Weinstock, 1998-03-29 This volume is both a lively introduction and practical guide to the main concepts and problems of intercultural communication Viewed from within the framework of interactive sociolinguistics associated with Tannen Gumperz and others this volume focuses in particular on the discourse of Westerners and of Asians the discourse of men and women corporate discourse and the discourse of professional organizations and inter generational discourse *Introduction to Contemporary Political Theory* Colin Farrelly, 2003-12-03 This text provides an up to date account of how things currently stand in political

philosophy and will provide an excellent introduction for students from any background. It gives a lucid and careful account of the central controversies and sites of disagreement in political theory over the last thirty years and rather than sacrifice theoretical sophistication and nuance for the sake of clarity and accessibility it admirably achieves both. Catriona McKinnon, University of York. This comprehensive textbook provides a complete and accessible introduction to the main theorists and issues in contemporary political theory today. The text is organized into two major parts. The first, Contemporary Liberal Theory, outlines four distinct liberal theories of justice to introduce the work of Rawls, Nozick, Gauthier, and Dworkin. The second, Alternative Traditions, introduces the theorists and themes associated with four key areas of contemporary debate: communitarianism, multiculturalism, deliberative democracy, and feminism. By giving students questions for consideration and using applied examples throughout the text, it illustrates the practical relevance of contemporary theoretical debates to everyday issues in policy and politics. The result is an essential overview of all the main traditions, issues, and positions in political theory today that will serve as an invaluable resource for all students of contemporary political theory, political ideas, and political philosophy. Colin Farrelly is Assistant Professor in the Department of Political Science at the University of Waterloo, Canada. Introduction to Contemporary Political Theory will complement Contemporary Political Theory: A Reader, edited by Colin Farrelly and also published by SAGE Publications.

Pluralism, Contemporary Political Philosophy Daniel M. Weinstock, 2014-08-30. Many philosophers and psychologists argue that normal adult human beings possess a primitive or folk psychological theory. Recently, however, this theory has come under challenge from the simulation alternative. This alternative view says that human beings are able to predict and explain each other's actions by using the resources of their own minds to simulate the psychological etiology of the actions of others. The 13 essays in this volume present the foundations of the theory of mind debate and are accompanied by an introduction.

Social and Political Philosophy John Philip Christman, 2002. This accessible and user-friendly text offers a broad survey of some of the fundamental philosophical questions concerning social and political relations in modern society.

Judging Justice Philip Pettit, 1980-01-01. *Social and Political Philosophy* John Christman, 2017-10-02. This accessible book is invaluable to anyone coming to social and political philosophy for the first time. The relation between such social questions and specifically political topics is discussed. These topics include political authority, economic justice, the limits of tolerance, considerations of community, race, gender, and culture in questions of justice, and radical critiques of current political theories. Updates to the Second Edition emphasize the non-statist areas of the subject and include two brand new chapters on social philosophy and transnational justice.
