Zuckerman, 1997-08-28 This book reassesses the research schools in comparative politics assessing knowledge advancing theory and in the end seeking to direct research in the coming years It begins by examining the three research schools that guide comparative politics rational choice theory culturalist analysis and structuralist approaches The first set of contributors offer briefs for each of the schools presenting core principles variations within each approach and fresh combinations A second set of authors applies the research schools to established fields of scholarship The concluding section contains essays by the editors returning the focus to the theme of advanced theory in comparative politics

Comparative Politics Daniele Caramani, 2008 Comparative Politics provides a comprehensive introduction to political systems around the world It covers methods and theories the nation state institutions actors and processes policies and recent changes **Comparative Politics** Judith Bara, Mark Pennington, 2009-03-19 Bara and Pennington's edited volume successfully fills a huge void in the market for introductory textbooks to comparative politics which previously offered either descriptions of political processes and systems or overviews of the methodology of comparative analysis By applying major

political science theories to overviews of the core elements of political systems the authors both enhance our understanding of these elements and provide readers an excellent introduction to comparative explanation Dr David Howarth University of Edinburgh What is distinctive about this authoritative and comprehensive book on comparative politics is the way in which it is underpinned throughout by a theoretical analysis centred on a new institutionalist approach Professor Wyn Grant University of Warwick Comparative Politics takes a fresh and original approach to the field it examines the role of structures rules and norms in regulating the individual and collective behaviour of political actors Each chapter provides a critical bibliography and key questions which will be particularly useful for students approaching Comparative Politics for the first time Altogether this is a comprehensive and useful read which I warmly recommend Ian Budge Professor Emeritus Professor of Government University of Essex This is a most useful book Teachers of comparative politics often scramble around with out of date textbooks and photocopies of more or less compatible articles Here is a new book that gives an up to date comprehensive and systematic introduction to the major strands of institutional thought and applies these to the major institutions processes and policy areas It will be a great help for many of us academics and students alike Peter Kurrild Klitgaard Professor of Comparative Politics University of Copenhagen This book provides a distinctive new introduction to the study of comparative politics at undergraduate level Rich in case study material and global in coverage Comparative Politics sets out the basic theoretical and methodological foundations for studying different political systems as well as the key structures and actors of which they are comprised Part One explores the nature of comparative methodology and introduces students to the major theoretical paradigms that seek to explain the operation of institutions in democratic states and facilitate comparison across different political systems Part Two examines the institutional structures of the modern state outlining the key features such as the electoral systems and territorial and functional divisions of government across a range of modern states Part Three analyzes the role of key actors such as voters and parties interest groups and social movements the bureaucracy and the judiciary This book will be an essential primer for students on first year courses in comparative government and politics as well as introductory courses in political science concepts and methods Judith Bara is Senior Lecturer in Politics at Queen Mary University of London and Research Fellow in Government University of Essex David S Bell is Professor of French Government and Politics and Head of Social Studies and Law at the University of Leeds Jocelyn Evans is Reader in Politics at the European Studies Research Institute University of Salford Catherine Needham is Lecturer in Politics at Queen Mary University of London Brendan O Duffy is Senior Lecturer in Politics at Queen Mary University of London Mark Pennington is Senior Lecturer in Politics at Queen Mary University of London David Robertson is Professor of Politics University of Oxford and Vice Principal St Hugh s College Oxford

The Oxford Handbook of Comparative Politics Carles Boix, Susan Carol Stokes, 2007 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science Each volume focuses

on a particular part of the discipline with volumes on Public Policy Political Theory Political Economy Contextual Political Analysis Comparative Politics International Relations Law and Politics Political Behavior Political Institutions and Political Methodology The project as a whole is under the General Editorship of Robert E Goodin with each volume being edited by a distinguished international group of specialists in their respective fields The books set out not just to report on the discipline but to shape it The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines The Oxford Handbook of Comparative Politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by forty seven top scholars in the discipline of comparative politics Part I includes chapters surveying the key research methodologies employed in comparative politics the comparative method the use of history the practice and status of case study research the contributions of field research and assessing the possibility of constructing a science of comparative politics Parts II to IV examine the foundations of political order the origins of states and the extent to which they relate to war and to economic development the sources of compliance or political obligation among citizens democratic transitions the role of civic culture authoritarianism revolutions civil wars and contentious politics Parts V and VI explore the mobilization representation and coordination of political demands Part V considers why parties emerge the forms they take and the ways in which voters choose parties It then includes chapters on collective action social movements and political participation Part VI opens up with essays on the mechanisms through which political demands are aggregated and coordinated This sets the agenda to the systematic exploration of the workings and effects of particular institutions electoral systems federalism legislative executive relationships the judiciary and bureaucracy Finally Part VII is organized around the burgeoning literature on macropolitical economy of the last two decades

Patronal Politics Henry E. Hale, 2015 This book proposes a new way of understanding events throughout the world that are usually interpreted as democratization rising authoritarianism or revolution Where the rule of law is weak and corruption pervasive what may appear to be democratic or authoritarian breakthroughs are often just regular predictable phases in longer term cyclic dynamics patronal politics This is shown through in depth narratives of the post 1991 political history of all post Soviet polities that are not in the European Union This book also includes chapters on czarist and Soviet history and on global patterns

The SAGE Handbook of Comparative Politics Todd Landman, Neil Robinson, 2009-06-16 The SAGE Handbook of Comparative Politics presents in one volume an authoritative overview of the theoretical methodological and substantive elements of comparative political science The 28 specially commissioned chapters written by renowned comparative scholars guide the reader through the central issues and debates presenting a state of the art guide to the past present and possible futures of the field

The Rise of the Value-Added Tax Kathryn James, 2015-04-30 This book explores one of the most significant trends in the evolution of global tax systems by asking how within less than half a century the value added tax VAT has risen from relative obscurity to become one of the world's most dominant revenue instruments Despite its

significance very little is known about why so many countries have adopted the VAT and in particular why different countries adopt the types of VAT that they do The popular mythology provides that the merits of the VAT have underpinned its global spread however this book contends that much scholarship confuses the question of why the VAT has risen to dominance with the issue of what makes a good VAT This book combines policy and legal analysis to propose a new way of understanding the rise of this important revenue instrument so as to better reflect the realities of the VATs that are actually implemented

Power and Choice W. Phillips Shively, David Schultz, 2022-04-13 A truly comparative introduction to political science that reflects the diversity of approaches to the discipline Power Choice offers an in depth look into the nuances of politics through the analysis of collective choices for a group or state through the use of power Organized topically and using extended case examples from around the world Power Choice provides undergraduate students with a clear and engaging introduction to political science and comparative politics The 16th Edition has been updated to address the issues raised by the covid 19 pandemic as well as the impact the Trump and Biden presidencies have had so far upon the world and its democracies including challenges in states such as Hungary where illiberal democracy and nationalism are on the rise The authors have also included discussion of the impact of the death of George Floyd upon race relations in America and how issues such as growing inequality are impacting politics This edition adds examination of women s economic development and the rising importance of LGBTQ issues globally

The Relevance of Political Science Gerry Stoker, B. Guy Peters, Jon Pierre, 2015-03-26 What does political science tell us about important real world problems and issues And to what extent does and can political analysis contribute to solutions Debates about the funding impact and relevance of political science in contemporary democracies have made this a vital and hotly contested topic of discussion and in this original text authors from around the world respond to the challenge A robust defence is offered of the achievements of political science research but the book is not overly sanguine given its sustained recognition of the need for improvement in the way that political science is done New insights are provided into the general issues raised by relevance into blockages to relevance and into the contributions that the different subfields of political science can and do make The book concludes with a new manifesto for relevance that seeks to combine a commitment to rigour with a commitment to engagement

The Routledge Handbook of East European Politics Adam Fagan, Petr Kopecký, 2017-08-15 The Routledge Handbook of East European Politics is an authoritative overview that will help a wide readership develop an understanding of the region in all its political economic and social complexity Including Central Europe the Baltic republics South Eastern Europe and the Western Balkans as well as all the countries of the former Soviet Union it is unrivalled in breadth and depth affording a comprehensive overview of Eastern European politics provided by leading experts in the fields of comparative politics international relations and public administration Through a series of cutting edge articles it seeks to explain and understand patterns of Eastern European politics today The Routledge Handbook of East European Politics will be a key reference point both for advanced level

students developing knowledge about the subject researchers producing new material in the area and those interested and working in the fields of East European Politics Russian Politics EU Politics and more broadly in European Politics Comparative Politics Democratization Studies and International Relations *Constructivism and Comparative Politics* Daniel M. Green, 2002-02-27 This work presents an approach to the study of comparative politics that builds on the assumption that political actors and institutions operate within constructed communities of meaning which in turn interface with other such communities *Constructivism and Comparative Politics* Richard T Green, 2016-09-16 This work presents an approach to the study of comparative politics that builds on the assumption that political actors and institutions operate within constructed communities of meaning which in turn interface with other such communities Comparative Politics Bernard Edward Brown, Roy C. Macridis, 1996 Close to half of the readings in this Eighth Edition are new reflecting the dramatic political events of recent years the collapse of the Soviet Union and other communist systems in Europe the struggle of former communist nations to create democratic institutions and a market economy and the explosion of ethnic conflict without neglecting the problems within established democracies and industrialized societies The Structure of Political Competition in Western Europe Zolt Enyedi, Kevin Deegan-Krause, 2013-09-13 Is European party politics hovering above society Why do voters pick one party over others Is it a question of class Of religion Of attitudes about taxes or immigration or global warming Or is it something else entirely The Structure of Political Competition in Western Europe takes a detailed look at the ways in which Western Europe's party systems are anchored in social and ideological structures The book's first section focuses on the role of social structures particularly education class and religion and analyzes the complex interplay among these factors The second section addresses the ways that the sociological structures such as class and religion interact with voters' values The third section examines the way that these structures and values shape the space of political competition among parties The conclusion integrates the findings of the empirical articles putting them into broader comparative perspective discussing whether relatively predictable structures have been overwhelmed by media driven spectacles political personalities and focus on short term economic performance This volume will appeal to scholars and graduate students in Europe and those from North America Asia and other regions who study European politics political parties cleavages and political behaviour This book was published as a special issue of West European Politics
