Surveys In Social Research David De Vaus, David de Vaus, 2013-12-17 David de Vaus classic text *Surveys in Social Research* provides clear advice on how to plan conduct and analyse social surveys It emphasises the links between theory and research the logic and interpretation of statistics and the practices of social research This sixth edition has been completely revised and updated and contains new examples data and extensive lists of web resources As well as explaining how to conduct good surveys de Vaus shows how to become a critical consumer of research He argues that the logic of surveys and statistics is simply an extension of the logic we use in everyday life analysis however requires creativity and imagination rather than the application of sterile mechanical procedures The prime goal of research should be to gain

accurate understanding and as a researcher use methods and techniques which enhance understanding De Vaus advocates researchers use the method rather than letting the method use you Surveys in Social Research is essential reading for students and researchers working with surveys It assumes no background in statistical analysis and gives you the tools you need to come to grips with this often challenging field of work *The International Social Survey Programme 1984-2009* Max Haller, Roger Jowell, Tom W Smith, 2009-09-11 The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research

Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlowe 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p

Critical theory and social pathology Neal Harris, 2022-11-29 In the neoliberal world of the twenty first century the progressive academy urgently needs a vehicle for normative social research Critical theory once answered this call but today its programme is in crisis The pathologies of recognition approach popular among contemporary critical theorists aids neoliberalism rather than

challenging it in part because it is unable to grasp the structural nature of power To offer an alternative this book returns to the work of Erich Fromm and Herbert Marcuse using it as the basis for a revived social theoretical foundation As the first generation of critical theorists knew thought itself can be reified our imaginations debased and our desires artificially induced We need to think beyond recognition and embrace a more potent and aggressive form of social critique true to the founding spirit of the Frankfurt School *Critical Theories in International Relations* Tayyar Ari, 2023-04-04 This edited book focuses primarily on contemporary debates and the critical and postmodern theories to be considered a significant contribution to the field This book shows that critical international relations theories which are incomprehensible and challenging are easy and understandable The book analyzes the Frankfurt School constructivism post colonialism feminism critical geopolitics political economy Copenhagen School Aberystwyth School Paris School and Ontological security Critical Theories in International Relations argues that neither identity nor security can be considered a fixed and objective issue can change according to time and space and depend on historical and sociological factors Nothing is given for critical approaches and they are produced and reproduced in ever changing conditions that lead to new truths and meanings These are the results of reflexive and non linear interactions In this context it is made pedagogically understandable to the readers within this framework **Theory and Methods in Social Research** Bridget Somekh, Cathy Lewin, 2011-01-28 Previous ed Research methods in the social sciences 2005
