Consuming Russia Popular Culture Sex And Society Since Gorbachev By 1999 07 01:

The Global Encyclopaedia of Informality, Volume 1 Alena Ledeneva, 2018-01-17 Alena Ledeneva invites you on a voyage of discovery to explore society's open secrets, unwritten rules and know-how practices. Broadly defined as ways of getting things done, these invisible yet powerful informal practices tend to escape articulation in official discourse. They include emotion-driven exchanges of gifts or favours and tributes for services; interest-driven know-how from informal welfare to informal employment and entrepreneurship; identity-driven practices of solidarity; and power-driven forms of co-optation and control. The paradox or not of the invisibility of these informal practices is their ubiquity. Expertly practised by insiders but often hidden from outsiders, informal practices are, as this book shows, deeply rooted all over the world yet underestimated in policy. Entries from the five continents presented in this volume are samples of the truly global and ever-growing collection made possible by a remarkable collaboration of over 200 scholars across disciplines and area studies. By mapping the grey zones, blurred boundaries, types of ambivalence and contexts of complexity, this book creates the first Global Map of Informality. The accompanying database is searchable by region, keyword or type of practice, so do explore what works, how, where and why. Praise for *The Global Encyclopaedia of Informality* The *Global Encyclopaedia of Informality* represents the beginning of a new era in informality studies. With its wealth of information, diversity, scope, theoretical innovation and artistic skill, this collection touches on all the aspects of social and cultural complexity that need to be integrated into policy thinking. Predrag Cvetković, Centre for Empirical Cultural Studies of South East Europe, Belgrade, Serbia. This is a monumental achievement, an indispensable reference for anyone in the social sciences interested in informality. Martin Holbraad, Professor of Social Anthropology, UCL and editor in chief of *Social Analysis*. This impressive work helps us understand our complex times by showing how power develops through informal practices, mobilizing emotional, cognitive and relational mechanisms in strategies of survival but also of camouflage and governance. Donatella della Porta, Director of Centre of Social Movements Studies, Scuola normale superiore, Firenze, Italy. An impressive, informative and intriguing collection. With evident passion and patience, the team of 250 researchers insightfully portrays the multiplicity of informal and often invisible expressions of human interdependence. Subi Rangan, Professor of Strategy and Management, INSEAD, Fontainebleau, France. This compendium of terms used in different cultures to express aspects of informal economy provides a unique supplement to studies of a major yet understated by academic economics, social issue. It will be of key significance for in-depth teaching of sociology, economics and history. Teodor Shanin, OBE, Professor and President of the Moscow School of Social and Economic Sciences. Modern states have sought to curb control and subdue informality. The entries in the *Global Encyclopaedia* demonstrate the endurance of informality over such efforts. More recently, the rise and political success of anti-establishment movements in so many parts of the world is a wide-ranging challenge and delegitimisation of national and transnational formal institutions of governance. Understanding the perceived shortcomings of formal institutions and the

appeal of anti establishment movements must at least in part be informed by a study of informality and its networks This Encyclopaedia is essential reading if we wish to understand and engage with these challenges of our age Fredrik Galtung

Mapping Postcommunist Cultures Vitaly Chernetsky, 2007-01-08 In Mapping Postcommunist Cultures Chernetsky argues that Russia and Ukraine exemplify the principal paradigms of post Soviet cultural development In Russia this has manifested itself in the subversive dismantling of the totalitarian linguistic regime and the foregrounding of previously marginalized subject positions In Ukraine work in these areas shows how the traumas of centuries of colonial oppression are being overcome through the carnivalesque decrowning of ideological dogmas and an affirmation of a new type of community most recently demonstrated in the peaceful Orange Revolution of 2004 Mapping Postcommunist Cultures also critiques the neglect of the former communist world in current models of cultural globalization **Fragmented Identities** Denise

Roman, 2007-01-01 Combining sharp observation a native s ease in the city and talent as a storyteller Denise Roman spiritedly presents the myriad details and the diverging cultural strands of life in postcommunist Bucharest Roman focuses on identity formation and identity politics among youth Jews women and queers **Tales from Albarado** Smoki

Musaraj, 2020-08-15 Tales from Albarado revisits times of excitement and loss in early 1990s Albania in which about a dozen pyramid firms collapsed and caused the country to fall into anarchy and a near civil war To gain a better understanding of how people from all walks of life came to invest in these financial schemes and how these schemes became intertwined with everyday transactions dreams and aspirations Smoki Musaraj looks at the materiality sociality and temporality of financial speculations at the margins of global capital She argues that the speculative financial practices of the schemes were enabled by official financial infrastructures such as the postsocialist free market reforms by unofficial economies such as transnational remittances as well as by historically specific forms of entrepreneurship transnational social networks and desires for a European modernity Overall these granular stories of participation in the Albanian schemes help understand neoliberal capitalism as a heterogeneous economic formation that intertwines capitalist and noncapitalist forms of accumulation and investment *Revolution, democratic transition and disillusionment* Anca Pusca, 2018-04-30 This book

develops a fresh and challenging perspective on the transition from communism to capitalism Drawing on a wide and diverse range of material and texts it argues that transition and democratisation studies should turn their attention towards processes of illusion formation and disillusionment as key to understanding the shift from one ideological framework to another The author provides alternative approaches to otherwise classical sites of examination of social change such as revolutions and the emergence of civil society and proposes a number of new possible sites by analysing the politics of self reflection the element of shock inherent in any transition and the role of visual narratives in negotiating change The chapters

are inspired by unique interviews and discussions with the leaders of the Timisoara Revolution the Group of Social Dialogue the first civil society organisation in post communist Romania the leading author of the Presidential Report Analysing the Communist Dictatorship in Romania and an innovative group of photographers tracing the Romanian transition through images *Authoritarian Laughter* Neringa Klumbytė, 2022-12-15 Winner of the 2024 BASEES British Association for Slavonic and East European Studies Women's Forum *Authoritarian Laughter* explores the political history of the satire and humor magazine *Broom* published in Soviet Lithuania Artists writers and journalists were required to create state sponsored Soviet humor and serve the Communist Party after Lithuania was incorporated into the Soviet Union in 1940 Neringa Klumbytė investigates official attempts to shape citizens into Soviet subjects and engage them through a culture of popular humor *Broom* was multidirectional it both facilitated Communist Party agendas and expressed opposition toward the Soviet regime Official satire and humor in Soviet Lithuania increasingly created dystopian visions of Soviet modernity and were a forum for critical ideas and nationalist sentiments that were mobilized in anti Soviet revolutionary laughter in the late 1980s and early 1990s *Authoritarian Laughter* illustrates that Soviet Western peripheries were unstable and their governance was limited While authoritarian states engage in a statecraft of the everyday and seek to engineer intimate lives authoritarianism is defied not only in revolutions but in the many stories people tell each other about themselves in jokes cartoons and satires

Conversion After Socialism Mathijs Pelkmans, 2009-11-01 The large and sudden influx of missionaries into the former Soviet Union after seventy years of militant secularism has been controversial and the widespread occurrence of conversion has led to anxiety about social and national disintegration Although these concerns have been vigorously discussed in national arenas social scientists have remained remarkably silent about the subject This volume's focus on conversion offers a novel approach to the dislocations of the postsocialist experience In eight well researched ethnographic accounts the authors analyze a range of missionary encounters as well as aspects of conversion and anti conversion in different parts of the region thus challenging the problematic idea that religious life after socialism involved a simple revival of repressed religious traditions Instead they unravel the unexpected twists and turns of religious dynamics and the processes that have challenged popular ideas about religion and culture The contributions show how conversion is rooted in the disruptive qualities of the new capitalist experience and document its unsettling effects on the individual and social level **Sweet Burdens** Sveta Roberman, 2015-04-15 *Sweet Burdens* presents a detailed ethnographic study of the lives of Russian Jewish immigrants in Germany over the past twenty years Focusing on the first generation of adult immigrants Sveta Roberman examines how they question and negotiate their moral economy and civic culture vis vis the host German state and society on the one hand and the Holocaust past on the other She approaches the immigrant host encounter as one of many cycles of social exchanges taking place in multiple and diverse arenas The book sheds light on a number of issues including the moral economy of Jewish German relations immigrants performances of civics and citizenship modes of inclusion and exclusion

consumption and consumerism work and the phenomena of unemployment and underemployment the concept of community and the dynamics and difficulties of reinventing Jewish identity and tradition Fast Money Schemes John Cox,2018-10-02 In the late 1990s and early 2000s a wave of Ponzi schemes swept through Papua New Guinea Australia and the Solomon Islands The most notorious scheme U Vistract attracted many thousands of investors enticing them with promises of 100 percent interest to be paid monthly Its founder Noah Musingku was a charismatic leader who promoted the scheme as a form of Christian mission and as the basis for establishing an independent kingdom Fast Money Schemes uses in depth interviews with investors newspaper accounts and participant observation to understand the scheme s appeal from the point of view of those who invested and lost showing that organizers and investors alike understood the scheme as a way of accessing and participating in a global economy John Cox delivers a post village ethnography that gives insight into the lives of urban middle class Papua New Guineans a group that is not familiar to US readers and that has seldom been a focus of anthropological interest The book s concern with understanding the interweaving of morality finance and aspirations shared by a global cosmopolitan middle class has wide resonance beyond studies of Papua New Guinea and anthropology
