Real Food, Real Facts Charlotte Biltekoff, 2024-08-27 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more In recent decades many members of the public have come to see processed food as a problem that needs to be solved by eating real food and reforming the food system But for many food industry professionals the problem is not processed food or the food system itself but misperceptions and irrational fears caused by the public's lack of scientific understanding In her highly original book Charlotte Biltekoff explores the role that science and scientific authority play in food industry responses to consumer concerns about what we eat and how it is made As Biltekoff documents industry efforts to correct public misperceptions through science based education have consistently misunderstood the public's concerns which she argues are an expression of politics This has entrenched food scientism in public discourse and seeded a form of antipolitics with broad consequences Real Food Real Facts offers lessons that extend well beyond food choice and will appeal to readers interested in how everyday people come to accept or reject scientific authority in matters of personal health and well being

Vicente Ximenes, LBJ's Great Society, and Mexican American Civil Rights Rhetoric Michelle Hall Kells, 2018 Beginning as a grassroots organizer in the 1950s Vicente Ximenes was at the forefront of the movement for Mexican American civil rights through three presidential administrations joining Lyndon B Johnson's Great Society and later emerging as one of the highest ranking appointees in Johnson's administration One of the most influential government representatives of Mexican American issues in recent history Ximenes succeeded largely because he could adapt his rhetoric for different audiences in his speeches and writings In *Vicente Ximenes LBJ's Great Society and Mexican American Civil Rights Rhetoric* Michelle Hall Kells elucidates Ximenes's achievement through a rhetorical history of his career as an activist Kells draws on Ximenes's extensive archive of speeches reports articles and oral interviews to present the activist's rhetorical history and begins each chapter with an excerpt from the collection that showcases Ximenes's ability to negotiate multiple public spheres Exploring Ximenes's legacy against the backdrop of the Cold War era Kells's analyses illustrate how Ximenes effectively agitated for open inclusive and pluralist democracy at regional and national levels After a

discussion of Ximenes's early life the author focuses on his career as an activist examining Ximenes's leadership in several key civil rights events including the historic 1967 White House cabinet committee hearings on Mexican American Affairs and highlighting his role in advancing Mexican Americans and Latinos from social marginalization to greater representation in national politics Kells concludes by reflecting on the later years of Ximenes's life and his contributions to the post World War II civil rights movement Vicente Ximenes LBJ's Great Society and Mexican American Civil Rights Rhetoric shows us a remarkable man who dedicated the majority of his life to public service using rhetoric to mobilize activists for change at the grassroots level as well as at the highest levels of government to secure civil rights advances for his fellow Mexican Americans

Feminist Technical Communication Erin Clark, 2024-01-15 Feminist Technical Communication introduces readers to technical communication methodology demonstrating how rhetorical feminist approaches are vital to the future of technical communication Using an intersectional and transcultural approach Erin Clark fuses the well documented surge of work in feminist technical communication throughout the 1990s with the larger social justice turn in the discipline The first book to situate feminisms and technical communication in relationship as the focal point Feminist Technical Communication traces the thread of feminisms through technical communication's connection to social justice studies Clark theorizes slow crisis a concept made readable to technical communicators by apparent feminisms that can help technical communicators readily recognize and address social justice problems Clark then applies this framework to the Deepwater Horizon Disaster an extended crisis that has been publicly framed by a traditional view of efficiency that privileges economic impact Through rich description of apparent feminist information gathering techniques and a layered analysis this study offers application far beyond this single disaster making available new crisis response possibilities that consider the economy without eliding ecological and human health concerns Feminist Technical Communication offers a methodological approach to the systematic interrogation of power structures that operate on hidden misogynies This book is useful to technical communicators scholars of technical communication and rhetoric and readers interested in gender studies and public health and is an ideal text for graduate level seminars focused on feminisms social justice and cultural studies

Community-based fall armyworm (*Spodoptera frugiperda*) monitoring, early warning and management Food and Agriculture Organization of the United Nations, Centre for Agriculture and Bioscience International, 2019-02-12 Fall Armyworm FAW *Spodoptera frugiperda* was first reported in Africa in 2016 Since then it has become a very destructive invasive pest in sub Saharan Africa Its main impact is on maize crops and affects different stages of growth from early vegetative to physiological maturity In several countries affected by FAW attack farmer responses have been predominantly based on the use of chemical pesticides It is important to ensure the safe use of such pesticides by farmers but also to promote and deploy an integrated pest management IPM package against FAW Farmers need the right advice tools and resources to sustainably manage FAW This manual provides farmers and extension service providers easy to use information

on how they can manage FAW in smallholder cropping systems It provides information about modules for training trainers in FAW pest diagnostics scouting management and data collection The objective of this training is to provide trainers and farmers with the knowledge and skills that will enable them to identify FAW and differentiate it from other similar pests understand the life cycle of FAW and know how to monitor and manage the pest This manual gives trainers the information they need in order to support and sustain an IPM approach for FAW management in their communities The manual is modular and allows for updates in the future as more knowledge and solutions to manage FAW become available

Global Rhetorics of Science Lynda C. Olman,2023-09-01 With this volume the field of rhetoric of science joins its sister disciplines in history and philosophy in challenging the dominance of Euro American science as a global epistemology The discipline of rhetoric understands world making and community building as interdependent activities that is if we practice science differently we do politics differently and vice versa This wider aperture seems crucial at a time when we are confronted with the limitations of Euro American science and politics in managing global risks such as pandemics and climate change particularly in our most vulnerable communities The contributors to this volume draw on their familiarity with a wide range of global scientific traditions from Australian Aboriginal ecology to West African medicine to Polynesian navigation science to suggest possibilities for reconfiguring the relationship between science and politics to better manage global risks These possibilities should not only inspire scholars in rhetoric and technical communication but should also introduce readers from science and technology studies to some useful new approaches to the problem of decolonizing scenes of scientific practice around the world
