these aspects have been factored into existing compulsory B2B data sharing initiatives so far particularly in Europe and on how they may be used as a source of inspiration in future initiatives Insightful suggestions on the implementation of these balancing exercises conclude the volume How this will help you Based on law and literature in competition personal data protection and intellectual property the book greatly highlights the necessary balances underlying compulsory B2B data sharing and raises awareness about the crucial need to take the risks involved into consideration It will be highly appreciated by policymakers academics and private actors interested in issues linked to competition law in the digital environment regulation of platforms data governance or the interaction between competition law and personal data protection law
