Morrow, Anthony Weston, 2019-11-18 David Morrow and Anthony Weston build on Weston s acclaimed A Rulebook for Arguments to offer a complete textbook for a course in critical thinking or informal logic Features of the book include Homework exercises adapted from a wide range of actual arguments from newspapers philosophical texts literature movies YouTube videos and other sources Practical advice to help students succeed when applying the Rulebook s rules Suggestions for further practice that outline activities students can do by themselves or with classmates to improve their critical thinking skills Detailed instructions for in class activities and take home assignments designed to engage students in critical thinking An appendix on mapping arguments a topic not included in the Rulebook that introduces students to this vital skill in evaluating or constructing complex and multi step arguments Model responses to odd numbered exercises including commentaries on the strengths and weaknesses of selected model responses as well as further discussion of some of the substantive intellectual philosophical and ethical issues raised

by the exercises The third edition of Workbook contains the entire text of the recent fifth edition of the Rulebook supplementing this core text with extensive further explanations and exercises Updated and improved homework exercises ensure that the examples continue to resonate with today's students Roughly one third of the exercises have been replaced with updated or improved examples A new chapter on engaging constructively in public debates including five new sets of exercises trains students to engage respectfully and constructively on controversial topics an increasingly important skill in our hyper partisan age Three new critical thinking activities offer further opportunities to practice constructive dialogue

**Age of Auto Electric** Matthew N. Eisler, 2022-12-06 The electric vehicle revival reflects negotiations between public policy which promotes clean fuel efficient vehicles and the auto industry which promotes high performance vehicles Electric cars were once as numerous as internal combustion engine cars before all but vanishing from American roads around World War I Now we are in the midst of an electric vehicle revival and the goal for a sustainable car seems to be within reach In Age of Auto Electric Matthew N Eisler shows that the halting development of the electric car in the intervening decades was a consequence of tensions between environmental energy and economic policy imperatives that informed a protracted reappraisal of the automobile system These factors drove the electric vehicle revival argues Eisler hastening automaking's transformation into a science based industry in the process Challenging the common assumption that the electric vehicle revival is due to the development of better batteries Age of Auto Electric instead focuses on changing environmental and socioeconomic conditions energy and environmental policies systems of energy conversion and industrial production and innovation practices that affected the prevalence and popularity of electric vehicles in recent decades Eisler describes a world in transition from legacy to alternative energy conversion systems and the promises compromises new problems and unintended consequences that enterprise has entailed Lemon-Aid New and Used Cars and Trucks 1990-2016 Phil
