Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971 New York Public Library. Research Libraries, 1979 **An Introduction** Giulio Colesanti, Manuela Giordano, 2014-08-27 This volume deals with the submerged literature of ancient Greece that is all the texts produced for socially relevant events that have contributed to the configuration and articulation of ancient Greek culture as we know it In particular the hermeneutic tool of submerged literature may shed new light on the dynamics behind the emersion or submersion of certain texts during different periods The category of submerged literature is extended here to include preserved and lost texts as well as those texts that can be reconstructed through investigation The volume investigates the manifold speech acts that we know of through various sources and that either from the outset or over the course of time have been placed at the edge of diffusion conservation and transmission The essays contained in the volume deal with questions of hermeneutics philology and methodology as well as with epic cycles lyric poetry tragedy comedy satyr drama and mime By approaching these genres from the perspective of submerged literature the book tries to provide a more precise contextualization of the texts within the communication system of ancient Greece The book thus presents a new line of research and a series of studies that take a fresh look at the texts and all archaeological and iconographic sources relating to Greek culture taking into account the results of ethnographic and anthropological research This extensive investigation examines unique ancient Greek orality and literacy dynamics using a new hermeneutic frame that will hopefully reshape our understanding of ancient Greek culture **Harvard Studies in Classical Philology**, 1969 **De Comoediae Atticae Primordiis (Classic Reprint)** Hermann Eduard Sieckmann, 2018-02-28 Excerpt from De Comoediae Atticae Primordiis Ex eis qui in comoedia Attica Operam posuerunt Zie liu ski gliederung der altattischen Com die 1885 in primordiis eius cognoscendis optime mihi videtur elaboravisse et eo quod
