Conklin,2001-07-15 Mourning the death of loved ones and recovering from their loss are universal human experiences yet the grieving process is as different between cultures as it is among individuals As late as the 1960s the Wari Indians of the western Amazonian rainforest ate the roasted

flesh of their dead as an expression of compassion for the deceased and for his or her close relatives By removing and transforming the corpse which embodied ties between the living and the dead and was a focus of grief for the family of the deceased Wari death rites helped the bereaved kin accept their loss and go on with their lives Drawing on the recollections of Wari elders who participated in consuming the dead this book presents one of the richest most authoritative ethnographic accounts of funerary cannibalism ever recorded Beth Conklin explores Wari conceptions of person body and spirit as well as indigenous understandings of memory and emotion to explain why the Wari felt that corpses must be destroyed and why they preferred cannibalism over cremation Her findings challenge many commonly held beliefs about cannibalism and show why in Wari terms it was considered the most honorable and compassionate way of treating the dead Eating Fandom
