**Hannah Arendt and Cosmopolitanism** Angela Taraborrelli, 2024-09-05 Hannah Arendt and Cosmopolitanism presents the first comprehensive study of Hannah Arendt s cosmopolitanism Challenging the common belief that cosmopolitanism is a negligible or incompatible element of Arendt s thought it unpacks various key elements of her philosophy such as her critique of human rights the defence of the right to have rights as a right to belong to a particular political community the scepticism towards the establishment of a world government as a solution to the problem of statelessness and the importance she attached to the passport Through this the text argues that Arendt is a theorist of cosmopolitanism in her own right by reconstructing as systematically as possible an issue that is relatively neglected in the secondary literature Taraborrelli shows how Arendt anticipates and develops cosmopolitanism in four main forms moral political institutional judicial cultural and how in her thought there is no insuperable contradiction between cosmopolitanism and belonging to a political community or between cosmopolitanism and the conditions of political action

**Philosophical Health** Luis de Miranda, 2023-12-28 Bringing together leading international and interdisciplinary scholars this ground breaking volume examines the theory and practice of philosophical health in contemporary contexts of care broadly understood care for the self care for the other and care for the world But what do we mean by philosophical health Whilst this book does not seek to provide a normative definition as it explores disparate perspectives and encourages pluralism in philosophical ways of life one may envision philosophical health as a state of creative coherence between a person's or a group's way of thinking and their way of acting such that the possibilities for a good life are increased and the needs for flourishing satisfied An idea central to philosophical health is the concept of possibility Without a sense of self possibility and openness to the future health loses meaning and conversely pathologies are defined by various kinds of impossibilities As such philosophical health reconsiders care as a process of cultivating or pruning the compossible in embodied psychological and social terms of allowing things to re generate or in some cases to vanish Drawing on the history of philosophy phenomenology new materialism post colonialism

but also a wide range of contemporary approaches to philosophical practice Philosophical Health sheds light on the understudied philosophical dimension of care and the healing dimension of philosophizing Advocating philosophy as a lived practice it uncovers the increasing relevance of philosophical health to contemporary debates on well being well belonging counselling and development

**The Vedantic Relationality of Rabindranath Tagore** Ankur Barua, 2018-10-25 This book is a thematic study of the poet thinker Rabindranath Tagore's conceptual project of harmonizing the one and its many Tagore's writings in Bengali and in English on religious and social themes are held together by the leitmotif of a harmony which operates across several existential religious and social polarities the finite and the infinite the temporal and the eternal and the individual and the universal Tagore creatively appropriated materials from diverse sources such as the classical Hindu Vedantic systems the folk piety of Bengal and others to configure a dialectic which shapes his writings on both religious and social themes On the one hand each individual is irreducibly distinct from everyone else and on the other hand each individual gains their spiritual depth precisely by being placed within the dynamic matrices of an interrelated whole Thus we find Tagore rejecting certain monastic forms of Hindu world renunciation and also certain ecstatic dimensions of devotional worship the former because they efface individuality and the latter because they can generate self absorbed styles of living Again Tagore is as sharply opposed to Bengali imitateness of English modes of being in the world as he is to Bengali forms of insularity the former because it dilutes the concrete richness of indigenous lifeforms and the latter because it confines individuals to parochial enclosures Tagore's life long endeavor was to configure a third way by rejecting both the blank homogeneity of an undifferentiated one and the particularistic insularities of a multitude without a deeper center of coherence

***Secular Cosmopolitanism, Hospitality, and Religious Pluralism*** Andrew Fiala, 2016-10-04 This book explores the idea of religious pluralism while defending the norms of secular cosmopolitanism which include liberty tolerance civility and hospitality The secular cosmopolitan ideal requires us to be more tolerant and more hospitable toward religious believers and non believers from diverse traditions in our religiously pluralistic world Some have argued that the world's religions can be united around a common core This book argues that it is both impossible and inadvisable either to reduce religion to one thing or to deny religion Instead the book affirms non reductive pluralism and seeks to understand how we should live in a pluralistic world Building on work in the sociology of religion and philosophy of religion the book examines the growth of religious diversity and the spread of nonreligion in the contemporary world It argues that religious toleration hospitality and compassion must be extended in a global direction Secular cosmopolitanism recognizes that each person has a right to his or her deepest beliefs and that the diversity of the world's religious and non religious traditions cannot be reduced or eliminated

**Contestatory Cosmopolitanism** Tom Bailey, 2018-10-11 Contemporary global politics poses urgent challenges from humanitarian migratory and environmental problems to economic religious and military conflicts that strain not only existing political systems and resources but also the frameworks and concepts of political thinking The standard

cosmopolitan response is to invoke a sense of global community governed by such principles as human rights or humanitarianism free or fair trade global equality multiculturalism or extra national democracy Yet the contours grounds and implications of such a global community remain notoriously controversial and it risks abstracting precisely from the particular and conflictual character of the challenges which global politics poses The contributions to this collection undertake to develop a more fruitful cosmopolitan response to global political challenges one that roots cosmopolitanism in the particularity and conflict of global politics itself They argue that this contestatory cosmopolitanism must be dialectical agonistic and democratic that is its concepts and principles must be developed immanently and critically out of prevailing normative resources they must reflect and acknowledge their antagonistic roots and they must be the result of participatory and self determining publics In elaborating this alternative the contributions also return to neglected cosmopolitan theorists like Hegel Adorno Arendt Camus Derrida and Mouffe and reconsider mainstream figures such as Kant and Habermas This collection was originally published as a special edition of *Critical Horizons*

**A Global Perspective on Friendship and Happiness** Tim Madigan, 2019-02-15 In *A Global Perspective on Friendship and Happiness* editors Tim Delaney and Tim Madigan have organized a collection of original articles on the subjects of friendship and happiness Each of these chapters offers a unique perspective and serves as worthy contributions to the field of friendship and happiness studies The chapters found in this publication are the result of the Happiness Friendship conference held June 12 14 2017 at Mount Mellera Abbey Waterford Ireland The contributing authors come from many diverse countries and academic disciplines thus enhancing this outstanding volume

*Cosmopolitanism and Its Discontents* Lee Ward, 2020-06-23 Cosmopolitanism is one of the most venerable intellectual traditions in the history of political philosophy From the ancient Greek Diogenes claim to be a citizen of the world through to Kant's Enlightenment vision of a world government and even into our own time the idea of cosmopolitanism has stirred the moral imagination of many throughout history Arguably the Brexit referendum result and the election of Donald Trump in 2016 marked the first major public repudiation of the transnational globalizing cosmopolitan ideals that have arguably dominated politics in the liberal democratic West since the end of the Cold War This volume reconsiders cosmopolitanism and its discontents in the age of Brexit and Trump by bringing together the great thinkers in the history of political philosophy and contemporary reflections on the problems and possibilities of international relations human rights multiculturalism and regnant theories of democracy and the state

*Equality Renewed* Christine Sypnowich, 2016-12-19 How should we approach the daunting task of renewing the ideal of equality In this book Christine Sypnowich proposes a theory of equality centred on human flourishing or wellbeing She argues that egalitarianism should be understood as seeking to make people more equal in the constituents of a good life Inequality is a social ill because of the damage it does to human flourishing unequal distribution of wealth can have the effect that some people are poorly housed badly nourished ill educated unhappy or uncultured among other things When we seek to make people more equal our

concern is not just resources or property but how people fare under one distribution or another Ultimately the best answer to the question equality of what is some conception of flourishing since whatever policies or principles we adopt it is flourishing that we hope will be more equal as a result of our endeavours Synowich calls for both retrieval and innovation What is to be retrieved is the ideal of equality itself which is often assumed as a background condition of theories of justice yet at the same time dismissed as too homogenising abstract and rigid a criterion for political argument We must retrieve the ideal of equality as a central political principle In doing so she casts doubt on the value of focussing on cultural difference and rejects the idea of neutrality that dominates contemporary political philosophy in favour of a view of the state as enabling the betterment of its citizens

**Cosmopolitanism** Stan van Hooft, 2009-01-01

**Cosmopolitanism in Conflict** Dina

Gusejnova, 2017-10-14 This book is the first study to engage with the relationship between cosmopolitan political thought and the history of global conflicts Accompanied by visual material ranging from critical battle painting to the photographic representation of ruins it showcases established as well as emerging interdisciplinary scholarship in global political thought and cultural history Touching on the progressive globalization of conflicts between the eighteenth and the twentieth century including the War of the Spanish Succession the Seven Years War the Napoleonic wars the two World Wars as well as seemingly internal civil wars in eastern Europe's imperial frontiers it shows how these conflicts produced new zones of cultural contact The authors build on a rich foundation of unpublished sources drawn from public institutions as well as private archives allowing them to shed new light on the British Russian German Ottoman American and transnational history of international thought and political engagement

**The Ethics of Governance** Shashi Motilal, Keya Maitra, Prakriti

Prajapati, 2021-09-07 The Ethics of Governance Moral Limits of Policy Decisions offers a toolbox drawn from normative ethics which finds applications in public governance primarily focusing on policy making and executive action It includes ethical concepts and principles culled from different philosophical traditions ranging from more familiar Western theories to non Western ethical perspectives thereby providing a truly global decolonized and expanded normative lens on issues of governance The book takes a unique and original approach it demonstrates the use of the ethical toolbox in the context of actual examples of governance challenges Taking three major case studies each representing an aspect of human human and or human nature and or human animal relationship the book attempts to show the significance of public practical reasoning in policy decisions with the aim of arriving at reasonable responses Acknowledging the challenges that policy makers often face the book highlights the fact that policy making is hardly an exercise yielding a black or white solution rather it involves finding the most reasonable normative outcome course of action in a given situation especially employing an expanded understanding of values including well being sustainability interdependence and community This effort that helps bridge the gap between ethical theorists and policy practitioners exemplifies the necessary role of engaged philosophy in public governance In the major case studies Boxes offer facts and figures along with pertinent ethical questions that have been

raised and discussed Aiming to aid the engagement of a diverse audience including non philosophy readers each chapter also includes Boxes containing examples shorter case studies at a glance charts and tables with comprehensive ethical tools for a quick recap
