Consumer Boycotts Monroe Friedman, 2002-05-03 Despite the increasing occurrence of consumer boycotts little has been written about this form of social and economic protest This timely volume fills the knowledge gap by examining boycotts both historically and currently Drawing on both published and unpublished material as well as personal interviews with boycott groups and their targets Monroe Friedman discusses different types of boycotts from their historical focus on labor and economic concerns to the more recent inclusion of issues such as minority rights animal welfare and environmental protection He also documents the shift in strategic emphasis from the marketplace cutting consumer sales to the media securing news coverage to air criticism of a targeted firm In turn these changes in boycott substance and style offer insights into larger upheavals in the social and economic fabric of 20th century America Consumer Boycotts Monroe Friedman, 2002-05-03 First published in 1999 Routledge is an imprint of Taylor Francis an informa company

A Culture of Engagement Cathleen Kaveny, 2016-03-01 Religious traditions in the United States are characterized by ongoing tension between assimilation to the broader culture as typified by mainline Protestant churches and defiant rejection of cultural incursions as witnessed by more sectarian movements such as Mormonism and Hassidism However legal theorist and Catholic theologian Cathleen Kaveny contends there is a third possibility a culture of engagement that accommodates and respects tradition It also recognizes the need to interact with culture to remain relevant and to offer critiques of social political legal and economic practices Kaveny suggests that rather than avoid the crisscross of the religious and secular spheres of life we should use this conflict as an opportunity to come together and to encounter challenge contribute to and correct one another Focusing on five broad areas of interest Law as a Teacher Religious Liberty and Its Limits Conversations about Culture Conversations about Belief and Cases and Controversies Kaveny demonstrates how thoughtful and purposeful engagement can contribute to rich constructive and difficult discussions between moral and cultural traditions This provocative collection of Kaveny s articles from Commonweal magazine substantially revised and updated from their initial publication provides astonishing insight into a range of hot button issues like abortion assisted suicide government sponsored torture contraception the Ashley Treatment capital punishment and the role of religious faith in a pluralistic society At turns masterful and inspirational A Culture of Engagement is a welcome reminder of what can be gained when a diversity of experiences and beliefs is brought to bear on American public life

Political Virtue and

Shopping M. Micheletti, 2003-09-05 Political consumerism is turning the market into a site for politics and ethics. It is consumer choice of producers and products on the basis of attitudes and values of personal and family well being as well as ethical or political assessment of business and government practice. In the face of economic globalization and a regulatory vacuum, consumers increasingly take responsibility in their own hands, making the market an important venue for political action through their decisions of what to purchase. This book opens the reader's eyes to a new way of viewing everyday consumer choices and the role of the market in our lives, illuminating the broader theoretical and historical context of concerns about sweatshops, responsible coffee and ethical and free trade. Contemporary forms of political consumerism, boycotts, labelling schemes, stewardship certification, socially responsible investing etc. are described and evaluated. Individual actions are shown to be important in the complexity of globalization.

Everything But the Coffee Bryant Simon, 2009 Simon knows more about Starbucks and about why so many Americans find perfection in their lattes than anyone. He connects our deepest desires to be good, smart, ethical consumers with our equally strong yearning to consume in an authentic way. Our coffee, Simon shows, is us.

Sharon Zukin, author of *Naked City*

Forests and Development Philippe Delacote, 2012-04-27 This book is a fully up to date study of the major issues facing forest conservation and the forestry industry, which considers developments at local, national and global levels. Environmental and development topics relating to each level are discussed. For instance, the use of forest products in a rural poverty context, corruption and forest harvesting and consumption as a political device. Delacote employs a quantitative approach in order to analyse the plight of tropical forests in the developing world and in doing so produces a range of interesting conclusions. This methodology fills a crucial research gap in existing studies of forests in a development context. Increased use of theoretical tools to interpret real life situations might be beneficial to the field. Therefore, the first objective of this book is to provide a sample of theoretical analysis concerning the forests and development nexus. The second objective is to supply empirical economists with new theoretical insights with the hope that those results can emerge with conclusive field testing and relevant policy recommendations.

Ethics and Morality in Consumption Deirdre Shaw, Michal Carrington, Andreas Chatzidakis, 2016-04-14 Ethical consumerism is on the rise. No longer bound to the counter-cultural fringes, ethical concerns and practices are reaching into the mainstream of society and being adopted by everyday consumers, from considering carbon miles to purchasing free-range eggs to making renewable energy choices. The wide reach and magnitude of ethical issues in society across individual and collective consumption has given rise to a series of important questions that are inspiring scholars from a range of disciplinary areas. These differing disciplinary lenses, however, tend to be contained in separate streams of research literature that are developing in parallel and in relative isolation. *Ethics in Morality and Consumption* takes an interdisciplinary perspective to provide multiple vantage points in creating a more holistic and integrated view of ethics in consumption. In this sense, interdisciplinary presupposes the consideration of multiple and distinct disciplines, which in this

book are considered in delineated chapters In addition the Editors make an editorial contribution in the final chapter of the book by combining these separate disciplinary perspectives to develop a nascent interdisciplinary perspective that integrates these perspectives and presents platforms for further research

Consumer Politics in Postwar Japan Patricia L.

Maclachlan,2001-12-26 Providing comparisons to the United States and Britain this book examines Japan s postwar consumer protection movement Organized largely by and for housewives and spurred by major cases of price gouging and product contamination the movement led to the passage of basic consumer protection legislation in 1968 Although much of the story concerns the famous iron triangle of big business national bureaucrats and conservative party politics Maclachlan takes a broader perspective She points to the importance of activity at the local level the role of minority parties the limited utility of the courts and the place of lawyers and academics in providing access to power These mild social strategies have resulted in a significant amount of consumer protection
