Contrived Competition Regulation And Deregulation In America

Louis Galambos

Contrived Competition Regulation And Deregulation In America:

Contrived Competition Richard H. K. Vietor, 1994 And Bank America caught short with bad loans and a deep recession in the early eighties nearly failed before Sam Armacost and then Tom Clausen achieved an amazing turnaround in the mid 1980s The Stakes of Regulation Steven L. Kaplan, 2015-08-15 Scholars have long regarded Bread Politics and Political Economy in the Reign of Louis XV 1793 as marking an important moment in the study of the social political and cultural history of eighteenth century France The Stakes of Regulation is the companion volume to a new edition of this landmark study revealing how Kaplan's thinking has evolved in reaction both to the changing intellectual epistemological historiographical and socio political environment and to the significant scholarship that has been accomplished during the past forty years Kaplan remains faithful to his original premise that the subsistence question is at the core of eighteenth century history and that the issues joined by the struggle over liberalization continue to shape our destiny today through the bristling tension between liberty and equality and the debate over the necessity legitimacy and character of regulation

The Deregulatory Moment? Robert G Boatright, 2015-10-22 For those who assume that increased regulation of political spending is inevitable in democratic nations recent developments in U S campaign finance law appear puzzling Is deregulation exemplified by the U S Supreme Court's decision in Citizens United v FEC a harbinger of things to come elsewhere or further evidence that the United States remains an anomaly In this volume experts on the United States Canada Great Britain Australia Germany Sweden France and several other European nations explore what deregulation means in the context of political campaigns and demonstrate how such comparisons can inform the study of campaign finance in the U S Whereas the contributors do not settle on any single theory of change in campaign finance law or any single perspective on the relationship between changes seen in the U S and those in other nations over the past decade they do concur that the U S is rapidly retreating from the types of regulations that defined campaign finance law in most democratic nations during the latter decades of the twentieth century By tracing and analyzing the recent history of regulation the contributors shed light on many pressing topics including the relationship between public opinion and campaign finance law the role of scandals in inspiring reform and the changing incentives of political parties interest groups and the courts The Government Taketh Away Leslie A. Pal, R. Kent Weaver, 2003-04-01 Democratic government is about making choices Sometimes those choices involve the distribution of benefits At other times they involve the imposition of some type of loss a program cut increased taxes or new regulatory standards Citizens will resist such impositions if they can or will try to punish governments at election time The dynamics of loss imposition are therefore a universal if unpleasant element of democratic governance The Government Taketh Away examines the repercussions of unpopular government decisions in Canada and the United States the two great democratic nations of North America Pal Weaver and their contributors compare the capacities of the U S presidential system and the Canadian Westminster system to impose different types of losses symbolic losses gun control and

abortion geographically concentrated losses military base closings and nuclear waste disposal geographically dispersed losses cuts to pensions and to health care and losses imposed on business telecommunications deregulation and tobacco control Theory holds that Westminster style systems should all things being equal have a comparative advantage in loss imposition because they concentrate power and authority though this can make it easier to pin blame on politicians too The empirical findings of the cases in this book paint a more complex picture Westminster systems do appear to have some robust abilities to impose losses and US institutions provide more opportunities for loss avoiders to resist government policy in some sectors But in most sectors outcomes in the two countries are strikingly similar The Government Taketh Away is essential for the scholar and students of public policy or comparative policy It is also an important book for the average citizen who wants to know more about the complexities of living in a democratic society where the government can give but how it can also sometimes painfully taketh away *Deregulatory Takings and the Regulatory Contract* J. Gregory Sidak, Daniel F. Spulber, 1997-11-28 This 1998 book addresses deregulatory policies termed deregulatory takings that threaten private property in network industries without compensation The Antitrust Enterprise Herbert Hovenkamp, 2008-03-31 Hovenkamp confronts not only the problems of poorly designed overly complex and inconsistent antitrust rules but also the current disarray of antitrust's rule of reason offering an antitrust policy faithful to the consumer welfare principle and more readily manageable by the federal courts and other antitrust tribunals **The Big Myth** Naomi Oreskes, Erik M. Conway, 2023-02-21 A carefully researched work of intellectual history and an urgently needed political analysis Jane Mayer A scorching indictment of free market fundamentalism and how we can change before it's too late Esquire Best Books of Winter 2023 The bestselling authors of *Merchants of Doubt* offer a profound startling history of one of America's most tenacious and destructive false ideas the myth of the free market In their bestselling book *Merchants of Doubt* Naomi Oreskes and Erik M Conway revealed the origins of climate change denial Now they unfold the truth about another disastrous dogma the magic of the marketplace In the early 20th century business elites trade associations wealthy powerbrokers and media allies set out to build a new American orthodoxy down with big government and up with unfettered markets With startling archival evidence Oreskes and Conway document campaigns to rewrite textbooks combat unions and defend child labor They detail the ploys that turned hardline economists Friedrich von Hayek and Milton Friedman into household names recount the libertarian roots of the *Little House on the Prairie* books and tune into the General Electric sponsored TV show that beamed free market doctrine to millions and launched Ronald Reagan's political career By the 1970s this propaganda was succeeding Free market ideology would define the next half century across Republican and Democratic administrations giving us a housing crisis the opioid scourge climate destruction and a baleful response to the Covid 19 pandemic Only by understanding this history can we imagine a future where markets will serve not stifle democracy

Reluctant Engagement: U.S. Policy and the International Criminal Court Mark D. Kielsgard, 2010-09-24 Why has the

United States taken such a firm stance against the International Criminal Court ICC and expended such diplomatic goodwill in an attempt to dismantle a tribunal that poses no serious risk to its citizens This book critiques causal ideologies such as American exceptionalism state sovereignty and laissez faire capitalism to show how U S opposition is driven by pervasive political legal historic military and economic conditioning factors It shows how U S attitudes transcend partisan politics and predicts how the U S ICC relationship will be affected by the economic crisis shifting international geopolitical power structures the crisis in the U S military unfolding international human rights law and the politics of change promised by the nascent Obama administration The United States has been at the centre of international criminal justice initiatives from Nuremberg to the more recent ad hoc tribunals for the former Yugoslavia Rwanda Sierra Leone and Lebanon But its position has been lukewarm and sometimes in the darkest days of the Bush administration outright hostile to the International Criminal Court Filling a gap in the literature Dr Mark Kielsgard reviews the history of American policy analysing the factors that have driven it making useful and practical suggestions aimed at greater engagement of the United States with the International Criminal Court Professor William A Schabas *Corporate Power, Oligopolies, and the Crisis of the State* Luis Suarez-Villa, 2014-12-09 Addresses the power of oligopolistic corporations in contemporary society The largest wealthiest corporations have gained unprecedented power and influence in contemporary life From cradle to grave the decisions made by these entities have an enormous impact on how we live and work what we eat our physical and psychological health what we know or believe whom we elect and how we deal with one another and with the natural world around us At the same time government seems ever more subservient to the power of these oligopolies providing numerous forms of corporate welfare tax breaks subsidies guarantees and bailouts while neglecting the most basic needs of the population In *Corporate Power Oligopolies and the Crisis of the State* Luis Suarez Villa employs a multidisciplinary perspective to provide unprecedented documentation of a growing crisis of governance marked by a massive transfer of risk from the private sector to the state skyrocketing debt great inequality and economic insecurity along with an alignment of the interests of politicians and a new minuscule but immensely wealthy and influential corporate elite Thanks to this dysfunctional environment Suarez Villa argues stagnation and a vanishing public trust have become the hallmarks of our time This book makes a substantial contribution to the literature particularly to the field of political economy It is unique and much needed for the way it draws links between a wide and diverse range of social economic and political phenomena through a sophisticated and powerful theoretical analysis Luis Suarez Villa manages to paint the big picture while touching upon detailed developments in numerous fields not unlike the great political economists of the nineteenth century Joel Bakan author of *The Corporation The Pathological Pursuit of Profit and Power* *Constructing Corporate America* Kenneth Lipartito, David B. Sicilia, 2004 This collection of cutting edge research reviews the evolution of the American corporation the dominant trends in the way it has been studied and at the same time introduces some new perspectives on the historical trajectory of the business organization

as a social institution The authors draw on cultural theory anthropology political theory and legal history to consider the place of the firm in nineteenth and twentieth century American Society **University of Chicago Law Review: Volume 78, Number 4 - Fall 2011** University of Chicago Law Review,2012-04-11 A leading law review now offers a quality eBook edition The fourth and final issue of 2011 Volume 78 features articles and essays from internationally recognized legal scholars and governmental leaders including Cass Sunstein on empirically informed regulation Jonathan Bressler on jury nullification and Reconstruction Daniel Schwarcz on standardized insurance policies and Bertral Ross II writing against constitutional mainstreaming in statutory interpretation In addition the issue includes a review essay on the book The Master Switch as well as student Comments on such subjects as same sex divorce religious practices by prisoners falsely claiming Medal of Honor status and enhancement in federal sentencing The issue is presented in modern eBook formatting and features active Tables of Contents linked footnotes and URLs and legible graphs and tables *Industry Studies* Larry L. Duetsch,2019-07-23 Featuring new chapters on casino gambling and the nursing home industry and updated throughout the new edition of this highly readable text analyzes well defined industries from commodities and manufacturing to distribution and services showing how firms compete with one another Each study gives appropriate attention to government policies that have influenced competitive conditions in the industry and the material is presented without the use of calculus so that anyone with some background in economic principles can benefit from it The book provides balance in regard to the mix of industries dealt with and also in the varying perspectives of the contributors Regulating Europe Giandomenico Majone,2002-11 First published in 2004 Routledge is an imprint of Taylor Francis an informa company **The International Distribution of News** Jonathan Silberstein-Loeb,2014-02-24 Based on newly available and extensive archival evidence this book traces the history of international news agencies and associations around the world from 1848 to 1947 Jonathan Silberstein Loeb argues that newspaper publishers formed news associations and patronized news agencies to cut the costs of news collection and exclude competitors from gaining access to the news In this way cooperation facilitated the distribution of news The extent to which state regulation permitted cooperation or prohibited exclusivity determined the benefit newspaper publishers derived from these organizations This book revises our understanding of the operation and organization of the Associated Press the BBC the Press Association Reuters and the United Press It also sheds light on the history of competition policy respecting the press intellectual property and the regulation of telecommunications

Privatisation and Liberalisation in European Telecommunications Willem Hulsink,2012-12-06 This book combines a detailed sector specific study of comparative telecommunications regimes set in the context of the EC with an extensive historical and empirical analysis of individual policy management and change as experienced by three diverse regulatory cultures namely Britain the Netherlands and France By adopting a comprehensive analytical framework based on far reaching literature the author explores a wide range of theories addressing key issues at the forefront of contemporary

political and academic debate as Do nation states matter in the globalizing telecommunications industry Does the common challenge of techno global telecommunications restructuring elicit different national responses What is the significance of a single speed or multi speed Europe in implementing telecommunications governance regimes

Business History around the World Franco Amatori, Geoffrey Jones, 2003-09-18 This 2003 book offered the first in depth international survey of contemporary research and debates in business history Over the two decades leading to its publication enormous advances had been made in writing the history of business enterprise and business systems Historians are documenting and analyzing the evolution of a wide range of important companies and systems their patterns of innovation production and distribution their financial affairs their political activities and their social impact Each essay is written by a prominent authority who provides an assessment of the state and significance of research in his or her area This volume is a reference work that will be of immense value to historians economists management researchers and others concerned to access the latest insights on the evolution of business throughout the world

American Business Since 1920 Thomas K. McCraw, William R. Childs, 2018-02-13 Tells the story of how America s biggest companies began operated and prospered post World War I This book takes the vantage point of people working within companies as they responded to constant change created by consumers and technology It focuses on the entrepreneur the firm and the industry by showing from the inside how businesses operated after 1920 while offering a good deal of Modern American social and cultural history The case studies and contextual chapters provide an in depth understanding of the evolution of American management over nearly 100 years American Business Since 1920 How It Worked presents historical struggles with decision making and the trend towards relative decentralization through stories of extraordinarily capable entrepreneurs and the organizations they led It covers Henry Ford and his competitor Alfred Sloan at General Motors during the 1920s Neil McElroy at Procter Ferdinand Eberstadt at the government s Controlled Materials Plan during World War II David Sarnoff at RCA in the 1950s and 1960s and Ray Kroc and his McDonald s franchises in the late twentieth century and early twenty first and more It also delves into such modern success stories as Amazon com eBay and Google Provides deep analysis of some of the most successful companies of the 20th century Contains topical chapters covering titans of the 2000s Part of Wiley Blackwell s highly praised American History Series American Business Since 1920 How It Worked is designed for use in both basic and advanced courses in American history at the undergraduate and graduate levels

A Companion to 20th-Century America Stephen J. Whitfield, 2008-04-15 A Companion to 20th Century America is an authoritative survey of the most important topics and themes of twentieth century American history and historiography Contains 29 original essays by leading scholars each assessing the past and current state of American scholarship Includes thematic essays covering topics such as religion ethnicity conservatism foreign policy and the media as well as essays covering major time periods Identifies and discusses the most influential literature in the field and suggests new avenues of research as the century has drawn to a close

Communication and Technology Lorenzo Cantoni, James A. Danowski, 2015-08-31 The primary goal of the Communication and Technology volume 5th within the series Handbooks of Communication Science is to provide the reader with a comprehensive compilation of key scholarly literature identifying theoretical issues emerging concepts current research specialized methods and directions for future investigations The internet and web have become the backbone of many new communication technologies often transforming older communication media through digitization to make them compatible with the net Accordingly this volume focuses on internet web technologies The essays cover various infrastructure technologies ranging from different kinds of hard wired elements to a range of wireless technologies such as WiFi mobile telephony and satellite technologies Audio visual communication is discussed with reference to large format motion pictures medium sized television and video formats and the small screen mobile smartphone There is also coverage of audio only media such as radio music and voice telephony text media in such venues as online newspapers blogs discussion forums and mobile texting and multi media technologies such as games and virtual reality **The Creative Society - and the Price Americans Paid for It** Louis Galambos, 2012 Examines the nation s emerging ranks of professional experts including doctors lawyers scientists and administrators and their role in shaping modern America
