New Mexico and the Pimería Alta John G. Douglass, William Graves, 2017-03-01 Focusing on the two major areas of the Southwest that witnessed the most intensive and sustained colonial encounters New Mexico and the Pimería Alta compares how different forms of colonialism and indigenous political economies resulted in diverse outcomes for colonists and Native peoples Taking a holistic approach and studying both colonist and indigenous perspectives through archaeological ethnohistoric historic and landscape data contributors examine how the processes of colonialism played out in the American Southwest Although these broad areas New Mexico and southern Arizona northern Sonora share a similar early colonial history the particular combination of players sociohistorical trajectories and social relations within each area led to and were transformed by markedly diverse colonial encounters Understanding these different mixes of players history and social relations provides the foundation for conceptualizing the enormous changes wrought by colonialism throughout the region The presentations of different cultural trajectories also offer important avenues for future thought and discussion on the strategies for missionization and colonialism The case studies tackle how cultures evolved in the light of radical transformations in cultural traits or traditions and how different groups reconciled to this change A much needed up to date examination of the colonial era in the Southwest New Mexico and the Pimería Alta demonstrates the intertwined relationships between cultural continuity and transformation during a time of immense change and highlights contemporary

Rock Art Studies: News of the World V Paul Bahn, Natalie Franklin, Matthias Strecker, 2016-05-31 This is the fifth volume in the series Rock Art Studies News of the World Like the previous editions it covers rock art research and management across the globe over a five year period in this case the years 2010 to 2014 inclusive *Violence and Warfare among Hunter-Gatherers* Mark W Allen, Terry L Jones, 2016-07-01 How did warfare originate Was it human genetics Social competition The rise of complexity Intensive study of the long term hunter gatherer past brings us closer to an answer The original chapters in this volume examine cultural areas on five continents where there is archaeological ethnographic and historical evidence for hunter gatherer conflict despite high degrees of mobility small populations and relatively egalitarian social structures Their controversial conclusions will elicit interest among anthropologists archaeologists and those in conflict studies **California Mission Landscapes** Elizabeth Kryder-Reid, 2016-11-30 Nothing defines California and our nation's heritage as significantly or emotionally says the California Mission Foundation as do the twenty one missions that were founded along the coast from San Diego to Sonoma Indeed the missions collectively represent the state's most iconic tourist destinations and are touchstones for interpreting its history Elementary school students today still make model missions evoking the romanticized versions of the 1930s Does it occur to them or to the tourists that the missions have a dark history California Mission Landscapes is an unprecedented and fascinating history of California mission landscapes from colonial outposts to their reinvention as heritage sites through the late nineteenth and twentieth centuries Illuminating the deeply political nature of this transformation Elizabeth Kryder Reid argues that the designed landscapes have long recast the missions from sites of colonial oppression to aestheticized and nostalgia drenched monasteries She investigates how such landscapes have been appropriated in social and political power struggles particularly in the perpetuation of social inequalities across boundaries of gender race class ethnicity and religion California Mission Landscapes demonstrates how the gardens planted in mission courtyards over the past 150 years are not merely anachronistic but have become potent ideological spaces The transformation of these sites of conquest into physical and metaphoric gardens has reinforced the marginalization of indigenous agency and diminished the contemporary consequences of colonialism And yet importantly this book also points to the potential to create very different visitor experiences than these landscapes currently do Despite the wealth of scholarship on California history until now no book has explored the mission landscapes as an avenue into understanding the politics of the past tracing the continuum between the Spanish colonial period emerging American nationalism and the contemporary heritage industry **Fisher-Hunter-Gatherer Complexity in North America** Christina

Perry Sampson, 2023-04-18 Demonstrating the wide variation among complex hunter gatherer communities in coastal settings This book explores the forms and trajectories of social complexity among fisher hunter gatherers who lived in coastal estuarine and riverine settings in precolumbian North America Through case studies from several different regions and intellectual traditions the contributors to this volume collectively demonstrate remarkable variation in the circumstances and histories of complex hunter gatherers in maritime environments The volume draws on archaeological research from the North Pacific and Alaska the Pacific Northwest coast and interior the California Channel Islands and the southeastern U S and Florida Contributors trace complex social configurations through monumentality ceremonialism territoriality community organization and trade and exchange They show that while factors such as boat travel patterns of marine and riverine resource availability and sedentism and village formation are common unifying threads across the continent these factors manifest in historically contingent ways in different contexts Fisher Hunter Gatherer Complexity in North America offers specific substantive examples of change and transformation in these communities emphasizing the wide range of complexity among them It considers the use of the term complex hunter gatherer and what these case studies show about the value and limitations of the concept adding nuance to an ongoing conversation in the field Contributors J Matthew Compton C Trevor Duke Mikael Fauvelle Caroline Funk Colin Grier Ashley Hampton Bobbi Hornbeck Christopher S Jazwa Tristram R Kidder Isabelle H Lulewicz Jennifer E Perry Christina Perry Sampson Thomas J Pluckhahn Anna Marie Prentiss Scott D Sunell Ariel Taivalkoski Victor D Thompson Alexandra Williams Larson A volume in the series Society and Ecology in Island and Coastal Archaeology edited by Victor D Thompson and Scott M Fitzpatrick **Anthropology Across Borders and Limits** Roman Ignatiev, Vladislav Fediushin, 2024-01-23 This volume presents a collection of papers on New World anthropology and history from physical anthropology to historical memory to women s history The papers were presented at the 3rd 4th and 5th Russian American Research Nexus RARN Forums and offer a unique perspective on the New World from a variety of Russian and American scholars This book will be of interest to students and scholars of anthropology and history of the New World It is also an essential resource for anyone interested in the latest research on this important topic Narratives of Persistence Lee Panich, 2021-04-13 Narratives of Persistence charts the remarkable persistence of California s Ohlone and Paipai people over the past five centuries Lee M Panich draws connections between the events and processes of the deeper past and the way the Ohlone and Paipai today understand their own histories and identities *Oceania, 800-1800CE* James L. Flexner, 2021-12-23 Over a span of 1000 years beginning around 800CE the people of the Pacific Islands undertook a remarkable period of voyaging political evolution and cross cultural interactions Polynesian navigators encountered previously uninhabited lands as well as already inhabited islands and the coast of the Americas Island societies saw epic sagas of political competition and intrigue documented through oral traditions and the monuments and artefacts recovered through archaeology European entry into the region added a new episode of interaction with strange people from over the

The Routledge Handbook of the Bioarchaeology of Climate and Environmental Change Gwen Robbins Schug, 2020-10-27 This handbook examines human responses to climatic and environmental changes in the past and their impacts on disease patterns nutritional status migration and interpersonal violence Bioarchaeology the study of archaeological human skeletons provides direct evidence of the human experience of past climate and environmental changes and serves as an important complement to paleoclimate historical and archaeological approaches to changes we may expect with global warming Comprising 27 chapters from experts across a broad range of time periods and geographical regions this book addresses hypotheses about how climate and environmental changes impact human health and well being factors that promote resilience and circumstances that make migration or interpersonal violence a more likely outcome The volume highlights the potential relevance of bioarchaeological analysis to contemporary challenges by organizing the chapters into a framework outlined by the United Nations Sustainable Development Goals for 2030 Planning for a warmer world requires knowledge about humans as biological organisms with a deep connection to Earth's ecosystems balanced by an appreciation of how historical and socio cultural circumstances socioeconomic inequality degrees of urbanization community mobility and social institutions play a role in shaping long term outcomes for human communities Containing a wealth of nuanced perspectives about human environmental relations book is key reading for students of environmental archaeology bioarchaeology and the history of disease By providing a longer view of contemporary challenges it may also interest readers in public health public policy and planning

Pasadena Before the Roses Yvette J. Saavedra, 2018-10-09 Incorporated in 1886 by midwestern settlers known as the Indiana Colony the City of Pasadena has grown into a world famous tourist destination recognized for the beauty of its Tournament of Roses Parade the excitement of the annual Rose Bowl and the charm of the Old Town District But what existed before the roses Before it was Pasadena this land was Hahamog na the ancestral lands of the Tongva people Later it comprised the heart of the San Gabriel Mission lands and in the Mexican period it became Rancho San Pascual The 1771 Spanish conquest of this land set in motion several colonial processes that would continue into the twentieth century and beyond In *Pasadena Before the Roses* historian Yvette J Saavedra examines a period of 120 years to illustrate the interconnectedness of power ideas of land use and the negotiation of identity within multiple colonial moments By centering the San Gabriel Mission lands as the region's economic social and cultural foundation she shows how Indigenous Spanish Mexican and American groups each have redefined the meanings of land use to build their homes and their lives These visions have resulted in competing colonialisms that framed the racial ethnic gender and class hierarchies of their respective societies

Human Behavioral Ecology and Coastal Environments Heather B. Thakar, Carola Flores Fernandez, 2023-02-14 Examples of a research approach that sheds light on coastal societies in the past In this volume contributors apply human behavioral ecology theoretical models to coastal environments around

the globe and to the use of coastal resources by past human societies Evidence demonstrates that coastlines and islands are dynamic environments that were important in early human migrations and this volume shows how researchers can gain insights about human behavior in these settings through its critical regional reviews and detailed local case studies The volume begins by introducing the importance of theory in the reconstruction of human behavior and provides examples of traditional foraging models Contributors then offer perspectives from North Central and South America the Caribbean Europe Africa Australia and Polynesia They discuss unique challenges faced by coastal societies including extreme seasonality patchy resource distribution natural hazards balancing coastal and terrestrial resource needs aquatic technological innovation and multiscale environmental change Human Behavioral Ecology and Coastal Environments demonstrates that exploring decision making and cultural behaviors is key to understanding how humans have lived in and related to these environments Through its application of human behavioral ecology models this volume sheds light on the evolving adaptations of societies in a variety of coastal contexts through time and across space A volume in the series Society and Ecology in Island and Coastal Archaeology edited by Victor D Thompson and Scott M Fitzpatrick

Waste Brian Thill, 2015-09-24 Object Lessons is a series of short beautifully designed books about the hidden lives of ordinary things Though we try to imagine otherwise waste is every object plus time Whatever else an object is it is also waste or was or will be All that is needed is time or a change of sentiment or circumstance Waste is not merely the field of discarded objects but the name we give to our troubled relationship with the decaying world outside ourselves Waste focuses on those waste objects that most fundamentally shape our lives and also attempts to understand our complicated emotional and intellectual relationships to our own refuse nuclear waste climate debris pop culture rubbish digital detritus and more Object Lessons is published in partnership with an essay series in The Atlantic

An American Genocide Benjamin Madley, 2016-05-24 Between 1846 and 1873 California's Indian population plunged from perhaps 150 000 to 30 000 Benjamin Madley is the first historian to uncover the full extent of the slaughter the involvement of state and federal officials the taxpayer dollars that supported the violence indigenous resistance who did the killing and why the killings ended This deeply researched book is a comprehensive and chilling history of an American genocide Madley describes pre contact California and precursors to the genocide before explaining how the Gold Rush stirred vigilante violence against California Indians He narrates the rise of a state sanctioned killing machine and the broad societal judicial and political support for genocide Many participated vigilantes volunteer state militiamen U S Army soldiers U S congressmen California governors and others The state and federal governments spent at least 1 700 000 on campaigns against California Indians Besides evaluating government officials culpability Madley considers why the slaughter constituted genocide and how other possible genocides within and beyond the Americas might be investigated using the methods presented in this groundbreaking book

A Prehistory of Western North America David Leedom Shaul, 2014-06-30 This book offers a new approach to the use of linguistic data to

reconstruct prehistory The author shows how a well studied language family in this case Uto Aztecan can be used as an instrument for reconstructing prehistory The main focus of Shaul s work is the mapping of Uto Aztecan By presenting various models of Uto Aztecan prehistory by assessing multiple models simultaneously and by guiding readers through areas where the evidence is not so clear Shaul helps nonspecialists develop the tools needed for evaluating various historical linguistics models themselves He evaluates both archaeological and genetic evidence as well placing it carefully alongside the linguistic evidence he knows best Shaul s thorough treatment provides many new avenues for future research on the historical anthropology of western North America

The Human Swarm Mark W. Moffett,2019-04-16 The epic story and ultimate big history of how human society evolved from intimate chimp communities into the sprawling civilizations of a world dominating species If a chimpanzee ventures into the territory of a different group it will almost certainly be killed But a New Yorker can fly to Los Angeles or Borneo with very little fear Psychologists have done little to explain this for years they have held that our biology puts a hard upper limit about 150 people on the size of our social groups But human societies are in fact vastly larger How do we manage by and large to get along with each other In this paradigm shattering book biologist Mark W Moffett draws on findings in psychology sociology and anthropology to explain the social adaptations that bind societies He explores how the tension between identity and anonymity defines how societies develop function and fail Surpassing Guns Germs and Steel and Sapiens The Human Swarm reveals how mankind created sprawling civilizations of unrivaled complexity and what it will take to sustain them

Global Perspectives on Long Term Community Resource Management Ludomir R. Lozny,Thomas H. McGovern,2019-06-21 Communal level resource management successes and failures comprise complex interactions that involve local regional and increasingly global scale political economic and environmental changes shown to have recurring patterns and trajectories The human past provides examples of long term millennial and century scale successes followed by undesired transitions collapse and rapid failure of collaborative management cooperation on the decadal scale Management of scarce resources and common properties presents a critical challenge for planners attempting to avoid the tragedy of the commons in this century Here anthropologists human ecologists archaeologists and environmental scientists discuss strategies for social well being in the context of diminishing resources and increasing competition The contributors in this volume revisit tragedy of the commons also referred to as drama or comedy of the commons and examine new data and theories to mitigate pressures and devise models for sustainable communal welfare and development They present twelve archaeological historic and ethnographic cases of user managed resources to demonstrate that very basic community level participatory governance can be a successful strategy to manage short term risk and benefits The book connects past present future by presenting geographically and chronologically spaced out examples of communal level governance strategies and overviews of the current cutting edge research The lesson we learn from studying past responses to various ecological stresses is that we must not wait for a disaster to happen to react

but must react to mitigate conditions for emerging disasters **Forensic Psychology** David A. Crighton, Graham J. Towl, 2021-05-04 FORENSIC PSYCHOLOGY Explore the theory research and practice of forensic psychology with this collection of resources from recognized leaders in the field The newly revised Third Edition of Forensic Psychology delivers insightful coverage of the theory and applications of forensic psychology The book combines authoritative scholarship with an unprecedented breadth of international coverage and constitutes an essential resource for all aspects of contemporary forensic and criminal psychology The new edition addresses issues of equality diversity and inclusion in each section as well as the uses and abuses of power in forensic contexts The book takes a constructively critical approach to the dominant theories policy and practices of today as opposed to being merely descriptive and considers new and developing areas like the prevention of sexual violence at universities Forensic Psychology comprehensively addresses the application of modern forensic techniques and practices to the civil and criminal justice systems in the United Kingdom Each chapter concludes with some specific suggestions for further reading Additionally readers will enjoy the inclusion of a wide variety of topics like A thorough discussion of investigative and clinical practice including the politics of forensic psychology offender profiling eyewitness testimony and jury decision making An examination of clinical and risk assessments including reviews of the key legal issues and principles involved in risk assessments the role of structured instruments and protocols and coverage of actuarial and structured clinical methods Discussions of working with criminalized populations in prisons and forensic mental health facilities A treatment of psychology in the courts with an emphasis on the courts of England and Wales Perfect for graduate level students in forensic psychology courses Forensic Psychology will also earn a place in the libraries of qualified forensic psychologist practitioners and postgraduate students seeking to improve their understanding of forensic psychology with a high quality international textbook underpinned by considerations of human rights and ethical standards

Archaeologies of Indigenous Presence Tsim D. Schneider, Lee M. Panich, 2023-03-07 Highlighting collaborative archaeological research that centers the enduring histories of Native peoples in North America Challenging narratives of Indigenous cultural loss and disappearance that are still prevalent in the archaeological study of colonization this book highlights collaborative research and efforts to center the enduring histories of Native peoples in North America through case studies from several regions across the continent The contributors to this volume including Indigenous scholars and Tribal resource managers examine different ways that archaeologists can center long term Indigenous presence in the practices of fieldwork laboratory analysis scholarly communication and public interpretation These conversations range from ways to reframe colonial encounters in light of Indigenous persistence to the practicalities of identifying poorly documented sites dating to the late nineteenth century In recognizing Indigenous presence in the centuries after 1492 this volume counters continued patterns of unknowing in archaeology and offers new perspectives on decolonizing the field These essays show how this approach can help expose silenced histories modeling research practices that acknowledge Tribes as living
