Consuming Faith Tom Beaudoin, Fordham University, 2006-12-12 Americans search for identity through a paradoxical pair of passions spirituality and consumerism On the one hand we participate in religion or practice spirituality and on the other hand we are keen consumers But as Tom Beaudoin's *Consuming Faith* makes clear if we truly seek to put our spirituality into practice we must integrate who we are with what we buy How are we linked to the rest of the world through our purchases What does faith have to do with what we buy With a new updated preface by the author this paperback edition invites us to think about how our purchases affect who we are as individuals and as members of a global community

Locklin, 2017-08 *Teaching Civic Engagement* offers a new conceptual model an examination of theoretical questions and concerns and a variety of concrete teaching strategies to assist faculty in engaging questions of civic belonging and social activism in religion classrooms The book explores the civic relevance of the academic study of religion

Religion and Youth Pink Dandelion, 2016-04-08 What is the future of religion given the responses of young people What impact do existing religious forms have on youth What kind of spirituality and religion are young people creating for themselves *Religion and Youth* presents an accessible guide to the key issues in the study of youth and religion including methodological perspectives It provides a key teaching text in these areas for undergraduates and a book of rigorous scholarship for postgraduates academics and practitioners Offering the first comprehensive international perspective on the sociology of youth and religion this book reveals key geographical and organisational variables as well as the complexities of the engagement between youth and religion The book is divided into six parts organised around central themes Generation X and their legacy The Big Picture surveys of belief and practice in the USA UK and Australia Expression how young people construct and live out their religion and spirituality Identity the role of religion in shaping young people's

sense of self and social belonging Transmission passing on the faith or not Researching Youth Religion debates issues and techniques in researching young people s religion and spirituality James A Beckford writes the Foreword and Linda Woodhead the Epilogue *Media, Spiritualities and Social Change* Stewart M. Hoover, Monica Emerich, 2011-01-13 Groundbreaking study into the relationship between forms of spirituality media and its effect on social reform Hope for Common Ground Julie Hanlon Rubio, 2016-05-02 In this learned but accessible work for scholars students religious and lay readers ethicist Julie Hanlon Rubio investigates how Catholics divided by partisan rancor can better solve problems and understand one another Julie Hanlon Rubio persuasively argues that Catholics of differing commitments can carve out space for common action and un **Religion, Media and Culture: A Reader** Gordon Lynch, Jolyon Mitchell, Anna Strhan, 2012-02-13 This Reader brings together a selection of key writings to explore the relationship between religion media and cultures of everyday life It provides an overview of the main debates and developments in this growing field focusing on four major themes Religion spirituality and consumer culture Media and the transformation of religion The sacred senses visual material and audio culture Religion and the ethics of media and culture This collection is an invaluable resource for students academics and researchers wanting a deeper understanding of religion and contemporary culture *Vocation and the Politics of Work* Jeffrey Scholes, 2013-03-08 Since Martin Luther vocations or callings have had a close relationship with daily work It is a give and take relationship in which the meaning of a vocation typically negotiates with the kinds of work available and vice versa at any given time While vocation language still has currency in Western culture today s predominant meaning of vocation has little to do with the actual work performed on a job Jeffrey Scholes contends that recent theological treatments of the Protestant concept of vocation both academic and popular often unwittingly collude with consumer culture to circulate a concept of vocation that is detached from the material conditions of work The result is a consumer friendly vocation that is rendered impotent to inform and if necessary challenge the political norms of the workplace For example he classifies Rick Warren s concept of purpose in his best selling book *The Purpose Driven Life* as a functional equivalent of vocation that acts in this way Other popular uses of vocation along with insights culled from traditional theology and consumer culture studies help Scholes reveal the current state of vocations in the West Using recent scholarship in the field of political theology he argues that resisting commodification is a possibility and a prerequisite for a political vocation if it is at all able to engage the norms that regulate and undermine the pursuit of justice in many modern workplaces **Church, Market, and Media** Marcus Moberg, 2017-07-13 Marcus Moberg offers a new model of religion and religious life in the post war era through focusing on the role of markets and media as vectors of contemporary social and cultural change and therefore institutional religious change While there is wide agreement among sociologists of religion that there this area is transforming on a global scale there is less agreement about how these changes should best be approached and conceptualized In a time of accelerating institutional religious decline institutional Churches have become ever more

susceptible to market associated discourse and language and are ever more compelled to adapt to the demands of the present day media environment Using discourse analysis Marcus Moberg tracks how new media and marketing language and concepts have entered Christian thinking and discourse Church Market and Media develops a framework that approaches changes in the contemporary religious field in direct relation to the changing socioeconomic makeup of contemporary societies on the whole Through focusing on the impact of markets and media within the contemporary religious setting of mainline institutional Christian churches in the Western world the book outlines new avenues for further theorizing the study of religious change

Religions as Brands Jean-Claude Usunier,Jörg Stolz,2016-04-01 During the twentieth century religion has gone on the market place Churches and religious groups are forced to sell god in order to be attractive to religious consumers More and more religions are seen as brands that have to be recognizable to their members and the general public What does this do to religion How do religious groups and believers react What is the consequence for society as a whole This book brings together some of the best international specialists from marketing sociology and economics in order to answer these and similar questions The interdisciplinary book treats new developments in three fields that have hitherto evolved rather independently the commoditization of religion the link between religion and consumer behavior and the economics of religion By combining and cross fertilizing these three fields the book shows just what happens when religions become brands

Selling Spirituality Jeremy R. Carrette,Richard King,2005 Selling Spirituality shows how spirituality today functions as a powerful commodity in the global marketplace promising to soothe away the ills of modern life whilst functioning as a silent form of economic cultural and political restraint

Witness to Dispossession Tom

Beaudoin,2008 Tom Beaudoin s first book Virtual Faith celebrated the spiritual quest of Generation X and established his reputation as one of the most astute critics of contemporary faith and culture In this collection of essays he reflects on the task and purpose of theology in a postmodern age From the enterprise of teaching to a critical engagement with popular culture and an exploration of the meaning of Christian life Beaudoin explores his own vocation and the struggle to keep the faith

Heaven and the Popular Imagination T. M. Allen,2018-11-15 Popular culture continues to search the depths of the poetic imagination concerning heaven It seems to be a constant theme in literature film and music spanning genres throughout the Western world Yet some contemporary scholars suggest that all of these narratives are somewhat misguided and remain at best only partial constructions of a proper eschatology The creative imagination in popular culture especially in relation to the arts has often carried a less than trustworthy role in theology and philosophy Heaven and the Popular Imagination analyzes a number of approaches within the theology of culture conversation to suggest that a hermeneutic of popular imagery can open up new horizons for understanding and challenging the role heaven plays in Christian theology From ancient literature to popular music and films heaven is part of the framework of our ecumenical imagining about beginnings and endings Such a hermeneutic must encompass an interdisciplinary approach to theology

Reasons for

Living Marisa Crawford, Graham Rossiter, 2006-11-01 *Reasons for Living* begins by exploring the development and psychological function of meaning identity and spirituality in the lives of young people This exploration can contribute significantly to the professional background of those engaged in the education and care of youth in various contexts The book then focuses on what it means to educate young people in meaning identity and spirituality Implications are considered for three school contexts the spiritual and moral dimension to the general curriculum in public and independent schools religious education in religious schools and state based Religion Studies courses *Reasons for Living* makes a much needed contribution to the philosophy of education by discussing the links between education and young people s spiritual and moral development It also provides new insights and approaches to values education and religious education Areas of fundamental importance in Australian education have long been held back not only by the gap between theory and practice but also by the very complexities of young people s personal development in contemporary Western Culture *Reasons for Living* offers a constructive and practical way forward

The Marketization of Religion François Gauthier, Tuomas Martikainen, 2020-09-10 *The Marketization of Religion* provides a novel theoretical understanding of the relationship between religion and economy of today s world A major feature of today s capitalism is marketization While the importance that economics and economics related phenomena have acquired in modern societies has increased since the consumer and neoliberal revolutions and their shock waves worldwide social sciences of religion are still lagging behind acknowledging the consequences of these changes and incorporating them in their analysis of contemporary religion Religion as many other social realities has been traditionally understood as being of a completely different nature than the market Like oil and water religion and the market have been mainly cast as indissoluble into one another Even if notions such as the marketization commoditization or branding of religion and images such as the religious and spiritual marketplace have become popular some of the contributions aligned in this volume show how this usage is mostly metaphorical and at the very least problematic What does the marketization of religion mean The chapters provide both theoretical and empirical discussion of the changing dynamics of economy and religion in today s world Through the lenses of marketization the volume discusses the multiple at times surprising connections of a global religious reformation Furthermore in its use of empirical examples it shows how different religions in various social contexts are reformed due to growing importance of a neoliberal and consumerist logic This book was originally published as a special issue of the journal *Religion*

Almost Christian Kenda Creasy Dean, 2010-07-16 Based on the National Study of Youth and Religion the same invaluable data as its predecessor *Soul Searching The Religious and Spiritual Lives of American Teenagers* Kenda Creasy Dean s compelling new book *Almost Christian* investigates why American teenagers are at once so positive about Christianity and at the same time so apathetic about genuine religious practice In *Soul Searching* Christian Smith and Melinda Lundquist Denton found that American teenagers have embraced a Moralistic Therapeutic Deism a hodgepodge of banal self serving feel good beliefs that bears

little resemblance to traditional Christianity But far from faulting teens Dean places the blame for this theological watering down squarely on the churches themselves Instead of proclaiming a God who calls believers to lives of love service and sacrifice churches offer instead a bargain religion easy to use easy to forget offering little and demanding less But what is to be done In order to produce ardent young Christians Dean argues churches must rediscover their sense of mission and model an understanding of being Christian as not something you do for yourself but something that calls you to share God s love in word and deed with others Dean found that the most committed young Christians shared four important traits they could tell a personal and powerful story about God they belonged to a significant faith community they exhibited a sense of vocation and they possessed a profound sense of hope Based on these findings Dean proposes an approach to Christian education that places the idea of mission at its core and offers a wealth of concrete suggestions for inspiring teens to live more authentically engaged Christian lives Persuasively and accessibly written *Almost Christian* is a wake up call no one concerned about the future of Christianity in America can afford to ignore Nourishing the Spirit James D. Whitehead,Evelyn Eaton Whitehead,2012 A seminal exploration of the psychological and spiritual power of our positive emotions This new companion volume to the Whitehead s influential book on our negative emotions completes a work of scholarship that will nourish individuals and inform those who counsel them Children, Consumerism, and the Common Good Mary M. Doyle Roche,2009-09-17 *Children Consumerism and the Common Good* explores the impact of consumer culture on the lives of children in the United States and globally focusing on two phenomena advertising to children and child labor Christian communities have a critical role to play in securing the well being of children and challenging the cultural trends that undermine that well being Themes in the tradition of Catholic social teaching can move us beyond the tensions between children s rights activists and those who propose a return to family values and can inform practices of resistance participation and transformation Roche argues that children are full interdependent members of the communities of which they are a part They have a claim on the fruits of our common life and are called to participate in that life according to their age and ability The principle of the common good forms the benchmark for analyzing children s participation in the market and the ways in which market logic shapes other institutions of civil society particularly educational institutions The Cristo Rey Network of schools is highlighted as an example of institutional transformation which shapes children s participation in education and the economic life of their families and communities in a spirit of solidarity *The Wiley Blackwell Reader in Practical Theology* Bonnie J. Miller-McLemore,2019-07-24 Contains a general introduction to the discipline featuring classic and pioneering essays that address the history methods issues and exemplary illustrations of research teaching and practice Presenting a diverse collection of landmark essays *The Wiley Blackwell Reader in Practical Theology* explores the turn of the century renaissance of practical theology as an academic discipline and shows how the discipline has advanced a steady epistemological insurgency in theology throughout the twentieth and twenty first century The text provides scholars students
