevant to SoTL practitioners other social science disciplines and the academy at large A bold and compelling collection that asks important questions about the ways in which the teaching of Political Science reproduces gender inequities Aeron Haynie Diversity in Decline? Arjun Tremblay, 2018-12-28 In this book Arjun Tremblay considers the future of multiculturalism contextualised within an ideological and political shift to the right Is there any hope that multiculturalism will survive alongside the rise of the political right across democracies How can policy makers continue to recognize and to accommodate minorities in an increasingly inhospitable ideological environment Based on evidence from three case studies Tremblay develops a hypothesis of multicultural outcomes arguing that while the threat to multiculturalism is real there still is hope and that not only is the fate of minority rights in liberal democracies far from sealed but it may still be possible to further protect the rights of immigrant and other minority groups in years to come In order to do this proponents of diversity politics may need to reconceptualise multiculturalism and other minority rights along instrumental lines as a means to fulfil policy objectives above and beyond the recognition and accommodation of immigrant

minorities This will be an important read for scholars interested in minority rights multiculturalism diversity politics comparative politics institutionalism right wing and far right studies and public policy The Political Economy of Universal Healthcare in Africa Philip C. Aka,Hassan Wahab,Yvette M. Alex-Assensoh,2022-04-27 The global rise in pandemics most recently COVID 19 and other health challenges some of which are due to climate change have imposed significant challenges on the healthcare systems in economies around the world Thus this book deals with an issue that is very timely and relevant not just in Africa but globally It critically assesses healthcare reforms in Ghana under the Fourth Republic since 1993 Although it focuses on Ghana s National Health Insurance Scheme of 2003 the book instructively goes beyond this program The book argues that although Ghana is a bellwether of healthcare reforms in Africa its healthcare initiatives are still far from the service haven of healthcare as a human right Themes that animate the book s argument include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens Key highlights of the book include an increased accent on health as a human right emphasis on comparative analysis in healthcare studies and the formulation of a four hallmark framework embedded in economics law politics and human rights to act as a guide for assessment of healthcare reforms in Africa in particular and Ghana more specifically Using Ghana as a case study and analytical window into the world the book offers a valuable and timely resource for academics students and policymakers across the disciplines of development and healthcare economics law public policy political science sociology and African and Caribbean studies as well as in various fields in health science The Political Ecology of Pakistan Gholam Mujtaba,2018-10-22 Pakistan is about to play a pivotal role in global politics Serving as a gateway to the Middle East and a conduit to Central and South Asia it will be a crucial partner as the United States contends with China s rise as an emerging global superpower and seeks to maintain its hegemony in the region The problem is for many people in the West Pakistan is somewhat of a black box with few Westerners understanding the country s complex history and current political reality The Political Ecology of Pakistan aims to change this by outlining the geopolitical history of Pakistan since the country gained independence in 1947 focusing in particular on the military s ongoing role in state affairs and the struggle for democracy to take root in the region In addition this book outlines Pakistan s improved economy internal security religious harmony equality of opportunity corruption free society and growing transparency and accountability all of which will make the country a vital partner in securing and maintaining peace in the region This information will be of interest to policymakers as well as those who are seeking to understand Pakistan s geopolitical significance *African Intellectuals and the State of the Continent* Olayiwola Abegunrin,Sabella Abidde,2018-07-26 This festschrift is composed in honor of a distinguished scholar and Pan Africanist Professor Sulayman S Nyang whose career and intellectual pursuits spans more than 45 years much of it at Howard University Nyang s contributions to African affairs transcend the scope of the academic world as he served as First Secretary and Head of Chancery of the Gambian Embassy in Saudi Arabia from 1975 to 1977 and consultant to the

World Bank and United Nations agencies In addition Professor Nyang served as the President of the Interfaith Conference of Metropolitan Washington DC and a member of the boards of many academic journals and organizations of Islamic Studies in the USA He has published copiously on a variety of issues affecting continental Africans Africans in the Diaspora and beyond He has published and collaborated on dozens of books and book chapters and more than 100 articles in referred journals

Human Rights in Nigeria's External Relations Philip Aka, 2016-12-20 This book is a broad ranging argument for thorough reforms at home and abroad in Nigeria as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Because of its enormous material and human endowments Nigeria is dubbed the Giant of Africa It is a moniker many of its leaders take seriously Yet Nigeria is a state rife with instability some of it periodically erupting into violence Given still ongoing national security challenges in the land that notoriously includes a bloody religion oriented terrorism the Fourth Republic since 1999 the longest period of continuous democratic rule since independence key to the timeline of this book has not been insulated from the spell of instability The main argument of this work is that internationally agreed upon ethical standards embedded in human rights can save Nigeria This book is a methodologically and theoretically grounded seminal discourse on Nigerian foreign relations that spells out the human rights or lack thereof in those relations including underlying and impinging domestic forces This work is set around six issues of application embedded in a temple of Nigeria's human rights foreign policy comprising two steps and four pillars reconstructed national interest increased human rights at home redesigned peacekeeping reshaped foreign policy machinery increased bilateralism in foreign relations and the use of ECOWAS as human rights tool Although focused on the period since independence for proper understanding of events from the past that shape the current patterns of politics in the land this book also embodies a historical background chapter that overviews the pre colonial and colonial eras

Political Culture, Change, and Security Policy in Nigeria Kalu Kalu, 2018-03-15 Demonstrating how political culture facilitates or distorts political preferences and political outcomes this book explores how the historical development of social conditions and the current social structures shape understandings and constrain individual and collective actions within the Nigerian political system Political Culture Change and Security Policy examines the extent to which specific norms and socialization processes within the political and civic culture abet corruption or the proclivity to engage in corrupt practices and how they help reinforce political attitudes and civic norms that have the potential to undermine the effectiveness of government It also delineates specific doctrinal models and strategic framework essential to the development and implementation of Nigeria's national security policy as well as innovative approaches to national development planning Professor Kalu N Kalu offers an exhaustive study that integrates several quantitative models in addressing a series of theoretical and empirical questions that inform historical and contemporary issues of the Nigerian project The general premise is that it is not enough to simply highlight the problems of the state and address the what question we must also address the why and how questions that drive political

change policy preferences and competing political outcomes

Human Rights in Nigeria's External Relations in the Age of General Muhammadu Buhari and His Successors Philip C. Aka, 2024-07-17 Under the Fourth Republic since 1999 the challenge Nigerian leaders face like never before is how to create a state that matches the expectations of their diverse peoples at home and abroad Taking this proposition as starting point this book advances proposals for a human right policy referred to alternately in the work as principled foreign policy for Nigeria under the Fourth Republic taking advantage of the inestimable opportunity afforded by General Muhammadu Buhari's departure from the political scene on May 29 2023 after the famine domestically and externally wrought by his two terms of office as President It is a broad ranging argument draped in the less arcane constitutional vocabulary and material of human rights for thoroughgoing reforms at home and abroad as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Buhari's departure marks the end of military teleguidance of Nigerian politics under the Fourth Republic in the camouflage of democratic rule a birthmark of remote control dating back to the first military intervention in the country in January 1966 These momentous events within Nigeria coincide with equally epoch making developments in the UK Nigeria's former colonial overlord with ripple effects in Nigeria signified by the death of Queen Elizabeth II after seven decades on the throne and the emergence of Prince Charles as King of England A new monarch in Britain adds to the opportunity that falls open for the reconfiguration of Nigeria's external relations with ramifications for the application of human rights in those relations Despite its known disabilities Nigeria has the potential infrastructure including its sizable population to conduct a human right policy if its leaders rationalize the country's resources more wisely
