Marxism to reaffirm its relevance It explores the contradictions within capitalism as well as explains why Marxism has been unable to mount a sustained challenge to capitalism In order to explore concrete alternatives in a period of increasing capitalist globalisation and crisis it goes on to present perspectives by which theory and practice might be reunited to building independent political and organisational structures A search for something better this volume will be an engaging read for scholars and researchers of politics especially political theory and political economy economics and sociology

Ethnic Politics, Regime Support and Conflict in Central and Eastern Europe Julian Bernauer, 2015-08-10 Ethnicity and ethnic parties have often been portrayed as a threat to political stability This book challenges the notion that the organization of politics in heterogeneous societies should overcome ethnicity Rather descriptive representation of ethnic groups has potential to increase regime support and reduce conflict

**China's Embedded Activism** Peter Ho, Richard Edmonds, 2007-10-19 In recent years China has been remarkable in achieving extraordinary economic transformation yet without fundamental political change To many observers this would seem to imply a weakness in Chinese civil society However though the idea of democracy as multitudes of citizens taking to the streets may be attractive it is simultaneously misleading as it disregards the nature of political change taking place in China today a gradual shift towards a polity adapted to a pluralist society At the same time one may wonder what the limited political space implies for the development of a social movement in China This book explores this question by focusing on one of the most active areas of Chinese civil society the environment China's Embedded Activism argues that China's semi authoritarian limitations on the freedom of association and speech coupled with increased social spaces for civic action has created a milieu in which activism occurs in an embedded fashion The semi authoritarian atmosphere is restrictive of but paradoxically also conducive to nationwide collective action with less risk of social instability and repression at the hand of the governing elite Rich in case studies about environmental civic organizations in China and written by a team of international experts on social movements NGOs democratization and civil society this book addresses a wide readership of students scholars and professionals interested in development geography and environment political

Peck, 2007 Publisher Description      **Indigenous Peoples and the Modern State** Duane Champagne, Karen Jo Torjesen, Susan Steiner, 2005-06-09 Champagne and his distinguished coauthors reveal how the structure of a multinational state has the potential to create more equal and just national communities for Native peoples around the globe Many countries still face extreme differences among ethnic groups and submerged nations leading to marginalization and violence Examining these inherent instabilities in multicultural nations such as the U S Canada Mexico and Guatemala the authors confront problems of coerced assimilation for indigenous communities whose identities predate the formation of the nation states often by thousands of years The contributors show how indigenous people seek to preserve their territory their rights to self government and their culture This book is a valuable resource for Native American Canadian and Latin American studies comparative indigenous governments constitutional law and international relations      *The Shape of Populism* Marko Grdešić, 2019-08-05 The Shape of Populism examines socialist Serbia then part of Yugoslavia which in the late 1980s witnessed popular mobilization and an emergence of a populist discourse that both constructed and celebrated the people Author Marko Grde i uses quantitative and qualitative analyses to show how the people emerge in the public sphere This book examines over 300 protests and analyzes them in conjunction with elite events such as party sessions It examines over 1 600 letters to the editor and political cartoons to reveal the populist construction of the people Grde i also relies on interviews with participants in populist rallies in the late 1980s to examine the long term legacies of populism

**Grounding Leadership Ethics in African Diaspora and Election Rights** Jean-Pierre Bongila, 2013-10-10 This book analyzes the leadership ethics dilemma of whether the diaspora ought to vote specifically in their homeland franchise This quagmire becomes even more complex in the case of Africa where some diasporas participate in their countries elections and others don t It implies and goes beyond the mere question of why or what are the reasons behind the fact that members of some countries vote and those of other nations do not The analysis contained in the book deals with whether it is right or wrong good or bad just or unjust virtuous or immoral desirable or undesirable for citizens living overseas to participate in their countries suffrages and for the leaders of African countries to extend the franchise rights to their diaspora Pedagogically the book proposes an applied methodology of leadership decision making based on ethical dilemmas which instructors and learners of various disciplines particularly those in leadership ethics as well as global leaders might find useful The combined DIRR Description Interpretation Rehearsal and Re discernment proposed by Enomoto Kramer 2007 and the prudent pragmatism by Bluhm Heineman 2007 correspond to the traditional African baobab tree as a physical space of social and political conflict resolutions In this book the baobab tree an ethical arena of public debates helps to weigh primarily the need for diaspora Africans to get the right to vote as well as the social political and economic benefits such a right if it were granted would entail for all the parties involved Drawing from the examples of countries that have

championed some form of democratic processes including expatriate elections the book brings to the forefront the crucial role of both the leadership of Africa and that of their diaspora in spearheading the continent on the path of sustainable development
