Seeking Rights from the Left Elisabeth Jay Friedman, 2018-12-31 *Seeking Rights from the Left* offers a unique comparative assessment of left leaning Latin American governments by examining their engagement with feminist women's and LGBT movements and issues Focusing on the Pink Tide in eight national cases Argentina Bolivia Brazil Chile Ecuador Nicaragua Uruguay and Venezuela the contributors evaluate how the Left addressed gender and sexuality based rights through the state Most of these governments improved the basic conditions of poor women and their families Many significantly advanced women's representation in national legislatures Some legalized same sex relationships and enabled their citizens to claim their own gender identity They also opened opportunities for feminist and LGBT movements to press forward their demands But at the same time these governments have largely relied on heteropatriarchal relations of power ignoring or rejecting the more challenging elements of a social agenda and engaging in strategic trade offs among gender and sexual rights Moreover the comparative examination of such rights arenas reveals that the Left's more general political and economic projects have been profoundly if at times unintentionally informed by traditional understandings of gender and sexuality Contributors Sonia E Alvarez Mar a Constanza Diaz Rachel Elfenbein Elisabeth Jay Friedman Niki Johnson Victoria Keller Edurne Larracochea Bohigas Amy Lind Marlise Matos Shawwna Mullenax Ana Laura Rodriguez Gust Diego Sempol Constanza Tabbush Gwynn Thomas Catalina Trebisacce Annie Wilkinson

Gender and Representation in Latin America Leslie A. Schwindt-Bayer, 2018 In the past thirty years women's representation and gender equality has developed unevenly in Latin America Some countries have experienced large increases in gender equality in political offices whereas others have not and even within countries some political arenas have become more gender equal whereas others continue to exude intense gender inequality These patterns are inconsistent with explanations of social and cultural improvements in gender equality leading to improved gender equality in political office *Gender and Representation in Latin America* argues instead that gender inequality in political representation in Latin America is rooted in institutions and the democratic challenges and political crises facing Latin American countries and that these challenges matter for the number of women and men elected to office what they do once there how much power they gain access to and how their presence and actions influence democracy and society more broadly The book draws upon the expertise of top scholars of women gender and political institutions in Latin America to analyze the institutional and contextual causes and consequences of women's representation in Latin America It does this in part 1 with chapters that analyze gender and political representation regionwide in each of five different arenas of representation the presidency cabinets national legislatures political parties and subnational governments In part 2 it provides chapters that analyze gender and representation in each of seven different countries Argentina Chile Costa Rica Uruguay Mexico Brazil and Colombia The authors bring novel insights and impressive new data to their analyses helping to make this one of the most comprehensive books on gender and political representation in Latin America today

and its entrenched networks of power Mobilizing communities against the ubiquitous cantinas gambling halls and brothels grassroots organizers exposed the regime's complicity in promoting social ills disorder and quotidian violence while helping to construct radical new visions of moral uplift and social renewal Sierakowski similarly recasts our understanding of the Nicaraguan National Guard grounding his study of the Somozas army in the social and cultural world of the ordinary soldiers who enlisted and fought in defense of the dictatorship Sierakowski unearths long buried stories of military repression and violence including widespread civilian massacres that pushed thousands of previously unaligned Nicaraguans into the ranks of the guerrilla insurgency by the late 1970s

Families in War and Peace Sarah C. Chambers, 2015-05-29 In *Families in War and Peace* Sarah C. Chambers places gender analysis and family politics at the center of Chile's struggle for independence and its subsequent state building Linking the experiences of both prominent and more humble families to Chile's political and legal history Chambers argues that matters such as marriage custody bloodlines and inheritance were crucial to Chile's transition from colony to nation She shows how men and women extended their familial roles to mobilize kin networks for political ends both during and after the Chilean revolution From the conflict's end in 1823 until the 1850s the state adopted the rhetoric of paternal responsibility along with patriarchal authority which became central to the state building process Chilean authorities Chambers argues garnered legitimacy by enacting or enforcing paternalist laws on property restitution military pensions and family maintenance allowances all of which provided for diverse groups of Chileans By acting as the fathers of the nation they aimed to reconcile the greater Chilean family and form a stable government and society

For a Proper Home Edward Murphy, 2015-01-15 From 1967 to 1973 a period that culminated in the socialist project of Salvador Allende nearly 400 000 low income Chileans illegally seized parcels of land on the outskirts of Santiago Remarkably today almost all of these individuals live in homes with property titles As Edward Murphy shows this transformation came at a steep price through an often violent political and social struggle that continues to this day In analyzing the causes and consequences of this struggle Murphy reveals a crucial connection between homeownership and understandings of proper behavior and governance This link between property and propriety has been at the root of a powerful contested urban politics central to both social activism and urban development projects Through projects of reform revolution and reaction a right to housing and homeownership has been a significant symbol of governmental benevolence and poverty reduction Under Pinochet's neoliberalism subsidized housing and slum eradication programs displaced many squatters while awarding them homes of their own This process in addition to ongoing forms of activism has permitted the vast majority of squatters to live in homes with property titles a momentous change of the past half century This triumph is tempered by the fact that today the urban

poor struggle with high levels of unemployment and underemployment significant debt and a profoundly segregated and hostile urban landscape They also find it more difficult to mobilize than in the past and as homeowners they can no longer rally around the cause of housing rights Citing cultural theorists from Marx to Foucault Murphy directly links the importance of home ownership and property rights among Santiago's urban poor to definitions of Chilean citizenship and propriety He explores how the deeply embedded liberal belief system of individual property ownership has shaped political social and physical landscapes in the city His approach sheds light on the role that social movements and the gendered contours of home life have played in the making of citizenship It also illuminates processes through which squatters have received legally sanctioned homes of their own a phenomenon of critical importance in cities throughout much of Latin America and the Global South
