Empowering Interactions Wim Blockmans, Daniel Schläppi, 2017-03-02 The emergence of the state in Europe is a topic that has engaged historians since the establishment of the discipline of history Yet the primary focus of has nearly always been to take a top down approach whereby the formation and consolidation of public institutions is viewed as the outcome of activities by princes and other social elites Yet as the essays in this collection show such an approach does not provide a complete picture By investigating the importance of local and individual initiatives that contributed to state building from the late middle ages through to the nineteenth century this volume shows how popular pressure could influence those in power to develop new institutional structures By not privileging the role of warfare and of elite coercion for state building it is possible to question the traditional top down model and explore the degree to which central agencies might have been more important for state representation than for state practice The studies included in this collection treat many parts of Europe and deal with different phases in the period between the late middle ages and the nineteenth century Beginning with a critical review of state historiography the introduction then sets out the concept of empowering interactions which is then explored in the subsequent case studies and a number of historiographical methodological and theoretical essays Taken as a whole this collection provides a fascinating platform to reconsider the relationships between top down and bottom up processes in the history of the European state

Republicanism during the Early Roman Empire

Sam Wilkinson, 2012-01-19 Exploring the political ideology of Republicanism under the Roman emperors of the first century AD Sam Wilkinson puts forward the hypothesis that there was indeed opposition to the political structure and ideology of the rulers on the grounds of Republicanism While some Romans wanted a return to the Republic others wanted the emperor to ensure his reign was as close to Republican moral and political ideology as possible Analysing the discourse of the period the book charts how the view of law morality and behaviour changed under the various Imperial regimes of the first century AD Uniquely this book explores how emperors could choose to set their regime in a more Republican or more Imperial manner thus demonstrating it was possible for both the opposition and an emperor to be Republican The book concludes by providing evidence of Republicanism in the first century AD which not only created opposition to the emperors but also became part of the political debate in this period

A. Judge, 2008 Collection of previously published essays and lectures Murder Was Not a Crime Judy E. Gaughan, 2010 Embarking on a unique study of Roman criminal law Judy Gaughan has developed a novel understanding of the nature of social and political power dynamics in republican government Revealing the significant relationship between political power and attitudes toward homicide in the Roman republic *Murder Was Not a Crime* describes a legal system through which families rather than the government were given the power to mete out punishment for murder With implications that could modify the most fundamental beliefs about the Roman republic Gaughan s research maintains that Roman criminal law did not contain a specific enactment against murder although it had done so prior to the overthrow of the monarchy While kings felt an imperative to hold monopoly over the power to kill Gaughan argues the republic phase ushered in a form of decentralized government that did not see itself as vulnerable to challenge by an act of murder And the power possessed by individual families ensured that the government would not attain the responsibility for punishing homicidal violence Drawing on surviving Roman laws and literary sources *Murder Was Not a Crime* also explores the dictator Sulla s murder law arguing that it lacked any government concept of murder and was instead simply a collection of earlier statutes repressing poisoning arson and the carrying of weapons Reinterpreting a spectrum of scenarios Gaughan makes new distinctions between the paternal head of household and his power over life and death versus the power of consuls and praetors to command and kill *The Failure of Augustus* E.A. Judge, 2019-02-18 Augustus did not mean to become the Founder of the Roman Empire We only say this to make sense of what happened later At the time there were indeed suspicions However Augustus plugged on with his propaganda with a proud and clear aim in mind In the end though his own persistence defeated him In all history we must first find out what was true at the time This book focuses always on the particular words of Augustus and how his mind could be read from them It is not concerned with any contemporary focus of research in Augustan studies but offers rather a sustained argument over the primacy of the original sources in any historical interpretation Behind that lies the question of truth itself in any history **A Smaller Dictionary of Greek and Roman Antiquities abridged from the larger dictionary.
