Gryzymkowski, 2011-04-18 *Factoid Attack* Inherent sadistic streak in dentists confirmed The electric chair was invented by a dentist Dr Alfred Southwick Not surprising dentists have been perfecting torture devices for centuries *Factoid Attack* Galaxy at risk Intelligent life in short supply In 1961 Astronomer Frank Drake estimated the number of probable intelligent civilizations inhabiting our galaxy Using conservative numbers that estimate came to 10 000 Unfortunately we are not included in that total *Factoid Attack* Colorblind bulls hate all matadors equally The color of a matador's cape or muleta is traditionally red which is widely believed to irritate the bull In reality bulls are colorblind so it is irrelevant what color cape a matador uses to antagonize them Shot in the dark but maybe it's the being stabbed with swords bit that pisses them off Forget *Fringe Warehouse 13* and *The X Files* In this book you'll find more weird and wacko truths than in all those combined From golden poison dart frogs with enough venom to kill ten grown humans to cockroaches that can survive radiation 15 times stronger than what kills people scary and strange just got scarier and stranger **The United States of Strange**

Eric Grzymkowski, 2012-06-18 *Life Liberty and the Pursuit of All Things Weird* Sure you probably know that George Washington was our first president and that Christopher Columbus accidentally discovered America in 1492 but did you know that there are more plastic flamingos in the United States than there are real ones and that Disneyland employees were not permitted to wear their own underwear while dressing in character until 2001 Behind the portrait of America that history classes news reports and boring documentaries have painted lies a strange and perplexing country that you couldn't imagine even in your wildest dreams Featuring 1 001 shocking facts this book reveals all the secrets and weirdness that you never knew about the United States From the thirty two bathrooms in the White House to the fact that a single U S made hamburger may contain meat from 100 different cows these wacky tidbits will guarantee that you'll never look at this nation the same way again [Chop Suey, USA](#) Yong Chen, 2014-10-28 American diners began flocking to Chinese restaurants more than a century ago making Chinese cuisine the first mass consumed food in the United States By 1980 it had become the

country's most popular ethnic cuisine Chop Suey USA is the first comprehensive analysis of the forces that made Chinese food ubiquitous in the American gastronomic landscape and turned the country into an empire of consumption Chinese food's transpacific migration and commercial success is both an epic story of global cultural exchange and a history of the socioeconomic political and cultural developments that shaped the American appetite for fast food and cheap labor in the nineteenth and twentieth centuries Americans fell in love with Chinese food not because of its gastronomic excellence They chose quick and simple dishes like chop suey over China's haute cuisine and the affordability of such Chinese food democratized the once exclusive dining out experience for underprivileged groups such as marginalized Anglos African Americans and Jews The mass production of food in Chinese restaurants also extended the role of Chinese Americans as a virtual service labor force and marked the racialized division of the American population into laborers and consumers The rise of Chinese food was also a result of the ingenuity of Chinese American restaurant workers who developed the concept of the open kitchen and popularized the practice of home delivery They effectively streamlined certain Chinese dishes turning them into nationally recognized brand names including chop suey the Big Mac of the pre McDonald's era Those who engineered the epic tale of Chinese food were a politically disfranchised numerically small and economically exploited group embodying a classic American story of immigrant entrepreneurship and perseverance **Glamour**, 2005 Scientific American, 1879
