new texts for baptism as well as drawing on other liturgical traditions this book fills the gap with a concise yet comprehensive treatment that takes full account of the latest needs and developments

More Than Communion Scott MacDougall, 2015-05-21 The dominant contemporary model for ecclesiology theological views of the church itself is the ecclesiology of communion MacDougall argues that communion ecclesiologies are often marked by a problematic theological imagination of the future eschatology He argues further that as a result our ways of practising and being the church are not as robust as they might otherwise be Re imagining the church in the light of God's promised future then becomes a critical conceptual and practical task MacDougall presents a detailed exploration of what communion ecclesiologies are and some of the problems they raise He offers two case studies of such theologies by examining how distinguished theologians John Zizioulas and John Milbank understand the church and the future how these combine in their work and the conceptual and practical implications of their perspectives He then offers an alternative theological view and demonstrates the effects that such a shift would have In doing so MacDougall offers a proposal for recovering the more to communion and to ecclesiology to help us imagine a church that is not beyond the world as in Zizioulas or over against the world as in Milbank but in and for the world in love and service This concept is worked out in conversation with systematic theologians such as Jürgen Moltmann Wolfhart Pannenberg and Johannes Baptist Metz and by engaging with a theology of Christian practices currently being developed by practical theologians such as Dorothy C Bass Craig Dykstra and those associated with their ongoing project The potential for the church to become an agent of discipleship love and service can best be realised when the church anticipates God's promised perfection in the full communion between God and humanity among human beings within human persons and between humanity and the rest of creation

From Easter to Holy Week Laura E. Moore, 2019-10-07 The story of the twentieth century Liturgical Movement is more than anything else about the rediscovery and renewed understanding of the fundamental reality of the Paschal Mystery and of the Paschal identity of the Church This identity is expressed and celebrated whenever the Body of Christ every member welcomes new members in the waters of baptism and feasts with them in the Eucharist especially as these are celebrated during Holy Week This book explores this rediscovery first in the Roman Catholic Church and then in the Episcopal Church and other Churches of the Anglican Communion and looks in particular at how both grassroots and official work played a role in renewing and restoring the liturgical celebrations of Holy Week

The Living Church, 1997

Issues in Prayer Book Revision Robert W. Prichard, 2018-09-17 Essays from academics across a spectrum of perspectives The Standing Commission on Liturgy and Music sought input from multiple sources in order to better understand the charge of the General Convention of 2015 suggesting that it present a plan for the revision of the Book of Common Prayer to the 2018 Convention While the individual chapters of this volume raise a variety of differing issues they

share a common assumption that one of the sources of information for the Standing Commission and the Church in its deliberations ought to be the community of academically trained liturgical scholars The hope of this volume is to open a conversation across the church that will continue in the future *Engaging the Spirit* Robert Boak Slocum,2018-02-20 For too long the Holy Spirit has tended to be either disregarded or the object of fanatical exclamation in the life of the church especially in western Christianity writes general editor Robert Boak Slocum in his introduction to this stimulating collection of eighteen essays from a broad spectrum of noted authors The essays in this collection give attention to many ways of the Spirit s life and activity for salvation and healing for making Christ present in our lives and in the church for empowering our prayers and liturgies for our inspiration and gifting for transformation of the way we live for the redemption of the world and the ultimate coming of God s kingdom for the unity of our relationships with each other and God As we recognize the Spirit s activity in our traditions and doctrines our prayers and liturgies and in all aspects of the life we live we may be better attuned to the leading of the Spirit into the future of faith and our life in God *Engaging the Spirit* was first published as a special Summer 2001 edition of the Anglican Theological Review and is dedicated to the late Charles P Price theologian and professor at Virginia Seminary A posthumously published essay by Dr Price is a fitting and unique addition to the collection

Drenched in Grace Lizette Larson-Miller,Walter Knowles,2013-06-26 The importance of baptism within Christian history theology and practice is of the first order Rooted in Christian Scripture baptism is initiation into Jesus Christ and the sacramental beginning of engagement with the church the body of Christ In recent decades the relationship between baptismal theology and ecclesiology has changed Rather than focusing solely on the implications of baptism for individuals the center of theological conversation has moved increasingly to the nature of baptism as formative of the church One of the pioneers in exploring this theological issue in the United States has been the Rev Dr Louis Weil who from the time he helped author the 1979 Book of Common Prayer has advocated for an approach called baptismal ecclesiology In a number of essays since the 1980s Dr Weil has encouraged an increasingly ecumenical conversation around this particular approach to ecclesiology This ecumenical collection of essays by a distinguished and international group of sixteen scholars continues the conversation on liturgy and ecclesiology begun by Fr Weil
