Consulting Spirit Ian D. Rubenstein, 2011 Follow along as Dr Rubenstein journey s through territory populated by mediums psychics poltergeists and ghost hunters while training as a medium **Consulting Spirit** Ian Rubenstein, 2015-06-01 One morning during a busy clinic my dead grandfather dropped in for a chat This sent me off on a journey a mad dash through territory populated by mediums psychics poltergeists and ghosthunters Along the way I met some fascinating and often strange people Let me take you with me as I travel through the hinterland of what we touchingly call reality I ll introduce you to some of the people and beings I met on my journey You ll get the inside story the nuts and bolts of how someone like me can train to become a medium Dr Ian D Rubenstein is a U K doctor who works in Enfield North London Since training as a medium he has attempted to use the mediumistic skills he has learned in his medical work as a primary care physician *The Mindful Medium: A Practical Guide to Spirituality* Alison Grey, 2024-03-29 Always clear and always good humoured the aspiring practitioner would be hard pushed to find a better guide to this often confusing area Dr Ian Rubenstein GP and author of *Consulting Spirit A doctor s Experience with Practical Mediumship* Everyone has a unique journey a life purpose and an inner light which guides them You simply need to listen *The Mindful Medium* is an inspiring practical guide for awakening Inside these pages Alison Grey applies her knowledge and understanding of the spirit world to help you understand yourself better to change to a more positive mind set and to develop your own healing and intuitive gifts with easy practical step by step exercises and visualisations Detailing the initial signs she received from guides angels and her loved ones Alison acknowledges how these first steps of her own journey led her to where she is today a successful psychic medium healer spiritual teacher and counselor Her teaching weaves a fascinating and accessible alternative way of thinking encouraging mediums to deepen their own intuitive and psychic skills while helping them to find answers to life s important questions **Tell My Mother I'm Not Dead** Trevor Hamilton, 2012-10-08 This book divides into two parts The first is a personal narrative of the impact of the death of the author s son Ralph on him and his family and his efforts to see if there was any evidence for his continued existence generated largely through visits to mediums that a thinking person could take seriously The second is an attempt to evaluate that evidence objectively based on an extensive survey of current and past scientific research in the UK and the USA The title reflects the inevitable tension between emotion and intellect in such an enquiry *Connecting with Coincidence* Bernard Beitman, 2016-03-07 We ve all experienced or heard of surprising events and unexplainable coincidences money that seems to come from nowhere a spontaneous idea that turns into a life changing solution meeting our soulmate on a flight we weren t supposed to take or families being reunited by accident after years of separation Often these coincidences are explained as being controlled by a higher power or pure chance But for the first time since Carl Jung s work comes bold new research that explains scientifically how we can identify understand and perhaps even control the frequency of coincidences in our everyday lives Bernard Beitman a leading expert on Coincidence

Studies proposes a greater personal responsibility which depends partly upon newly discovered grid cells located in the brain near the hippocampus But neuroscience cannot complete the entire puzzle and in this fascinating guide Beitman provides the missing piece From analyzing true stories of synchronicity from around the globe and throughout history he shares key personality characteristics and situational factors that contribute to the occurrence of meaningful coincidences in our lives Where other books on coincidences tend to be theoretical inspirational or story collections only Beitman s book is the first to provide a scientific understanding and practical ways in which readers can use them in their own lives He reveals How to activate your observing self so you don t miss synchronistic moments How serendipity can offer insights into solving problems or making difficult decisions Why stress activates meaningful coincidences Which states of mind impede our ability to experience synchronicity How to interpret the meaning of a coincidence Why being attuned to coincidences is a learned skill and how to hone your sensitivity

Psychoanalysis, Mysticism and the Problem of Epistemology Alice Bar Nes,2021-09-09 This book presents key psychoanalytic theories from a fresh perspective that of the mystical element The author explores the depth structure of central assumptions in psychoanalytic theory to uncover the mystical core of conventional analytic thinking Exploring authors from Freud and Ferenczi through Bion and Winnicott to contemporary

voices such as Ogden Bollas and Eigen the book shows that psychoanalysis has always operated on the assumption of psychic overlap a soul to soul contact between patient and analyst Surprisingly the book shows how this magical facet goes hand in hand with a pragmatic worldview that explores the epistemological complexities of psychoanalysis in search of a way to join the subjective even the mystical with the practical aim of serving as a validated mental health discipline This is accomplished through an interdisciplinary and intertextual encounter between psychoanalysis and the innovative pairing of William James pragmatic philosophy and Martin Buber s dialogic thought The author s paradoxical stance surrounding the nature and role of psychoanalysis and its mystical facet resonate the great challenge embedded in Winnicott s insistence on tolerating paradox and Bion s demand to respect all parts of the psychoanalytic truth in this case the practical and mundane alongside the mystical and magical The book s broad interdisciplinary outlook will captivate both psychoanalysts and psychoanalytic therapists as well as scholars of philosophy Journal of the Michigan State Medical Society ,1916 *The Journal of the Michigan State Medical Society* ,1916 *The Christian Advocate* ,1901 The Congregationalist and Christian World ,1901

Mythology of the Soul (Psychology Revivals) H.G. Baynes,2015-04-10 Originally published in 1940 this classic study of two schizophrenic case histories further opened up the seemingly intractable problem of this condition a task preceded by Jung s own *Psychology of Dementia Praecox* It was Baynes s grasp of the meaning of the symbol coupled with his wide scholarship that enable him to explore the case histories in such remarkable and fruitful depth thus linking pathological psychology through graphic expression and the dream of the myths of mankind and the universal man This was truly a scientific task In case 1 the series of dreams fantasies and active imagination fully illustrated by the patients spontaneous paintings suggested to him a kind of mythological imagery Baynes then demonstrates the emergence and development of a hero myth together with its therapeutic effect upon the patient as an inner personal experience of death and rebirth Baynes also applied the methods of synthesis to the understanding of modern art and its reflection of the spirit of the times a realization of the basic split in the socio religious structure of European Culture In case 2 the subject was an artist and out of his own split he seemed to have created a symbolic bridge that would be a therapeutic bridge for himself and a possible model for curing the evil of the times in which we then were living **The Primitive Mind and Modern Man** John Alan Cohan,2010-12-30 This book is in the field of trans cultural psychology and is intended for college courses in anthropology and psychology and general readership the book focuses on intriguing facts about primitive cultures around the world and provides insights into living traditions and different world views a principal theme of the book is that we can gain a better understanding of ourselves by a detour to other cultures the book shows how modern ways of thinking are parallel to those of primitive cultures and engages readers to become more aware of who they are As shown throughout the book there is not after all a very wide gulf between primitive and modern cultures the book covers many topics including animism shamanism totemism hunting and cultivation rituals altered states of consciousness envy and the evil eye how people deal with conflicts
