infrastructure they are great places where people want to live China's recently inaugurated leaders have proposed a new model to actively and prudently enhance the quality of urbanization through compact intelligent and low carbon development It symbolizes the departure from land centered urban development to a form of people oriented urbanization as China's Premier Li Keqiang has advocated This new model offers a platform for planning researchers and practitioners to tackle urbanization challenges such as social equity environment energy ecological and historic preservation affordable housing and externalities of mega cities Furthermore people oriented urbanization calls for public participation and stakeholder engagement in the planning process This book brings together planners designers scholars scientists and government officials from China and all over the world to exchange ideas on urban regeneration Mixed-Income Housing Development Planning Strategies and Frameworks in the Global South George Okechukwu Onatu, Wellington Didibhuku Thwala, Clinton Ohis Aigbavboa, 2023-12-14 Functioning as a toolkit for inclusive urban planning this book acts as both a model for understanding the planning and management of this framework and a foundation for future research **Proceedings of the 8th International Conference on Construction, Architecture and Technosphere Safety** Andrey A. Radionov, Dmitrii V. Ulrikh, Vadim R. Gasiyarov, 2024-12-31 This book highlights recent findings in civil and environmental engineering and urban planning and provides an overview of the state of the art in these fields mainly in Russia and Eastern Europe A broad range of topics and issues in modern engineering are discussed including construction buildings and structures advanced materials innovative technology methods and techniques in civil engineering heating gas supply water supply and sewerage foundation engineering BIM structural reliability durability and monitoring special and unique structures construction bridge tunnel road railway engineering design and construction of hydraulic structures concrete engineering urban regeneration and sustainable development urban transport system engineering structure safety and disaster prevention water resources engineering water and wastewater treatment recycling and reuse of wastewater etc The volume gathers selected papers from the 8th International Conference on Construction Architecture and Technosphere Safety ICCATS held in Sochi Russia in September 2024 The authors are experts in various fields of engineering and all papers have been carefully reviewed **Urban Planning in a Changing World** Robert Freestone, 2000 Urban planning in today's world is inextricably linked to the processes of mass urbanization and modernization which have transformed our lives over the last hundred years Written by leading experts and commentators from around the world this collection of original essays will form an unprecedented critical survey of the state of urban planning at the end of the millennium DIY Urbanism in Africa Stephen Marr, Patience Mususa, 2023-11-02 Protracted economic crises accelerating inequalities and increased resource scarcity present significant challenges for the majority of Africa's urban population Limited state capacity and widespread infrastructure deficiencies common in cities across the continent often require residents to draw on their own resources knowledge and expertise to resolve these life and livelihood dilemmas DIY Urbanism in Africa investigates

these practices It develops a theoretical framework through which to analyze them and it presents a series of case studies to demonstrate how residents invent new DIY tactics and strategies in response to security place making or economic problems This book offers a timely critical intervention into literatures on urban development and politics in Africa It is valuable to students policymakers and urban practitioners keen to understand the mechanisms and political implications of widespread dynamics now shaping Africa s expanding urban environments

Sustainable Development and Planning III A. Kungolos,C. A. Brebbia,Élias Beriatos,2007 In recent years in many countries there has been an increase in spatial problems that has led to planning crisis Planning problems often connected with uneven development deterioration of the quality of urban life and destruction of the environment The increase urbanisation of the world coupled with global issues of the environmental pollution resource shortage and economic restructuring demand that we make our cities places worth living in Problems of environmental management and planning are not restricted to urban areas Environments such as rural areas forests coastal regions and mountains face their own problems that require urgent solutions in order to avoid irreversible damages The use of modern technologies in planning gives us new potential to monitor and prevent environmental degradation Effective strategies for management should consider planning and regional development two closely related disciplines and emphasise the demand to handle these matters in an integrated way Containing papers presented at the Third International Conference on Sustainable Development and Planning this book addresses the subjects of regional development in an integrated way as well as in accordance with the principles of sustainability Notable topics include Regional Planning City Planning Rural Development Environmental Impact Assessment Environmental Management Environmental Legislation and Policy Integrated Territorial and Environmental Risk Analysis Ecosystems Analysis Protection and Remediation Social and Cultural Issues Environmental Economics Geo Informatics Urban Landscapes Transportation Waste Management and Resources Management

Transforming Asian Cities Nihal Perera,Wing-shing Tang,2013 While there is no lack of studies on Asian cities the majority focus on financial districts poverty the slum tradition tourism and pollution and use the modern affluent and transforming Western city as the reference point This vast Asian empirical presence is not complemented by a theoretical presence academic discourses overlook common and basic urban processes particularly the production of space place and identity by ordinary citizens Switching the vantage point to Asian cities and citizens Transforming Asian Cities draws attention to how Asians produce their contemporary urban practices identities and spaces as part of resisting responding to and avoiding larger global and national processes Instead of viewing Asian cities in opposition to the Western city and using it as the norm this book instead opts to provincialize mainstream and traditional knowledge It argues that the vast terrain of ordinary actors and spaces which are currently left out should be reflected in academic debates and policy decisions and the local thinking processes that constitute these spaces need to be acknowledged enabled and critiqued The individual chapters illustrate that global spaces are more trans local traditional environments are more modern and Asian

spaces are better defined than acknowledged The aim is to develop room for understandings of Asian cities from Asian standpoints especially acknowledging how Asians observe interpret understand and create space in their cities

Contemporary Urban Landscapes of the Middle East Mohammad Gharipour,2016-03-17 The Middle East is well known for its historic gardens that have developed over more than two millenniums The role of urban landscape projects in Middle Eastern cities has grown in prominence with a gradual shift in emphasis from gardens for the private sphere to an increasingly public function The contemporary landscape projects either designed as public plazas or public parks have played a significant role in transferring the modern Middle Eastern cities to a new era and also in transforming to a newly shaped social culture in

which the public has a voice This book considers what ties these projects to their historical context and what regional and local elements and concepts have been used in their design **The Sustainable City VIII (2 Volume Set)** S.S. Zubir,C.A. Brebbia,2013-12-03 With majority of the Earth s people now urban dwellers and cities being the most efficient habitat for the utilisation of resources it is imperative that we continue to support standards of living and efficiencies of urban areas However the urbanisation process has not been without its problems While much has been done to address the original issues surrounding the quality of urban life new challenges continue to arise It is no longer sustainable to achieve improvements by means that require greater and greater energy consumption as we did in the past Despite their complexity however cities are a great laboratory for architects engineers and other key professionals to apply new ideas and new technology to meet our requirements for more sustainable city environments Containing papers presented at the latest in a series of conferences organised by the Wessex Institute of Technology these proceedings split in to two volumes address not just environmental architectural and engineering concerns but also quality of life security risk and heritage The diversity of topics and the case studies based on existing projects make the book an important contribution to the literature on urban planning Proceedings of the 8th International Conference on Economic Management and Green Development Xiaolong Li,Chunhui Yuan,Lukáš Vartiak,2025-04-03 This book covers a diverse range of topics situated at the intersecting fields of economic management public administration and green development Economics has always been a heated research topic and green development is rising and integrating with various fields for interdisciplinary studies Initiated in 2017 the International Conference on Economic Management and Green Development ICEMGD is an annual conference aiming at bringing together researchers from the fields of economics business management public administration and green development for the sharing of research methods and theoretical breakthroughs The 8th ICEMGD was held on September 26 2024 It cooperates with Comenius University in Bratislava University of Murcia Edinburgh Napier University Beijing Union University and China Agricultural University to hold workshops worldwide The proceedings consist of papers accepted by ICEMGD 2024 which are carefully selected and reviewed by professional reviewers from corresponding research fields and the editing committee of the conference ICEMGD is working to provide a platform for international participants from fields like macro and microeconomics international economics finance agricultural economics health economics business management and marketing strategies regional development studies social governance and sustainable development This proceedings book together with the conference looks forward to sparking inspiration and promoting collaborations This book is of interest to researchers academics professionals and policy makers in the field of economic management public administration and development studies *The Planning Imagination* Mark Tewdwr-Jones,Nicholas Phelps,Robert Freestone,2013-10-01 Knighted in 1998 for services to the Town and Country Planning Association and in 2003 named by Her Majesty Queen Elizabeth II as a Pioneer in the Life of the Nation Peter Hall is internationally renowned for the breadth

and depth of his studies and writings on urban and regional planning For the last 50 years he has captured and helped to create the planning imagination Here the editors have brought together in five themes a series of critical reflections on Peter's vast and diverse contributions Those reflections are provided by colleagues familiar with his work The five parts are devoted to Peter Hall's breadth of academic work covering the history of cities and planning London spatial planning connectivity and mobility and urban globalization Finally as a sixth part the editors have asked Peter Hall himself to reflect on his career and the sources of his imagination The story this book tells is not one of a singular totally consistent theoretical and philosophical view elaborated over several decades Rather it covers a set of views that necessarily admits signs of Peter's inconsistency and imperfection over the years the insights and imperfections that inevitably accompany the exercise of a nonetheless remarkably fertile restless and inspiring planning imagination

Construction Matters Stefan Holzer, Silke Langenberg, Clemens Knobling, Orkun Kasap, 2025-03-04 Construction History Construction Heritage Recent Construction Historiography Industrialization Engineering Sciences Building Materials Building Actors Construction History is still a fairly new and small but quickly evolving field The current trends in Construction History are well reflected in the papers of the present conference Construction History has strong roots in the historiography of the 19th century and the evolution of industrialization but the focus of our research field has meanwhile shifted notably to include more recent and also more distant histories as well This is reflected in these conference proceedings where 65 out of 148 contributed papers deal with the built heritage or building actors of the 20th or 21st century The conference also mirrors the wide spectrum of documentary and analytical approaches comprised within the discipline of Construction History Papers dealing with the technical and functional analysis of specific buildings or building types are complemented by other studies focusing on the lives and formation of building actors from laborers to architects and engineers from economical aspects to social and political implications on legal aspects and the strong ties between the history of construction and the history of engineering sciences The conference integrates perfectly into the daily work at the Institute for Preservation and Construction History at ETH Zurich Its two chairs the Chair for Building Archaeology and Construction History and the Chair for Construction Heritage and Preservation endeavor to cover the entire field and to bridge the gaps between the different approaches methodologies and disciplines between various centuries as well as technologies learning together and from each other The proceedings of 8ICCH give a representative picture of the state of the art in the field and will serve as a reference point for future studies
