Formation and Third Party Beneficiaries Mindy Chen-Wishart, Alexander Loke, Stefan Vogenauer, Burton Ong, 2018 The Studies in the Contract Laws of Asia series charts the divergence in and common principles of contract laws across Asia with a view to providing the scholarly foundations for future harmonization and reform This second volume examines the formal requirements for contract formation and the rights of third parties Contracts for a Third-Party Beneficiary Jan Hallebeek, Harry Dondorp, 2008 This study deals with the concept of contracts for a third party beneficiary which is nowadays generally accepted in Western European jurisdictions The subject is discussed in its development through the ages as well as from the perspective of present day comparative law **Contracts For a Third-Party Beneficiary**, 2008-09-30 Through recent changes in Dutch 1992 and English 1999 private law contracts for a third party beneficiary are in Western Europe nowadays considered to be effective and enforceable This concept is however incompatible with both the civilian tradition on the continent and the traditional parties only rule of English common law The purpose of this study is to show how the problem of the third party beneficiary was dealt with during the various periods of Western legal thought and to discuss the subject from the perspective of present day comparative law The book is of interest not only to legal historians but also to all who are engaged with present day private law scholars practitioners and advanced students Contributors include David Ibbetson Regius Professor of Civil Law at the University of Cambridge and Hendrik Verhagen Professor of Private International Law Comparative Law and Civil Law at the Radboud University Nijmegen attorney at the firm Clifford Chance Amsterdam and deputy justice at the Court of Appeal s Hertogenbosch Studies in the History of Private Law vol 1

Incorporating the Third Party Beneficiary Principle in Natural Resource Contracts James Thuo Gathii, 2016 Third world citizens parties who often have the most to lose in natural resource contracts between their governments and foreign investors often have no voice in negotiations of the contracts and consequently have no remedy under contract law when harms occur or when the contracts are not properly enforced The privity of contracts doctrine which permits contract suits only by parties to the contract bars these citizens from suing because they were not in privity with any of the contracting parties despite that these contracts are generally made for the benefit of these citizens However some countries have adopted and this Essay argues other countries ought to adopt a rule that adequately protects the interests of these third parties the Third Party Beneficiary Principle The Third Party Beneficiary Principle permits third parties who lack privity to sue where the contract was formed for the benefit of such third parties In the context of natural resource contracts citizens are the intended third party beneficiaries and as such should have some legal mechanism by which they can sue under the contract The Third Party Beneficiary Principle is the best possible solution to current problems It can supplement the unenforceable methods of reproach currently available to citizens in natural resource contract situations that adversely affects them Though the Third Party Beneficiary Principle is not perfect in its application it is the best possible method

currently available for permitting citizens to seek legal remedies
