*Communication and the Economy* Joshua S. Hanan, Mark Hayward, 2014 This collection brings together established and emerging scholars in communication studies to examine the relationship between communication and the economy in contemporary society Through concrete case studies and theoretically informed essays the chapters explore a range of important disciplinary topics from the rhetoric of economics to the role of language in mediating financial crises

**Cyclopaedia of Political Science, Political Economy, and of the Political History of the United States** John Joseph Lalor, 1889 *Bulletin of the Atomic Scientists*, 1973-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *The Story of Work* Jan Lucassen, 2021-07-27 The first truly global history of work an upbeat assessment from the age of the hunter gatherer to the present day We work because we have to but also because we like it from hunting gathering over 700 000 years ago to the present era of zoom meetings humans have always worked to make the world around them serve their needs Jan Lucassen provides an inclusive history of humanity's busy labor throughout the ages Spanning China India Africa the Americas and Europe Lucassen looks at the ways in which humanity organizes work in the household the tribe the city and the state He examines how labor is split between men women and children the watershed moment of the invention of money the collective action of workers and at the impact of migration slavery and the idea of leisure From peasant farmers in the first agrarian societies to the precarious existence of today's gig workers this surprising account of both cooperation and subordination at work throws essential light on the opportunities we face today *Frontiers for the American Century* James Spiller, 2016-04-29 This book compares the cultural politics of the U S space and Antarctic programs during the Cold War It analyzes how culturally salient terms especially the nationalist motif of the frontier were used to garner public support for these strategic initiatives and more generally United States internationalism during this period **The Oxford Handbook of Media and Social Justice** Srividya Ramasubramanian, Omotayo O. Banjo, 2024-09-13 The urgency and complexity of contemporary social justice issues facing the world today mean that activists scholars and storytellers need a readily available compendium of cutting edge scholarship on media and social justice The Oxford Handbook of Media and Social Justice gathers over forty leading scholars and presents a state of the art systematic overview of media and social justice Representing leading voices across positionalities and perspectives geographies and generations meta theories and methods and issues and identities the Handbook explores intersecting identities social structures and power networks within media ownership representation selection uses effects networks and social transformation These theories methods and practices expose media and digital divides polarization marginalization exclusion alienation invisibilities stigma and trivializations Yet they also showcase how individuals and communities also have agency through refusal and resistance Each of the 32 chapters includes a brief history

key concepts contemporary debates and dialogues and future directions and the volume concludes with reflections on resistances reckoning and reparative justice Connecting critical media scholarship with intersectional feminism postcolonial anticolonial theory Indigenous approaches queer theory diaspora studies and environmental justice frameworks the Handbook re envisions the role of media and technology with an inclusive trauma informed approach to scholarship that is essential for the future of this research

Post-Truth Geographies Barney Warf,2023-09-05 This book explores the geographical dimensions and implications of the post truth era Opening with a defense of the Enlightenment and the continued significance of science objectivity and truth it then provides three key perspectives on the concept The first is a philosophical analysis of post truth Social theory in various forms has sutured knowledge and power in the process relativizing the nature of truth This process reaches its apogee under post modernism which questions the very nature of truth itself The second is the examination of the historical origins and development of the post truth world While post truth has a history that can be traced back to the 18th and 19th centuries more recently it has growth prolifically through the use of social media The book examines post truth as it appears in the yellow journalism of the Hearst newspapers Holocaust denial and contemporary attacks on science itself e g the anti vaccine movement denial of evolution Post truth becomes a central issue in Western politics following Brexit and the election of Donald Trump who uses it frequently to advance a reactionary political agenda Russian hackers weaponize it to interfere in the politics of Europe and the U S Fox News and other right wing outlets also play a central role One result is the proliferation of unfounded conspiracy theories such as QAnon Today autocrats and dictators the world over use fake news to maintain their power Finally this book links the rise of a post truth society to the dynamics of contemporary economic geography Knowledge intensive capitalism has greatly elevated the significance of symbolic workers or the creative class Geographically contemporary capitalism has accentuated the agglomeration of producer services in large urban areas in which such workers labor Conversely rural areas and small towns have largely become repositories of the undereducated and thus are more susceptible to fake news

**Touts** Enrique Martino,2022-08-22 Touts is a historical account of the troubled formation of a colonial labor market in the Gulf of Guinea and a major contribution to the historiography of indentured labor which has relatively few reference points in Africa The setting is West Africa s largest island Fernando Po or Bioko in today s Equatorial Guinea 100 kilometers off the coast of Nigeria The Spanish ruled this often ignored island from the mid nineteenth century until 1968 A booming plantation economy led to the arrival of several

hundred thousand West African principally Nigerian contract workers on steamships and canoes In Touts Enrique Martino traces the confusing transition from slavery to other labor regimes paying particular attention to the labor brokers and their financial logistical and clandestine techniques for bringing workers to the island Martino combines multi sited archival research with the concept of touts as lumpen brokers to offer a detailed study of how commercial labor relations could develop shift and collapse through the recruiters own techniques such as large wage advances and elaborate deceptions The result is a pathbreaking reconnection of labor mobility contract law informal credit structures and exchange practices in African history
