Contemporary Feminist Theory And Activism Six Global Issues Critical Issues In Philosophy:

Contemporary Feminist Theory and Activism Wendy Lynne Lee, 2009-12-30 In this book Wendy Lynne Lee sets out to demonstrate how feminist theorizing is relevant to issues that may seem less directly about the status and emancipation of women but that are vital she argues to forming connections with other important twenty first century movements Lee shows how a feminist approach to crafting these connections can shed light on the economic disparity and entrenched gender inequality of global markets the role technology plays in our conception of reproductive rights sexual identity and gender the rise of religious fanaticism and the relationship between our conceptions of gender nonhuman animals and the environment Timely politically passionate and forcefully argued Contemporary Feminist Theory and Activism will reinvigorate feminist thought for the twenty first century

Eco-Nihilism Wendy Lynne Lee, 2017-02-22 If we were to ask what is the root cause of our current and unprecedented environmental crisis climate change many particularly on the progressive Left would refer to the excesses of capitalism and they d be right In *Eco Nihilism The Philosophical Geopolitics of the Climate Change Apocalypse* Wendy Lynne Lee demonstrates that there are no versions of conquest capital compatible with the fact of a finite planet and that a logic whose operating premise is growth is destined to not only exhaust our planetary resources but also generate profound social injustice and geopolitical violence in its pursuit Nonetheless it is clear that the violence and injustice of capital is selective some benefit greatly while others are subjugated to its pathological drive to profit Hence Lee argues that any comprehensive analysis of what Jason Moore has dubbed the Capitalocene must include an equally probing account of human chauvinism that is the axes along which capital is supplied with resources and labor Defined in terms of race sex gender and species these axes come ready made to the advantage of capitalist commodification Without an understanding of how and why humanity will remain doomed to settling for a sustainably unjust world as opposed to realizing a just and desirable one Indeed on our current trajectory we may not even achieve the sustainable The introduction of climate change into the mix of environmental deterioration the ever widening economic gap between global North and global South and the accelerating violence of terrorism civil war and human slavery make of a warming planet a combustible world The only way out requires ending the myth of endless

resources a rejection of climate change denial and a radical re valuation of human centeredness not as a locus of power but as an opportunity to take moral and epistemic responsibility for a world whose biotic diversity and ecological integrity make the struggle to realize it worthwhile This solution demands not only an end to capitalism but the deliberate reclamation of value aesthetic moral and civic and a radical transformation of both personal and collective conscience Lee appeals to the experiential aesthetics of John Dewey and the feminist concept of the standpoint of the subjugated She argues for a version of the precautionary principle informed by an environmentally and socially responsible concept of the desirable future as the clearest path away from the precipice Heidegger, Reproductive Technology, & The Motherless Age Dana S.

Belu,2017-03-18 Dana S Belu combines Heidegger's phenomenology of technology with feminist phenomenology in order to make sense of the increased technicization of women's reproductive bodies during conception pregnancy and birth

when and why austerity capitalism and strands of feminism became intertwined and why girl focused programs have been at the heart of international policymaking Girl focused education programs have long been at the heart of international policymaking when girls access to education is ensured the reasoning goes they are more likely to turn into productive adults who can drive economic growth These ideas combine strands of feminism and capitalism that have a specific and understudied origin In this book historian Sarah Bellows Blakely shows how a doctored study of girls education in East and Southern Africa led to the creation of international norms in the United Nations that would go on to guide policymaking on women s rights and economic growth promoting neoliberal feminist policy at the expense of other forms of gender based justice Focusing on the growth of free market feminism and girl focused economic development planning through the relationship between UNICEF and the Nairobi based NGO FEMNET Bellows Blakely reveals how their joint efforts set the blueprints for linked movements of economic development and women s rights that are still ongoing Through a narrative of the UNICEF FEMNET lobbying campaign Bellows Blakely shows how multiple contested girl focused visions of economic programming and gender justice became selectively erased in favor of an approach to global policy centered on the free market construction and strategic deployment of the African girl child
