The Body in Language Horst Ruthrof,2015-12-17 This book opposes the position that meanings can be explained by way of intralinguistic relations as in structural linguistics and its successors and

rejects definitional descriptions of meaning as well as naturalistic accounts The idea that we are able to live by strings of mere signifiers is shown to rest on a misconception Ruthrof also attempts an explanation of why arguments grounded in a post Saussurean view of language as for instance certain feminist theories find it so difficult to show how precisely the body can be reclaimed as an integral part of linguistic signs In reinstating the body in language Ruthrof draws on Peirce Husserl Heidegger Wittgenstein and Derrida cognitive linguistics and rhetoric as well as on the writings of Helen Keller
