were if anything the better for it The art of the embroideress was judged rather by the cunning of her fingers than her eye and anything supremely difficult of execution could be sure of praise regardless of its meaning or use Hence the increasingly debased repetition of traditional patterns by means of transfers patterns not designs It is not possible to get full satisfaction from work limited to the reproduction of worn out ideas Everyone is an artist to a greater or less degree and it is the aim of this book to help its readers to discover their own powers The dozens of examples from all over the world which it contains are the work of artists with the needle but their artistry is of a kind within the reach of all intelligent people There are hundreds of ideas here waiting for you to develop them into designs of your own as attractive as useful and as modern as these The Editor desires to express his acknowledgments to the designers and embroiderers who have permitted their works to be reproduced in this book and for their assistance in compiling the descriptions and in many cases preparing explanatory diagrams About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
