Tourism and Sustainability Martin Mowforth, Ian Munt, 2015-12-22 By January 2015 the world's richest 80 people had as much wealth as the poorest 50 per cent of the world's population It is a global unevenness through which the barriers to migration of Third World migrants to wealthy First World nations go ever higher while the barriers to travel in the reverse direction are all but extinct So how exactly does tourism contribute to narrowing this glaring inequality between the rich and poor Are ever expanding tourism markets a smoke free socioculturally sensitive form of human industrialisation Is alternative tourism really a credible lever for reducing global inequality and eliminating poverty Tourism and Sustainability critically explores the most significant universal geopolitical norms of the last half century development globalisation and sustainability and through the lens of new forms of tourism demonstrates how we can better get to grips with the rapidly changing new global order The fourth edition has been extensively revised and updated and benefits from the addition of new

material on climate change and tourism Drawing on a range of examples from across the Third World Mowforth and Munt expertly illustrate the social economic and environmental conditions that continue to affect the tourism industry With the first edition hailed by Geoffrey Wall as one of the most significant books produced on tourism since the turn of the millennium Tourism and Sustainability remains the essential resource for students of human geography environmental sciences and studies politics development studies anthropology and business studies as well as tourism itself **Yearbook of Tourism Statistics** ,2017 **International Tourism and Hospitality in the Digital Age** Kumar, Suresh,2015-04-30 Tourism is one of the most rapidly evolving industries of the twenty first century The economy of many countries all over the world depends on their ability to attract visitors and maintain a distinct edge in a highly competitive market International Tourism and Hospitality in the Digital Age brings together the best practices for growth development and strategic management within the tourism and hospitality industries Highlighting comparative research that explores the cross cultural contexts and societal implications of tourism this book is an essential resource for professionals researchers academics and students interested in a contemporary approach to promoting managing and maximizing profitability of leisure and recreation services **Sustainable Tourism: Breakthroughs in Research and Practice** Management Association, Information Resources,2018-12-07 Many countries rely on cultural sites and destinations to support their economies However they are faced with the ongoing challenge of sustaining tourist attractions and maintaining the equilibrium between the local community and tourist populations Sustainable Tourism Breakthroughs in Research and Practice features current research that takes an in depth look at cooperative strategies and governance for conserving and promoting tourism within both developed and developing economies Highlighting a range of topics such as tourism development environmental protection and responsible hospitality this publication is an ideal reference source for entrepreneurs business managers economists business professionals policymakers academicians researchers and graduate level students interested in the latest research on sustainable tourism Tourism in Pacific Islands Stephen Pratt,David Harrison,2015-02-20 Pacific Island Countries have been shown to be especially vulnerable to such external influences as natural disasters political unrest and downturns in the global economy and their tourism industries have been notably affected In particular they typically have a narrow resource base and a fragile and often vulnerable natural environment While there is some research on islands and small states there is a dearth of information on the South Pacific and very little research is being undertaken in the region compared to other geographical regions in the world This volume brings together current work in Pacific Island tourism In this collection three main themes arise Images of the South Pacific Socio economic Impacts of Tourism and Pacific Island Countries and the Outside World The first focus is on the question of image namely stereotypes of a destination held by tourists and potential tourists the extent to which residents for their part really welcome visitors and the role tourism might play in changing pre established images The second theme is tourism s impacts notably the economic and socio cultural

effects of international tourism's intrusion in the region which though often hotly debated have attracted relatively little empirical research. The third focus is on the challenges of how PICs articulate with their external geo-political and physical environment. These involve existing relations with formal colonial centres, geographical isolation, the need for greater air access to the outside world and for more tourists, and the continuing threat to several PICs of global warming which increased air travel will inevitably exacerbate. This text will be of interest to tourism students, researchers and academics in the fields of tourism development studies and cultural studies.

Current Issues in Asian Tourism: Volume II C. Michael Hall, Chris Cooper, 2021-04-05. Current Issues in Asian Tourism Volume II draws together a collection of papers from Current Issues in Asian Tourism. CIAT was launched by the editors of Current Issues in Tourism in response to the growing number of papers about tourism in Asia received by the journal and the increasing number of authors from Asian countries. This volume focuses on three aspects of Asian tourism. Firstly, the section on marketing, consumption and demand for Asian tourism includes papers on mega events, creative experiences, World Heritage Sites and pollution. Secondly, a group of papers focus on sustainable Asian tourism destinations including papers on investment, climate change, energy and local food. Finally, there are two chapters on Asian tourism research methods including the use of photography and qualitative methods. The papers in this book were originally published in Current Issues in Asian Tourism.

21st Century Geography Joseph P. Stoltman, 2012. This is a theoretical and practical guide on how to undertake and navigate advanced research in the arts, humanities and social sciences.

Reinventing the Local in Tourism Antonio Paolo Russo, Greg Richards, 2016-05-03. This book investigates the way localities are shaped and negotiated through tourism and explores the emerging success of local, peer-produced hospitality and tourism services which are transforming the tourist experience. Tourists are now being brought into much closer contact with locals and have new opportunities to experience the community at their destination. This book examines these place experiences and travel sharing arrangements that have now spread globally due to the use of social communication platforms such as Airbnb. It analyses the existence of global communities of place experts that are redefining the organisational structures, value systems, market opportunities, affordabilities and geographies in travel and tourism. This volume brings together the work of established tourism scholars as well as early career researchers and is one of the first books to examine the global-local relationship at tourism destinations and the way that the rapidly developing field of peer-to-peer tourism is transforming tourist destinations.
